COMING TO THE LIBERTY THURSDAY, FRIDAY AND SATURDAY IN "BELOVED TRAITOR"

Exact Methods Needed to Control Grain Smut

Corvallis, Or., May 13.—Grain smut can be controlled only by extra methods of seed treatment.

This has been brought home to hundreds of farmers by the field men in the smut control campaign carried on by the O. A. C. experiment station.

All over the state grain smut can only be controlled by the use of exact methods in seed treatment. This is a fact that field men in the smut eradication that has been carried on by the Oregon Agricultural experiment station campaign have brought home to hundreds of farmers in all sections of Oregon. All over the state farmers have been found using lax methods of seed treatment, many of which were not effective in controlling the smut, and a great many acres were found

where the treatment killed the smut all right, but it was so effective that it killed a large portion of the grain also.

That farmers are awaking to the necessity for proper care in this matter is attested by the following report sent to H. P. Barrs, plant pathologist at O. A. C., by Arthur L. Dickinson near Mt. View, Benton county, Oregon, a volunteer reporter in the Oregon crop disease survey:

"We sowed some oats that was not treated with formalin to finish a piece and this strip was affected very bad with smut, while the rest had very little, if any.

"I also sowed some wheat that had been treated a couple of weeks or more, which did not grow well, and two or three neighbors also noticed that the grain that had been treated and stood for a time did not grow as well as that which was treated just before planting."

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes any one look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or mixed into the blood, run through the lymph ducts which should suck only nourishment to sustain the body.

A splendid breakfast measure is to drink before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store but is sufficient to make anyone an enthusiast on inside bathing. Men and women who are accustomed to wake up with a dull, a blur head or have furred tongue, bad taste, nasty breath, yellow complexion, others who have bilious attacks, acid stomach or constipation are assured of pronounced improvement in both health and appearance shortly.

State Creates Home Guard Regiments

Portland, Or., May 14.—Two regiments of Oregon Guard have been created, with William C. North as Colonel in command, by general orders issued by Acting Adjutant-General John M. Wil-

son in command in Major Andrew J. Cooper, who is elevated to the rank of lieutenant-colonel.

The 1st Regiment of the Oregon Guard, composed of a battalion in Portland and one in Salem, is officially attached to the National Guard of Oregon, and its members will be uniformly equipped at expense of the state.

Residing at Roseburg and LaGrande comprise the second Regiment of the Guard. This unit is recognized as State Militia, effective April 30, 1918, but remains a "separate" contingent.

These steps are the first that definitely start the program designed to organize a strong infantry guard, to be equipped with cavalry and field artillery units.

First Regiment Numbers 760

The First Regiment now an active part of the National Guard of Oregon, as its nucleus the companies of Spanish War veterans of Portland and Salem. The personnel at present numbers 760 men and officers. Each company is being ordered to recruit up to a strength of 150 men, which will approximately double the aggregate.

Colonel North, the new commander by virtue of an election and commission, is a Spanish War veteran, former lieutenant and adjutant of the Oregon Guard and business man of Portland. Lieutenant Colonel Woodport, of Salem, is a Spanish American War veteran, company M of the Third Oregon of the Mexican border. He has been in the Guard company at

RECORD WINDSTORM

Redding, Cal., May 14.—The highest wind ever known in Redding last night ripped abing-les from roofs and shook foundations of houses which never have wavered before a storm. The wind came from the west. It did not bring the much needed rain for which farmers had hoped.

Rev. John A. Goode Is Located at Hood River

Portland, Or., May 14.—Anxious search for Rev. John A. Goode, pastor of the First United Evangelical church of this city, who left Portland 10 days ago while suffering from a mental lapse due to illness and whose exact whereabouts had been unknown to his relatives and friends since that time came to an end yesterday when Dr. Goode was located at Hood River.

The case presents many of the manifestations of nervous breakdown, due to too close attention to work and study following an attack of grippe. Leaving home without a hint of his intention, Dr. Goode caused the gravest apprehension among his parishioners by his unexpected absence. The first knowledge of his unfortunate condition was conveyed in telegrams sent by him from Seattle and Tacoma to friends in this city.

Polk Farmers Will Try Sorghum Cane

Dallas, Or., May 14.—The Polk county Fair association and the Dallas Commercial club are cooperating in an endeavor to interest farmers of Polk county in the raising of sorghum cane. A limited amount of sorghum seed has been secured and will be distributed free to any one who will agree to plant it and cultivate the cane.

If sufficient acreage can be secured a community press and cooking vat will be erected. J. O. Hunslett, a farmer living south of Independence, has been raising sorghum cane for several years and has made enough syrup for family use and to sell to his neighbors.

Will Get Action On Aircraft Tomorrow

Washington, May 14.—Upon Senator Thompson's promise to get committee action tomorrow on the resolution empowering the senate military affairs committee to investigate aircraft production and other phases of war department activity, military affairs committee members today agreed not to force senate action on the resolution.

Senator Thompson today received

a letter from Secretary of War Baker stating that Baker would not oppose the investigation. Administration forces have prepared amendments limiting the scope of the investigation to war expenditures.

KILLED BY NEGRO

Marysville, Cal., May 14.—Patrolman James Mock died at 5:45 o'clock this morning as the result of a gunshot wound which he received in a struggle with Will Shortridge, a negro, a week ago today.

Shortridge was arrested by a posse the day of the shooting and will now be charged with murder. Mock was trying to arrest Shortridge for the alleged robbery of Joe Martinez, a laborer, when Shortridge seized the officer's gun.

AMERICANS GOT THREE

(Continued from page one)

No Man's Land.

Arriving at the stronghold they found an officer and several men. Their first shots dropped the officer and they got three more, the others running up a communicating trench.

The three doughboys then retreated. Two of them, arriving in the American trenches discovered that their comrades were missing. They organized a posse party and found him. They are now the pride of the unit.

Dismukes who "utters, was asked by a major if he had gone enough. "Major," he replied, "I'm f-f-f-ed up for today."

It was Dismukes who "got" three. Another riding party, composed of several officers and men, penetrated the German lines in a daylight sortie. They were exploring the positions when they suddenly found themselves surrounded by the boches.

The Americans cut loose and a free for all shooting match followed. The Yankees retreating as they fired.

One private dropped into a shell hole, emptying his automatic into the Germans and holding them off while his comrades reached safety.

Obtaining reinforcements, they re-engaged the Germans who were now numerous. They executed their mission successfully, the Germans retiring. The Americans brought back the body of a German, together with a number of papers containing valuable military information.

Salmon Canneries at Steveston Burned

Vancouver, B. C., May 14.—Steveston, the salmon fishing metropolis of British Columbia, was devastated by fire this morning. A heavy wind fanned the blaze which broke out at 8:30 o'clock and the great frame buildings of three canneries went up like match wood. At 9:30 the fire was still raging. Three canneries, the Star, Lighthouse and Steveston have burned and two hotels are also gone.

Roughly the canneries are worth \$100,000 each and cannot now be replaced before the opening of the fishing season six weeks from now. One entire block of stores has burned.

The damage cannot be less than about half a million dollars.

ONLY FOUR OPINIONS BY SUPREME COURT

Gile & Co. Lose Prune Case --Homer Ford Conviction Set Aside

H. S. Gile and W. T. Jenks, co-partners, under the name and style of H. S. Gile & Co., appellants vs. Sanford A. Lasselle, appellee from Linn county, Oregon judge, affirmed. This is an action to replevin 794 bags of prunes containing about 70,000 pounds. Valued at \$45,000. Complaint alleges the property was in possession of Percival I. Rust, on storage by them and subject to them order that defendant, wrongfully took them from the possession of Rust, and shipped them to Albany where defendant unlawfully detains them to plaintiff's damage in the sum of \$350. The plaintiff demands judgment for the recovery or for \$4,500 as their value and for \$350 damages.

Defendant alleges he is acting for John H. Leslie & Co., of Chicago, bought the prunes above described of Rust with Leslie & Co.'s money, and that they are said firm's property, but plaintiff took them by writ of replevin. A contract in writing between plaintiff and Rust, for the sale of prunes had delivery is completed. "This court has often held," said the opinion, "that a clause under an executive contract will not support replevin by the buyer from the seller."

The court holds the plaintiff's remedy is by an action for damages for the breach of an executive contract, so far as the record discloses. Other opinions were as follows:

George Black vs. Southern Pacific company, appellee; appealed from Multnomah; action brought to recover alleged excess freight charges; opinion by Justice Harris; Circuit Judge Gatens reversed.

Marie DeWar vs. First National bank of Roseburg, appellee; appealed from Douglas; action to recover money deposited in bank and loaned by president of bank without depositor's consent; opinion by Justice Benson; Circuit Judge Hamilton, affirmed.

Petition for rehearing was denied in Elmore vs. Stephens-Russell Company, Montana Coal & Iron Company vs. Hoskins, and Robinson vs. Knights and Ladies of Security.

State versus Homer Ford, defendant appellant, and Elizabeth G. Frary, defendant, appealed from Multnomah county; Davis Judge; defendant was convicted of forging a deed in favor of J. D. McKinnon, May 12, 1914; reversed.

Information Bureau of the Woolen Mill Store

The Government is contracting for 86,000,000 Yards of Blue denoms, to make overalls for the Army, at 34½ cents per yard, to be used over the wool suit for certain kinds of work. This is done in the interest of economy of Woolen fabrics.

It is somewhat remote but not beyond the possibility that the Government may ration out the wool something on the same lines of the Flour.

Watch this space for something worth knowing.

SALEM WOOLEN MILLS STORE

LOANED \$400,000,000.

Washington, May 14.—This government today authorized additional credits of \$200,000,000 to Great Britain \$100,000,000 to France and \$100,000,000 to Italy. The new credit makes the debt of Great Britain to the United States \$2,995,000,000; France's debt, \$1,665,000,000 and Italy's \$650,000,000, and brings the total debt of foreign countries to the United States to \$5,763,800,000.
