The OREGON

STATE GRANGE CLOSE

(Continued from page one)

Another resolution recommended by this same grange asks for a law requiring all seed companies or growers to furnish seed true to name.

A resolution was also re-indorsed by the legislative committee for a law requiring creameries to give a bond to the amount of the average 30 days pay roll.

As part of report of committee on resolutions, state grange passed resolution urging congress to pass emergency law prohibiting brewing of beer until after close of war. Resolution points out that beer manufacture now requires employment of thousands of men and consumption of enormous quantities of coal, grain and sugar.

Resolution was passed demanding that congress give president authority to curb profiteering, and Senator McNary's profiteering bill was given endorsement.

Grange, in another resolution, urges government to take over such industries as are necessary for conduct of war.

Telegram was received from Senator McNary urging grange to go on record in favor of measure to conscript excess war profits. This was endorsed by formal action.

Legislative committee was instructed to enact laws providing for equipment of farms for returning soldiers.

Report of committee on forestry was adopted, recommending that O. & C. grant lands be withheld from entry and sale and that all agricultural lands within forest reserves be withheld until soldiers return home and that they be given preferential right of entry.

Resolution was adopted opposing Normal School bill, which will be on November ballot. This bill provides for establishment of normal school at Ashland and another in eastern Oregon.

actment of law providing that master of state grange shall be member of board of regents of University of Oregon and of Normal school. He is now member of board of regents of O. A. C.

Resolution was passed urging legislature to pass law requiring owners of land to destroy digger squirrels, and another one urges strict enforcement of law requiring eradication of Canadian thistle.

Lane County Sawmill Destroyed by Fire

Eugene, Or., June 8.—The Fischer Lumber company's saw mill located in the timber near Marcola was destroyed by a mysterious fire early today.

The fire started in the center of the first floor at a point well removed from the boiler and power plant. The loss was \$35,000.

The mill was a circular saw plan and employed 100 men. Other mills in this county have been destroyed this year by fires of a similar mysterious origin.

STATE BANKERS ELECT

Bead, Or., June 8.—The Oregon Bankers association this afternoon elected the following officers: President, E. G. Crawford, Portland; vice president, G. S. Hudson, Bend; treasurer, A. K. Parke, Joseph; secretary, J. L. Hartmann, Portland.

Women of Ireland Pledged For the Kaiser

Dublin, June 8.—Women throughout Ireland will sign a solemn pledge against conscription tomorrow, the festival day of Saint Columbielle. Many churches will be utilized as gathering places. Afterward there will

be floral processions. Irish leaders have appealed to the people to observe the day as a national prayer day, "for the deliverance of Ireland from her perils."

The pledge to be signed by the women reads: "Because enforcement of conscription without consent is tyranny."

"Resolved, that we will resist; that we will not fill the places of men deprived of work through refusing enforced military service and that we will do all in our power to help the families of men suffering through resistance."

The demonstration will be peculiarly significant because war prophecies including conscription are attributed to Saint Columbielle.

State House News

The State Highway Commission has been authorized by the capital issues committee at Washington to issue and sell at once \$400,000 highway bonds. The committee also asks when the additional \$800,000 will be needed. This \$800,000, Highway Engineer Nunn says will permit the completion of all the commission's road work that is now under contract. No word has been received yet as to the government's action on the post road work, for which the state has its money already in the state treasury. This includes the road between Astoria and Salem.

Attorney General Brown is still confined to his home but is rapidly convalescing and will soon be back at his desk.

Labor Commissioner Hoff is recovering slowly from a case of ptomaine poisoning and will probably be in his office again next week.

Governor Withycombe is in eastern

Oregon resting up after his arduous campaign and incidentally repairing any gaps he may find in his political fences.

Official figures show that slightly over twenty million bushels of wheat are left for domestic consumption until August 15. Normally we would use 100,000,000 bushels in that time.

The skies are clearing for the big eclipse.

Costa Rica has declared war on Germany. Next.

EIGHT BILLION DOLLARS STDGERS CONGRESS

Hearings of Senate Committee Brings Out Divergent Ideas

Washington, June 8.—Congress is inclined to balk at Secretary of the Treasury McAdoo's demand for eight billion in war taxes. This sum, double the present revenue, is higher by \$2,000,000,000 than is necessary, some members declare. Secretary McAdoo has included in his estimate of \$24,000,000,000 for the year's expenditures about \$6,000,000,000 for loans to the allies Senator Smoot, senate finance expert said today.

"These loans should not be figured in establishing the sum to be raised by taxation on the basis of McAdoo's 1-3 tax and two-thirds bonds plan. The allied loans reimbursable in full to the United States. Therefore, if they are left out as they should be, the total tax needed would be six billion instead of eight. This would require the raising of an additional two billion dollars—something fairly easy to accomplish without putting a drain on anybody but the war profiteer, who ought to be hurt," said Senator Smoot.

McAdoo is to be quizzed on the point raised by Smoot, before either the ways and means committee or the senate finance committee accepts his figures as final.

The general belief is that if McAdoo can get along with whatever additional taxes a stiff increase in profits and income levies will bring, there will be no difficulty in getting the bill through quickly. But if it becomes necessary to broaden the field of taxation and include new articles, a long fight is certain.

A graduated publication tax based on circulation and subscription price was advocated by Representative Johnson, Minnesota, before the committee. Johnson said that adoption of his plan which he has already incorporated in a bill, would leave the committee free to tax advertising of all sorts in a separate provision.

The plan proposed by Johnson would tax publications with a subscription price of 50c per year one half cent per copy on the first 20,000 copies, one cent a copy on circulation between 20,000 and 10,000 and two cents on all subscriptions over that figure.

The present plan of allowing small papers to circulate free within their own counties, Johnson would leave untouched. Chairman Kitchin read a telegram from the National Editors' association favoring the zone system. Johnson intimated the association favored it because it would hamper large papers, much more than small ones.

Walter E. Kelly, New York oil man, asked for adjustment of inequalities between owners of oil lands and lessees. H. B. Spalding, athletic goods manufacturer, urged the committee not to levy a prohibitive tax on sporting goods.

BANQUET OF ALUMNI ASSOCIATION IS HELD

Vote of Thanks Tendered Organization and Leader of Chorus and Organist

The banquet of the alumni association of the Kimball school of Theology was furnished by the ladies of the Leslie Methodist church. The company included alumni, faculty, students, guests and visitors. Fifty five in all were present. The tables were decorated with purple and white flowers, with reference to the colors of the school. The phraseology of the toasts were given a military turn, such as the training school, the commissioned officers, and our expeditionary force. Rev. D. Lester Fields of McMinnville was the toastmaster. Revs. F. M. Jasper of Lentz, T. D. Yarnes of Independence, Wm. Nichol of Center Howell, S. W. Hall of Brooks, Dr. H. J. Talbott, Bishop M. S. Hughes, Dr. T. B. Ford, superintendent of the Salem district, and Prof. E. S. Hammond responded to toasts. Reference was made to the fact that R. N. Bisher, formerly of the student body, is now a missionary in India. Gainsu Senow is in Japan, D. C. Hassell is with Co. M in France, L. B. Bailey is in the Hawaiian Islands in the regular army, while F. M. Jasper of the alumni soon to go to France in Y. M. C. A. work. J. Fred McGrew of this year's student body goes to Camp Lewis to enter the army, and Miss Ruth Field goes to Calcutta in

September to teach music in a missionary school.

Dr. Sherwood read letters from absent alumni, including F. R. Jackson of White Salmon and J. M. Hixon of La Connor, Wash., R. H. Stone of Glasgow, Mont., and F. M. Wachtle of San Jose, Cal. He also referred to the recent death of one of the alumni, Edward Gittins.

The exercises were interspersed with the singing by the Kimball chorus of several beautiful selections written for this and former occasions by Mrs. Edwin Sherwood. Alfred P. Bates on behalf of the chorus presented the following resolutions of appreciation to the leader of the chorus, Rev. H. N. Aldrich, and to Miss Ruth Field, the organist:

"We, the members of the Kimball School of Theology chorus wish to express our heartfelt thanks to Rev. H. N. Aldrich for his work as organizer and leader of our chorus.

"We are fortunate in having as our musical director a man of such ability as Brother Aldrich. We appreciate his genial disposition, self sacrifice and devotion which makes him so much loved by every member.

"We desire also to thank Miss Ruth Field, our organist, who has contributed so largely to the success of our work, and we assure her that in her work in far off India she carries with her the best wishes and grateful remembrance of the Kimball chorus."

Signed: Alfred P. Bates, A. N. Hanson, Edwin Sherwood, E. T. Hammond, H. J. Talbott, L. R. Royston, J. W. Miller, Earl Cotton, Murray Keefer, Thos. Acheson, E. G. Reuton.

The banquet was one of the most successful and enjoyable ever held by the association, and was marked by a deep feeling of loyalty to the school, and of large confidence in its future. A rising vote of thanks was given to the ladies of Leslie church for their kindly service.
