EARL RACE, City Recorder.

### State Trapshooters Tourny In Portland

Portland, Or., May 20.—The annual championship tournament of the Oregon State Trapshooters' association got off with a "bang" at Evening Park, the home of the Portland Gun club, yesterday. Although the weather was far from ideal for shooting, and wind and rain prevailed throughout the day, 78 amateurs from all over the northwest turned out to compete on practice day.

P. S. Dohle of Albany, Or., holder of the Honeyeater diamond medal, retained the prize yesterday, defeating the field by breaking 49 out of the 50 targets. Sixty nine shooters competed for the beautiful trophy.

Frank Templeton won the John G. Clemson trophy after shooting off a tie with P. H. O'Brien, Frank Troch, A. K. Downs and H. E. Vench. The Clemson trophy was a 25-target event. The five shooters all breaking 25 except Templeton without a miss. In the shoot off Frank Templeton broke 20 straight winning the trophy.

Meet Starts at 9:30 A. M. Shooting started at 9:30 a. m. yesterday with four events of 10 targets each. A number of good scores were made. None of the shooters registered perfect scores, but the following turn in scores of 29 out of 30: P. C. Reil of Tacoma, P. H. O'Brien of Butte, Mont.; Charles Keith of Woodburn and Dr. C. E. Cathey of Portland.

Both the Honeyman and Clemson trophies were handicap events. There were no handicaps in the four-events shoot.

In one of the special features yesterday at the Portland Gun club the Troch Templeton family defeated the Troch family of Vancouver, 73 to 71 targets.

### State House News

Fisher, Thoren & Company, of Portland, capital stock \$10,000 and object

## DR. DAVID ROBERTS SQUIRMS ON STAND

### Attempts to Make It Appear He Has Been Hounded by Defense Attorney

Waukesha, Wis., May 20.—Judge Martin Lurek, sitting in the murder trial of Grace Lusk this afternoon ordered an investigation to determine if Dr. David Roberts "can and will be presented on a charge of adultery which he admits in his testimony in this case."

Attorney Henry Hemlock of Waukesha was named by the court to communicate with Chicago attorneys where adultery is believed to have taken place.

Dr. David Roberts squirmed under cross-examination today as attorneys for Miss Grace Lusk, charged with the murder of his wife, tried to show violations of the Mann "white slave" act in the doctor's trips with the defendant.

Roberts resumed his role as the hounded party in his affair with Miss Lusk. On one trip to Chicago, he testified, he did not wish to stop at the same hotel failed in this, he said, and in an effort to persuade her to take a separate room.

"Finally I got a room with twin beds in it," he said. "When she saw the twin beds, she said: 'I don't want this. Why do you get twin beds, if you try anything like this on me I'll kill you!'"

The sensation this testimony created in the crowded courtroom as the large number of women present had barely settled themselves from another sensation created by Dr. A. P. Lusk, the defendant's aged father.

Dr. Roberts had stated he accidentally met Miss Lusk and her father on an interurban car en route to Milwaukee and that she excitedly dropped Roberts a note asking him to meet her at a certain hotel in the evening. The trust was kept.

"What did you do with your father?" Dr. Roberts said he asked sent him home.

The aged man, with a flash in his eyes, shouted in the courtroom: "That's a lie."

Roberts painted Miss Lusk as a cave woman lover who, he said, struck him in the face on one occasion when he hesitated to assure her she was the greatest love in his life.

Miss Lusk sat calmly picking to pieces a dandelion in "he loves me he loves me not" fashion.

Roberts again admitted today their relations had been illicit, but stoutly maintained he had not paid her railroad fares on of state trips. He confessed, he gave Miss Lusk money at various times and on nearly every trip.

"Did this money cover railroad fares?" Defense Attorney Henry Lockney asked.

"I suppose that was included; I do not know," Roberts replied. He could not recall ever having purchased her ticket. Roberts refreshed his memory as to dates which the aid of a little notebook he carried with him to the stand.

Referring to specific jaunts to Chicago when Miss Lusk and Roberts stayed at the same hotel from one to three days at a time, Lockney asked if he remembered what happened at these meetings.

"If you will put your questions direct I would be glad to answer," said Roberts. "If you want to know as to intimate relations, I'll answer yes."

## SOLDIER FAMILIES IN SALEM FIRST TO RECEIVE MONEY

### Home Service Department of Red Cross Seeking to Discover Trouble

In not a single instance has the family of a soldier in Company M received any government allowance.

There are several cases in which this allowance is badly needed.

This information comes from the Home Service section of Willamette chapter American Red Cross, whose headquarters are permanently in an office adjoining the reading rooms of the Commercial club.

A telegram was sent Friday to Red Cross headquarters in Washington urging that action be taken to discover the cause of this delay. It is not known whether the papers with the records of the allowances to be made to families of company M are lost, or whether they were ever properly made out. The fact is, no allowances are being received and the action of the Home service was to locate the cause of the delay as soon as possible.

Aware of the many delays and often carelessness in the soldier not properly assigning his allowance, the Home Service is today sending out letters to the 48 men who are to be called to the service May 29, asking them to properly make out their allowances and give other data that will enable the Red Cross to locate them in case their family is in need.

The Home Service of the Red Cross has now become one of its most important branches, for in Salem alone, 16 calls for information were received this past week and the service already is securing information for 49 families.

## WARD THREE FAILED TO ERECT MEMBER

### Regular Election Will Be Necessary to Decide Who Is Alderman There

At the meeting of the city council to be held this evening, City Recorder Race will certify to the election of C. E. Albin as mayor and for the election of aldermen in all the wards excepting the third and seventh.

According to the way Recorder Race figures it, no one received a majority of all votes cast in ward three and ward seven and the refusal to certify is based on the statutes that provides that to be elected at the primary election, one must receive a majority of all the votes cast.

In ward three, J. S. Austin received 67 votes, R. E. Edwards 89 and O. J. Wilson 89. According to the figures of Mr. Race, no one received a majority of votes and no one elected.

In ward seven, N. D. Elliott received 79 votes, O. L. Scott 122, Ralph Thompson 165 and H. L. Clark 127, and as no one received a majority of votes cast, no one was elected.

As there will be no certificate of election tonight for aldermen in wards three and seven, it will be up to the council to decide whether any should have been certified, and whether anyone was elected.

In the city, the amendment passed with 1047 in favor and 483 opposed. This means that in each ward, the one receiving the highest vote, where any was elected, will serve for four years and the second highest, for two years. The long term men are R. W. Simeral in the first ward, Dr. F. L. Utter in the second, A. H. Moore in the fourth, Merlin Harding in the fifth and James McClelland in the sixth. The disposition of wards three and seven will come before the council tonight. The term for the newly elected mayor is for two years, beginning Jan. 1, 1919.

## QUALITY STORE

Where Bishop's All Wool Clothes Are Sold

## Satisfaction in Clothes

The men who buy their clothes in our store season after season do so for just one reason. They know that when they come to this store for a suit they always take out with them the satisfied feeling that they've got exactly what they want in style and quality.

## SALEM WOOLEN MILLS STORE

Men's Shoes \$5 to \$8  
Men's Hats \$3 to \$5

## Baldwin Appears In Many Different Places

While Baldwin is reported surrounded again over in the Corvallis neighborhood, word comes from Woodburn that a house was robbed east of that city Sunday and a 22 rifle and some food was taken. This leads to the suspicion that Baldwin is the robber. If so he is now armed although only for short range fighting. While petty robberies are reported from widely separated sections most of which are attributed to Baldwin the probability is that he has made his get-away and will not be caught for a month or two, and that at some point outside the state. The state police are still scurrying around, but they have run down many rumors without getting definite trace of Baldwin.

## Alien Women Will Be Registered Soon

Alien women, from the age of 14 years up, will soon be required to register. Notices will soon be posted and those who are alien are supposed to get their information either from the post office notices or from the newspapers.

In Salem, registration will be at the police station. For those receiving their mail or living on the rural routes running out of Salem, registration will be at the postoffice.

When the order is issued, according to instructions, no excuses will be accepted by federal authorities for not registering. Just the same as alien men, an alien woman is one who is over 14 years of age, whose parents are not citizens of this country. If an alien woman marries a citizen of this country, she then becomes a citizen. The general law of nations is that the wife partakes of the citizenship of the husband and this applies in this country. In towns of less than 5,000, alien women register at their postoffice, or at the postoffice serving them on a rural route.

## Ten Persons Killed and Many Injured

Crofton, Neb., May 20.—Two persons were killed and 25 injured, six perhaps fatally in a tornado that swept from eight miles northeast of Bloomfield through Crofton Saturday night. The twister razed fifteen farm houses, many outbuildings and killed many head of cattle and horses.

The known dead are: Mrs. August Frederickson, living six miles south of Crofton. Mrs. John Rupert, five miles north-east of Crofton.

Among the injured were the husband and four children of Mrs. Frederickson Mr. and Mrs. Gus Dahr, Mr. Rupert and three children and a grandson; and Barney Juden.

Mrs. Frederickson, carrying her baby in her arms, was killed when a flying timber struck her as she was running to a cave. The baby "escaped serious injury."

## Advance In Stocks Halted In Wall Street

New York, May 20.—The New York Evening Sun financial review today said:

Price movements in today's stock market demonstrated clearly enough that the vigorous advance of the past fortnight or more had temporarily come to a halt and that the market was entering into a period of adjustment, the logical sequence in such a broad upward swing. The general list recorded irregularly. There were moments of strength, but early afternoon declines ranged from one to three points.

This was attributable not so much to definite liquidation as to further selling for the short account and realizing sales with an eye to participation in the buying again when signs of a revival should come.

With the accumulated orders in the industrial list executed, stocks in that class began to "give way. The rails, which had opened firm to strong, did not yield so readily, although by midday they declined in orderly fashion. The impulses behind the rail movement was the director general of railroads' approval of expenditures by the railroads of the country of nearly one billion dollars on betterments, additions, and equipment in the current year.

There was a notable stiffening all along the line in the last hour. Baldwin rallied sharply to above 99, over six points up on the day. Recoveries in general were a point or more. Steel moved to around 109. Prices on either side of the Saturday closing level was evenly divided. Liberty loan bonds were heavy.

day from Washington that the shearing from the white sheep went would be divided two pounds being sent to each state, to be sold for the benefit of the Red Cross. The wool has not arrived yet but is expected any day and in view of this the governor calls attention of "wool buyers," and all others to the fact.

The governor will receive bids for the two pounds of wool and it will be sold to the person making the highest bid. It is not to be sold over and over again, as is done in some sales of this kind as it becomes the property of the purchaser. It will prove a great souvenir to the coming generations, and the bids should be numerous and for big money. The money goes into "the President's fund for the Red Cross."

## Salem High School Has Good Ball Team

The High school base ball team run up against rainy weather and bad luck at Eugene Saturday with the Eugene High school team. They didn't get a hit. The Eugene boys managed to get three hits and scored three runs. The game was slow and as the rain continued to fall, the game was declared off at the seventh inning in order that the Salem boys might catch their train.

However, with the four games played so far this season, the score is 50-50, two lost and two won. A game was lost to Chemawa and to Eugene, Wednesday afternoon at 3:30 o'clock on Willamette field they will play again with Chemawa. The battery Saturday was catcher, Sims; pitcher, Hulsey; first base, H. Latham; second base Brown; third base, Gregg; short stop, Gill; left field, Grier; center field, Nutting; right field, M. Latham.

## Wool From White House To Be Sold at Auction

Two pounds of wool shorn from the Shropshire sheep pastured on the white house lawn will be sold in Oregon, and the highest bidder gets the fleece, which in value should be equal to that of a sheep made such a voyage after. This is the statement given out by the governor today. He received notice Sunday.

## YOUR HEALTH

By ANDREW F. CURRIER, M. D.

### The Treatment of Asthma.

The most common form of this disease is bronchial asthma, which shuts up the bronchial tubes and prevents air from moving in and out as it normally does.

There may be a spasm of the tubes, or the lining mucous membrane may be so swollen as to fill up the cavity of the tube.

Miners, potters, grinders, and millers suffer from this disease, their tubes becoming choked with dust while at their work.

Those who have troubles with their nose, enlarged tonsils, and certain forms of heart and kidney disease, may also be asthmatic; and children have it in the form of spasm of the larynx, when a gland in the neck called the "thymus gland" is diseased.

In hay-fever the mucous membrane of the nose is so swollen that no air will pass through, and this swollen condition may extend down the throat and into the lungs, causing almost a continual asthmatic spasm.

Asthma is usually worse at the sea level and in a moist atmosphere.

A coming storm at the sea level, or unusual humidity, will bring on an attack.

So, also, will any unusual experience acting through the nervous system, such as anger, grief, bad news, worry, or fatigue.

With miners and those who inhale dirt and dust, the smaller bronchial tubes may become filled up and useless, asthma being persistent and more and more troublesome.

The object of treatment will therefore be to remove this solid material from the tubes, reduce the swelling of the mucous membrane, and loosen the spasm.

There are remedies which are intended to relax spasm—these are mostly gases and vapors and they include compressed air, oxygen, vapor of chloroform and ether, and the powerful vapor of nitrite of amyl.

Cigarettes containing arsenic, bel-

### Questions and Answers

M. R.—Am unable to close my fingers on account of stiffness in the tendon resulting from a cut followed by blood poisoning. How can I get rid of the trouble?  
Answer—Your trouble is one which very often follows infected injuries. Such troubles can sometimes be relieved by a course of massage with manipulation of the stiffened tissues. There are various forms of apparatus which are made for this purpose.

A. H.—Is there any cure for hardening of the arteries, and what is the cause of this trouble?  
Answer—If you will send a stamped and self-addressed envelope, a copy of the article on this disease will be mailed you, which will give you a full account of the trouble.

Dr. Currier will only answer suitable, signed letters accompanied with stamped and addressed envelope. As the correspondence is very large, letters must in no case exceed fifty words and must be on matters which are of general interest. The endeavor is to educate and inform the reader and not to take the place of the physician. For diagnosis and prescriptions, you should consult your family physician. Dr. Currier may be addressed in care of this newspaper.
