## WOMEN ALIENS ARE REQUIRED TO REGISTER

### Ten Days During This Month Designated For Registration

All German female aliens of the age of 14 years and upwards are required to register between Monday June 17 and the evening of Wednesday June 26. In the city of Salem, the aliens will register at the police station, while those living on the Salem rural routes, will register at the Salem postoffice. In all other sections, the registration will take place at the post offices from which they get their mail or the post offices from which their section is served.

The official announcement is as follows: "Persons required to register: All natives, citizens, denizens or subjects of the German empire or of the Imperial German government, being females of the age of 14 years and upwards, now within the United States and not actually naturalized as American citizens are required to register as German alien females.

"Female natives, citizens, denizens or subjects of the Austro-Hungarian empire are not required to register under the president's proclamation of April 19, 1918."

The female alien who appears at the police station or at the post office will have her finger prints taken of the thumb, fore finger, middle finger, little finger and ring finger of each hand. Also of the four fingers of each hand taken simultaneously.

Then she will be asked the following questions:

Name and maiden name; residence, how long lived at present residence and place and lived elsewhere; Where and when born; Single or married, and if married, husband's name; If a widow, give name and citizenship of late husband; If not living with husband, state whether or not judicial separation has been obtained; If divorced, state when, where, and name, residence and citizenship of former husband.

There is a space on the registration blank to give names of all children, their sex, date of birth and present residence. One must also state name of

father, whether living and his place of birth, and the name of mother. Brothers and sisters with their date of birth and residence must be recorded.

It must be stated whether the alien has any relatives in arms against the United States and its allies, giving names and relationship. Then the registrant will be asked whether employed since January 1 1914, where, date, occupation and name of employer. If in business for self, it must be stated.

When the registrant arrived in this country, at what port, on what ship and under what name entry was made. Also if ever engaged in government service of any kind, what nation and what was the nature of the service.

The registrant will then be asked whether she has reported or registered with a consul or representative of any country other than the United States for government service of any kind since January 1, 1914, and if yes, what kind of service and for what purpose.

The question of whether the woman has ever applied for naturalization will be asked or if first papers have been taken out, or whether present husband if any has ever applied for naturalization papers in this or any other country.

The question of having taken an oath of allegiance to any country or nation other than the United States will be asked. Also whether arrested on what charge and when and where.

How many languages spoken or how many can the registrant read or write. The description of the alien will then be taken giving age, height, weight, forehead, eyes, nose, mouth, chin, hair, complexion, face, distinctive marks and present name and address.

All German men have been registered and this registration refers only to women of 14 years of age and upward. The statements must be made under oath.

Registration cards must be obtained by the registrant appearing before the registration officer who took her affidavit, after 10 days but within 15 days from June 26. The registrant must present herself again for this registration card, which she will sign in the presence of the registration officer.

## Army Volunteers For Special War Work Wanted from the Schools

Portland, Ore., June 3.—Oregon is called upon for army volunteers—309 of them—from grammar school graduates who have had some experience along mechanical lines and some aptitude for mechanical work.

These 309 men are wanted for special army mechanical work, following a course of training that will be given them at Government expense.

Draft registrants who are qualified for this service and wish to volunteer should present themselves immediately to their local boards for induction, according to instructions received from the War Department by Adjutant General John M. Williams. After June 7, no volunteers will be accepted.

"The men selected for this service will receive a course of training at Government expense, fitting them to serve in army positions," says the War Department order. "Requiring knowledge of auto mechanics, general mechanics, blacksmithing, sheet metal working, plumbing, carpentry and radio operating incident to many kinds of military service, both at the front and behind the lines.

"The men taking this course will receive thorough instructions which will be of great personal value in working their way ahead, both in the army and in civil life.

"This is an exceptional opportunity for energetic, ambitious men. Qualified registrants should present themselves to their local boards for voluntary induction. When volunteers present themselves, local boards will induct qualified men until their allotment has been filled.

"The voluntary period will continue until June 7. After June 7, no more volunteers will be accepted."

southeastward through Torcy and Bourcches to Chateu-Thierry, eastward along the north bank of the Marne to Verneuill, northeastward through Champilat to Champagne, and thence northward around Rheims in a semi circle, at an average distance of two miles from the city.

In the capture of Fere-En-Tardenois, on the eastern flank, which the French announced Thursday, the German war office claimed the acquisition of a Franco-American depot, including five million shells, incalculable supplies of pioneers and telephone materials, over a thousand vehicles."

This probably refers to munitions manufactured in America which were being used by the French armies.

Field Marshal Haig has not reported any artillery activity on the British front in Picardy and Flanders.

Balding, artillery and aerial operations were reported on the Italian front.

**British Take Prisoners.**  
London, June 3.—One hundred and ninety three prisoners were taken in a local operation in Flanders last night which slightly advanced the British line. Field Marshal Haig reported today.

"In the neighborhood of Vieux-Berquin, successful local operations last night advanced our lines slightly," the statement said. "One hundred and ninety three prisoners were taken, together with a number of machine guns and trench mortars. Our casualties were light."

"Successful raids southeast of Arras northwest of Lens and west of Merville resulted in twenty prisoners, three machine guns and a trench mortar being captured."

## State House News

The Public Service commission has addressed a letter to Director General of Railroad McAdoo calling his attention to the fact that the proposed 25 per cent increase in freight rates will hit the agriculturist much harder than other sections, it is pointed out that the country is sparsely settled, and that the first class rate in Oregon is 91 cents per 100 miles, while between Chicago and Cincinnati, it is but 45 cents. Not only is Oregon already paying double, 74 more, the eastern rates, but the 25 per cent increase is also double that placed on the eastern shippers. In other words the increase is on double the sum and equals a 50 per cent increase to eastern shippers. The commission has appointed Commission Max Theisen, of California to present Oregon's case to McAdoo. It is also suggested by the commission that the first class rate in Oregon applies mostly to raw materials, while in the east the manufactured product which is better able to pay the higher rate, is about all that has to bear it. The conference with Director McAdoo will be held at Washington, June 5, and it is expected the coast will be given some measure of relief on account of the conditions above named.

## A Tribute to Our Young Citizens

A pleasing feature of Memorial Day is the help given the Women of the Relief Corps by some of the pupils of the Lincoln school.

In honor of their comrades sleeping on the hillside a committee from the post goes on the day before Memorial and places a new flag in the Marker that designates every soldier's grave. In the evening of the 29th a committee of W. P. C. workers, follows to place flowers on every flag marked grave. To share this work for two years past, some pupils from Lincoln school have helped. Last year their commander detailed a signal of Boy Scouts to lead them. Wednesday, about a score from Lincoln joined us at the cemetery, where we were making bouquets from flowers contributed by the Highland school and brought by Post Commander Reddison. The children brought the flowers gathered by their school and the McKinley, in memory of our soldier dead. As we worked busily tying up bouquets for nearly 200 graves, the children with willing, eager feet chased up and down the long aisles of the two cemeteries and it is very seldom that a marked grave escapes their bright eyes.

We praise the loyalty and patriotism of our brave boys and our nurses at the front but we have lots more of the same material here at home in the boys and girls of our public schools.

We praise them and thank them and their faithful teachers for their loyal service in the observance of Memorial Day, 29th.

**TEXTILE WORKERS STRIKE.**  
 New Bedford, Mass., June 3.—More than 30,000 textile workers, most of them on government work, went on strike today. The men demand a twenty per cent increase in pay.
