Silverton News

(Capital Journal Special Service) Silverton, Or., May 15.—Both the lumber mills of Silverton are busy on orders for ship building materials and aeroplane stuff, and a trip through the mill is especially interesting at this time.

The Silver Falls Company is just starting on an order for a million and a half feet of ship timbers to be shipped to Japan, the first three carloads going out last week. The material is to be used for merchant ships for a Japanese corporation and is doubtless part of the war program in as much as the order has the sanction of the U. S. government.

At the Silverton Mill they are working on a contract for construction material for the Hog Island ship yard in Pennsylvania concerning which so much has been seen in the papers lately. Both mills are turning out large cuts for aeroplanes. These are cut three inches thick and sent direct from the saw to a plant at Vancouver, which cuts them down to the proper size for use in building flyers for Uncle Sam. At Vancouver the signal corps cut up plant of the army is receiving an immense amount of this material from mills of the west and work has to be continuous through out the twenty four hours of the day to take care of the supply. A large dry kiln is being built for the cut-up plant, where the spruce lumber will be dried before shipment east. By drying the stock in the west a great saving can be made in several ways. More stock can be shipped and the stock that shows flaws of any kind can be thrown out.

So Silverton is doing her bit in furnishing the government with the sinews with which to beat the Hun.

Miss Marjorie Morley is quite sick at her home with pneumonia. Her sister Pauline, is finishing her school in the Davis district.

Norton Cowden of West Lake is visiting with his parents, Mr. and Mrs. R. A. Cowden.

Donald Smith, the nine year old son of Mr. and Mrs. Walter Smith who reside in the Silverton Hills near here was very badly injured last evening while playing with some dynamite caps. The little fellow had a cap in his waist pocket and was holding one in his hand. Some how they exploded and blew two fingers off one hand, blew one of his eyes out and inflicted a serious wound in his side. A physician was summoned as soon as possible and the little boy was taken to Portland this morning. The physician says the injury will not likely prove fatal, however.

The West Side Salem school Red Cross auxiliary, organized four months ago reports good work done in the way of completing nine hospital quilts and the making of 5,000 gun wipes. Also in making a great number of hospital bags. This same auxiliary did good service at the time clothing was collected for the Belgian sufferers.

The report of the librarian for the month of April shows 123 volumes were added to the library during the month. Total books and pamphlets May 1, was 13,554, the total circulation for April was 4,677 and the total readers' cards in force 7,417.

If you happen to have an Italian flag about the premises, the loan of it will be cheerfully accepted May 24 at the postoffice. This morning Postmaster Hunkertstein received an order to the effect that all federal buildings coming under the direction of the treasury department should fly an Italian flag May 24 to commemorate the anniversary of Italy's entrance into the war. As the department in Washington had none to lend, nor the money appropriated to buy one, it has been suggested that anyone happening to have an Italian flag about two by three feet, might lend it for the occasion. It will fly from the flagstaff over the postoffice building under the national flag.

Mr. and Mrs. J. F. Mollenkop of 495 21st street fear their son was on the collier Cyclops reported over due since March 21. Earl Mollenkop enlisted in the navy four years ago and was due for a visit home before his re-enlistment. As the Cyclops was to arrive at an American port at an early date, he transferred from his ship the Raleigh for his homeward voyage. A telegram was received last evening, by the parents that their son had been transferred to the Cyclops.

This is written for the benefit of the good housekeeper. Notice was received this morning that Royal Baking Powder would hereafter be put up in six and twelve ounce cans instead of the half and pound cans. It seems that the Royal Baking Powder people just hated to

Volunteer Credit Cannot Be Allowed

Washington, May 15.—Senator Phelan, California, today received a letter from President Wilson in answer to Phelan's appeal that the president reconsider his opposition to giving credits for volunteers in the draft quotas. The president said: "I admit that there are two sides to the question about allowing credit for volunteers in conducting the draft but I have been over the matter several times and with very great care with the war department and am convinced that the interest of the country in the matter of winning the war will be best served by the measure as it stands."

"It is always with genuine hesitation that I find myself differing from men like yourself, to whose judgment I attach a great deal of importance and I am quite ready to concede that neither solution of this question is entirely satisfactory. We have to take the average best."

"Cordially and sincerely yours,
WOODROW WILSON."

State House News

The State Highway commission held a meeting in Portland yesterday but the business transacted was light, one feature being the payment for a dead horse, a real one and not the political kind. The commission took up the matter of road improvements in Marion county and while it has arranged to complete 18 miles of road in the county north of Salem, it feels the county should get in and grade and complete the road south to Jefferson. This it is understood had been agreed upon some time since by the Marion county officials, and it will most likely be done. Another reason why the county should respond by assisting in the good roads work is that it is having expended in it by the highway commission the entire proceeds of the Beau Ferry bonds for three years, 1917, 18 and 19 with the exception of \$15,000. The total amount is \$188,849.00.
