

Different-- and Better!

SEE THE CAPABLE ELGIN SIX

"THE CAR OF THE HOUR"

Critical examination proves that the good impression created by the first glance at the Elgin Six is deserved. Your first thought is, "Here is a different car!"

Then, after an inspection of the various details of construction of the Elgin Six, you add, "--and a better car!"

So impressive in style, beauty, distinction, economy and size is the Elgin Six that you are astonished to learn that it can be bought for \$1,250.

"The Story of Elgin Winnings" contains a message of vital interest to every intending purchaser who prizes motor car stamina, endurance and economy. Write for it today and we will include our beautiful catalog "L" and specifications.

Double Cowl Body

A famous artist has created body effects of such exquisite taste and harmonious proportions that the new Elgin Six radiates an atmosphere of refinement and distinction, so that it stands aloof from the monotonous design of the average car.

The long line body, swung between 118 inches of wheel base, follows the European fashion of double cowl, yet embodies the full yacht line effect. **No other motor car in the same price class has this stylish body effect.**

The interior is noticeably roomy and loungy. The seats are curved and tilted at just the right angle to permit leaning back in comfort, as you would at home in your favorite armchair.

A Mechanical Masterpiece

The Elgin Six improved cantilever rear spring suspension has set a new standard of motoring ease and comfort at high speeds. It gives perfect balance on the road, makes the car as smooth and easy running as a Pullman parlor car, and reduces to a minimum side-rolling, jolting and bouncing. It is an advanced engineering design, one of the most important improvements of the past year in motor car construction, and is found only in the Elgin Six.

The special construction of the Elgin velvet-acting clutch enables the Elgin Six to be started on high gear, under ordinary conditions, eliminating to a large degree the necessity of gear shifting, thus removing the last barrier to the safe and easy handling of a motorcar by women. **This design of clutch is not found in any other motor car selling at or near the Elgin price.**

While the new Elgin Six is a big, powerful car, it is an economical car to operate, and with satisfactory first cost and remarkably low expense of upkeep, not a single Elgin Six owner has been disappointed in the qualities of endurance and reliability possessed by his motor car.

Right From Every Standpoint

The Elgin Six delights the hearts of the most artistic on account of its style and beauty.

It has won the cold, measured approval of engineers and designers, who think in mechanical terms and calculate materials and proportions down to the thousandth of an inch.

It has won the gruff regard of the grimy-faced, greasy-handed repair men, who think only of the "insides" of a car and who seldom have to "doctor" an Elgin.

Because of its road ability, its easy control and quick responsiveness to the driver's touch, its smooth running and perfect balance on the road, it wins praise alike from the man who drives his own car and from the professional chauffeur.

It brings greater ease and comfort and more pleasure to delicate women and children on longer trips and over rougher roads.

It fits the pocketbook of the average American family, and effects substantial savings for them in the cost of motoring.

Elgin Sixes will advance \$150. Place your order at once if you want to be protected. Immediate delivery.

5-Passenger Touring **\$1250**
4-Passenger Roadster

5-Passenger Sedan **\$1795**
