## IRRIGATION FOR 1918

For the purpose of trying to make the irrigation service more satisfactory the city will be divided into two districts so that each district will get the full service of the plant upon the day it irrigates.

The plan is to have the houses which bear even numbers on the streets irrigate only on Monday, Wednesday, Friday and Sunday, and the houses which bear odd numbers on the streets irrigate only on Tuesday, Thursday, Saturday and Sunday. This plan will permit every house to irrigate four days out of each week.

The purpose of the Water company in furnishing water for irrigation is not to furnish all the water a person can run through the hose in the six irrigation hours every day, but to furnish enough water to keep the lawn in condition. To use more than enough is a waste. We will pump the usual amount of water and hope to furnish it more satisfactorily--Salem Water, Light & Power Co.

## IN THE CIRCUIT COURT Of the State of Oregon, for Marion County

N. R. Moon and Martha E. Moon, plaintiffs vs. Fred Collins, Smith Collins, the unknown heirs of Frank Collins, deceased, and also all other persons or parties unknown claiming any right, title, estate, lien or interest in the real property described in the complaint herein, defendants, Summons.

To the above named defendants: In the name of the state of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled court and cause, on or before the 22nd day of July, 1918, and if you fail so to appear and answer said complaint, for want thereof the plaintiff will apply to the court for the relief prayed for in their complaint herein, a succinct statement of which is as follows:

A decree requiring you, and each of you, to set forth the nature of any claim which you, or any of you, have in or to the following described real premises, to-wit:

Beginning at the northwest corner of the Town of Salem and wife donation land claim in the northeast quarter of section 12 in township 7 south, range 3 west of the Willamette Meridian; thence south following the west line of said D. L. C. 550 chains; thence south 34 degrees west 3.36 chains; thence north 56 degrees west 6.57 chains to the center of the county road leading from Salem to Aurora; thence north 34 degrees east along the center of said road 9.68 chains to a stone due west of the place of beginning; thence east 1.43 chains to the place of beginning, and containing five acres, more or less, situated in Marion county, Oregon.

And that all adverse claims be determined by decree of said court and by said decree it be adjudged and decreed that plaintiffs are the owners in fee simple of said premises, and the whole thereof, and that neither you, the said defendants, nor any of you, have any right, title, estate, lien or interest in or to said premises, or any part thereof, and that a decree be entered by said court forever enjoining and restraining you, and each of you, from asserting any claim or interest whatsoever in or to said premises, or any part thereof, adverse to the plaintiffs or their successors in interest, and for such other relief as to the court may seem equitable and proper.

You are further notified that this summons is served upon you by publication thereof in the Capital Journal, a newspaper of general circulation printed and published in the city of Salem, Marion county, Oregon, and that the date of the first publication thereof is the 6th day of June, 1918, and the last publication thereof will be made on the 18th day of July, 1918. This summons is so published and served upon you pursuant to the order of the Hon. George G. Bingham, judge of the above entitled court, which order was duly made and entered of record in said cause on the 29th day of May, 1918.

## Canada Thistle Control by Clean Cultivation

O. A. C. Experiment Station, June 20.

Canada thistles may be slowly starved to death by preventing any part from growing above ground during the season, says B. F. Sheehan of the O. A. C. experiment station.

"The college recommends clean culture as the best means of eradication," he reports. "It is necessary to keep the infested area cultivated throughout the season, that no shoots may appear above ground. It takes a portion of the food stored in the roots to start new sprouts above ground, and if this part is cut off wherever it appears the food supply will become exhausted. If allowed to grow above ground new food is elaborated and life continues. Only a few days' growth will store up enough added food to last the plant a good while."

Oregon farmers find this one of the worst weed pests. It is becoming more widespread every year, and unless measures to check its further spread are taken, it will soon be a serious pest.

## ROAD WORK OUTLOOK FAR FROM PROMISING AS MATTERS STAND

## State Highway Commission Fails to Secure Federal Co-operation

The outlook for the construction of state highways this year is far from cheerful. A short time ago it was stated the government would match the state money and do its part toward completing the road from Aurora 18 miles south toward Salem. The state has had its money ready for some time this road being a post road and to be constructed with money raised under the Bean-Barrett bill. Apparently the government has changed its mind and will not put up its share of the money. The highway commission is concentrating its efforts just now in trying to secure money enough from the government to hard surface the roads prepared last year and save them from destruction. While the commission has not abandoned hope of getting help for some of the work begun or planned for this year, it is easily seen that its hopes are not running high. The commission of course does not want to criticize the action of the department in holding back funds, but it is bringing every argument to bear to get the money advanced.

Reading between lines as to the government's action it is apparent that it does not want to use the labor of the state on roads at this time, and at the same time is disposed to economize in the spending of any money for any but war purposes. It is barely possible some of the roads planned for this year will receive government aid, but it is apparently not probable.

## CONGRESS IN FAVOR

(Continued from page one)

This government has a division of troops organized in the Philippines which will be available for such a purpose. Recruited among the Filipinos and officered by former regular and volunteer soldiers of the Philippine war, this division is regarded as an efficient fighting unit. The Philippine national guard formed the nucleus of this organization and it has been recruited up to the old strength of 17,000 men.

Philippine scouts, now about 5000 strong, are also available for expeditionary purposes.

## OFFICIAL REPORT OF AMERICAN OPERATIONS

## Patrol and Bombing Operations Feature In Day's News from France

Washington, June 20.—"On the Marne front, American patrols crossed the river and brought back a number of prisoners," the American communiqué said today. "Gas attacks were used to a great extent in Lorraine and in the Woëvre region."

"Artillery fighting and patrolling activities were again marked at several points," the report added.

"On the Marne front, our patrols brought back from across the river prisoners taken in the course of encounters with hostile patrols. Four of our men are missing. In the Woëvre a raid attempted by the enemy was repulsed with losses."

"Last night our aviators were again successful in bombing the railroad yards and tracks at Conflans."

## Mackie Turning Point

Washington, June 20.—Italy's brilliant fight against the Austrians is expected by well informed American officers, to mark the turning point in the war this year.

The news today that many of the brigades thrown across the Piave by the Austrians have been swept away by the swollen river, was decidedly encouraging. Those enemy forces which have crossed to the west bank of the river are in a precarious position, and if Diaz follows up the advantage created by nature, the capture and destruction of a considerable part of the Austrian army is almost certain.
