Scotts Mills Items

(Capital Journal Special Service)
Scotts Mills, June 21.—Our school election was held June 18th. Everything went smoothly as usual. The High school was continued and J. W. Kellis was elected director to succeed himself. He has held the office continuously with but one term's exception, for thirteen years.

Miss Bertha McCracken, of Newberg is visiting relatives here. Miss McCracken has been in charge of the domestic science department in Pacific College for two years. She obtained leave of absence for one year in order to visit her relatives in Hoboken, Cuba, and will stay in a few weeks for that place.

Ground has been purchased upon which to build a company prune dryer for the use of the owners of small orchards. On account of the high price of material they think this will be the cheaper way to care for their fruit.

A party from near Sublimity has bought the Harve Hartman place. He will move onto the place in the near future, so you have been informed.

J. E. Coulson is building an addition to his dryer.

Mrs. J. B. Mendenhall of Newberg is visiting the J. A. Taylor family this week.

Cherry picking has begun in this locality mostly for home canning.

Amongst those attending Friends Annual meeting held at Newberg were Mr. and Mrs. J. E. Coulson, Mrs. Ethel Cox, Miss Sarah Graves, Rev. and Mrs. C. G. Thomas, Mr. and Mrs. J. A. Taylor and Mrs. Sarah Hamner.

Mr. W. L. Taylor and little daughter Florence Catharine, returned from Portland to their home here last Saturday.

Mr. and Mrs. C. A. Adelman accompanied by Mr. and Mrs. A. L. Brounger and son, Tra motor to Newberg Sunday morning to attend the yearly meeting, returning in the evening.

W. L. Taylor is preparing to build an addition to the dryer south of town.

Democrats Are Tied In Several Districts

In the official canvass of the vote at the primary election of district offices ties were found in the vote for nomination for the office of representative

Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps you fit.

Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ash, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infect the bowels. From this mass of left over waste, toxins and poisonous-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quart of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

Remember inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.

Willamette Valley News

Macleay News Items

(Capital Journal Special Service)
Macleay, June 21.—Between the blue sky and the green field, the farmers of this section exist, devoutly praying for rain. The writer made a survey of grain conditions last week and the results are discouraging. Most of the spring grain is but four or five inches high, and is heading. The blades are turning red and yellow, and in some cases the entire stalk is wilted. Some fall grain is standing the drought fairly well, though how it will fill out in the head is a question. In the upper Waldo Hills, spring grain will not even grow enough to cut for hay. In the opinion of some of the residents. The dry weather has so stunted all grain that Canada thickets and weeds have almost completely taken many acres of otherwise valuable land.

Strawberries, too, have felt the lack of rain, and the season is now almost over. What berries there are, are of excellent quality, and the canners men say they work up well.

Loganberries are soon to be the center of attraction, and, although we have not yet heard when any yards will begin picking, at the present indication, the time will be short before picking is under way, maybe ten days. About fifty acres are set to this crop in and around Macleay, a much larger area than was in bearing last year. Prices for picking range from 1.35 to 1.50 a box, the 3-8 or 1/2 cent being yard bonus.

About 100 couples enjoyed the waltzes and steps Saturday night at the Macleay hall, where the regular Red Cross benefit was held. Many people from Salem went to make up the crowd, some coming from as far away as Liberty and places in Polk county. Another benefit will be held June 29 at the hall.

Many Macleay people are planning on attending the pioneer picnic on the John Hunt farm Saturday, June 22. Walter Toose is to be the principal speaker.

Macleay Grange met in the hall Wednesday night for their regular meeting. Supper was served. There was a fair attendance.

Among those who are to report for military duty June 26th are Leo Anderson, Clyde Kaiser and Jess Yeager, now of Yoncalla. We may expect great times when the two Kaisers meet face to face, and we will back Clyde to the limit. We desire to extend wishes of good luck to all the boys.

Harlan Hoffman spent Sunday afternoon visiting at John F. C. Tekenburg's. Music, furnished by the Brunswick phonograph, passed the time pleasantly and strawberries and cream came as a treat late in the afternoon.

A slight mistake was made lately, when it was reported that Frank Robinson had purchased a car. We learn that it is only a flivver, with what the neighbors term a box car body. Perhaps that is the reason we understood he had a car. However, he is putting the Ford to good use, hauling berries from home to market.

H. E. Martin has been released from jury duty in Salem, and just missed being drawn on the grand jury, so he is now at home, and feels as if he were free to breathe again.

New car owners are coming thick and fast in Macleay. The latest is A. Lentz with a large Studebaker, which we understand he will equip as a truck to haul Loganberries.

Firman Nash shared sheep recently. Miss Jean Mackenzie spent Saturday and Sunday visiting friends in Salem.

Master Richard Hughes of Salem, is visiting at the Harry Martin home. He will remain indefinitely.

Mr. and Mrs. A. C. Bohmstedt and daughter motored out into the Macleay district Wednesday evening for a short visit with old friends.

Mrs. H. E. Martin was on the sick list last week, a victim of the popular (1) Liberty measles. She has now fully recovered.

North Howell Notes

(Capital Journal Special Service)
North Howell, June 21.—Supervisor Jefferson and his crew have just finished gravelling the Parkersville road; this was the worst strip of road in the district and we are glad to see it finished.

At the annual school meeting Monday night, W. J. Jefferson was elected director and Frank Hynes re-elected clerk.

Mrs. Alice Willis, who taught school at Tatosah Island the past winter, was visiting friends and looking after her property interests here this week.

While Mrs. C. A. Sawyer and Mrs. Willis were out calling on friends

Fruitland News Items

(Capital Journal Special Service)
Fruitland, June 21.—At the annual school meeting Monday the 17th, the following officers were elected: Director to fill unexpired term of 1 year, Mrs. Annie Gird; for 3 year term, Miss Estella E. Balch; clerk, re-elected, N. J. Bowers; chairman of the board, M. J. Cernik.

Peter Stevens who bought the John Minger farm, is demolishing the old house and building a modern bungalow which will cost perhaps \$3000, or more. J. W. Bellamy is doing jury duty at Salem.

Miss Marie Fleigel has returned from Everett, Wash. She will probably remain home on the farm during the summer. Oswald, a brother, has entered the army and will probably leave Fruitland the 24th. He will be greatly missed in the community as he is a musician of more than usual ability. Jos. Jr., another brother, is on his way home from Colorado.

P. L. Coulson is building a wooden umbrella over his well. He is preparing for rain and does not want his well water to get wet.

Kenneth Ranner is now a soldier and is stationed somewhere near San Francisco. Carson Standifer is at Bremerton, Wash. William Bellamy is reported, will soon enter the service of Uncle Sam. Thus our young men are standing between the home folks and the brutal Hun. God preserve them.

As to reprisals, it is said we are too self respecting to get savage and pay off the German in his own kind. Perhaps, but some of the same medicine would, I think, prove a means of grace to even a rhinoceros hidden Prussian. You cannot temporize with a mad dog—one with two legs any more than one with four. Yes, we are too lenient. If the firing squad had got busy here at home it would have had some influence on the enemy across the water.

You can't cure a sheep killing dog by feeding him mutton, and kindness and consideration are thrown away on a kaiserite. It only makes him bolder as he concludes he won't get what's coming to him.

THAT ANNOYING, PERSISTENT COUGH
may lead to chronic lung trouble, or even the loss of the voice. All druggists recommend **ECKMAN'S ALTERNATIVE**. This tonic and tissue-repairer supplies the acknowledged benefits of Calumet, but without either disturbing the stomach. Contains no Alcohol, Narcotics or Habit-Forming Drugs.
\$2 size, now \$1.50. \$1 size, now 80c.
Price includes postage. All druggists, Eckman Laboratories, Philadelphia.

Wednesday p. m. their horse became frightened at a loosened shaft and ran, throwing Mrs. Sawyer from the buggy. Mrs. Willis was unhurt, and Dr. Hickman was called to attend Mrs. Sawyer who was unconscious several hours, the badly bruised she was not seriously injured.

Bill McElwain and family of Salem were visiting C. E. McElwain's Sunday.

A number of our motorists were viewing the scenery at Silver Creek Falls Sunday.

It is reported that A. B. Wiesner has sold his Vellie touring car and will purchase a tractor.

Tell Your Wife Corns Lift Off

Doesn't hurt a bit to lift corns or calluses off with fingers.

Not a twinge of pain or soreness before applying, or afterwards. This is a may sound like a dream to corn plastered men and women who have been cutting, filing and wearing torturous plasters. Yes! Corns lift off and calluses peel off as if by magic. A small bottle of free zone costs but a few cents at any drug store. Apply a few drops directly upon your tender corn or callus, and instantly the soreness disappears; then shortly the corn or callus will be so loose that it lifts off.

Freezone dries instantly. It doesn't eat out the corn or callus, but shrivels it up so it lifts away without even irritating the surrounding skin. Women should keep a tiny bottle handy on the dresser and never let a corn or callus ache twice.

Donald News Items

(Capital Journal Special Service)
Donald, Ore., June 21.—Mr. and Mrs. W. W. Walker, of the Donald Nursery went to Salem Saturday returning Tuesday noon.

Mr. and Mrs. A. Von Wessenhof of Portland stopped off in Donald on Friday to do a little shopping. They, with their two boys were motoring to Newport, where they expect to remain for a while.

Mrs. S. A. Foxsmith returned from Portland Friday where she had seen since, Monday attending Grand Lodge of Eastern Star. She received the charter for the organization at this place.

Mrs. Joe Rice and Leona returned from Portland Friday where they and been two weeks having Leona's eyes treated by a specialist.

Mrs. Keisick and Mrs. Freeman motored to St. Paul Friday for the afternoon.

Mrs. C. C. Pendleton visited Mrs. J. F. Freeman, near Donald during the week. Emmel was formerly Miss Denick and taught the Champey

LEGAL NOTICES

IRRIGATION FOR 1918

For the purpose of trying to make the irrigation service more satisfactory the city will be divided into two districts so that each district will get the full service of the plant upon the day it irrigates.

The plan is to have the houses which bear even numbers on the streets irrigate only on Monday, Wednesday, Friday and Sunday, and the houses which bear odd numbers on the streets irrigate only on Tuesday, Thursday, Saturday and Sunday. This plan will permit every house to irrigate four days out of each week.

The purpose of the Water company in furnishing water for irrigation is not to furnish all the water a person can run through the hose in the six irrigation hours every day, but to furnish enough water to keep the lawn in condition. To use more than enough is a waste. We will pump the usual amount of water and hope to furnish it more satisfactorily—Salem Water Light & Power Co.

Monday to look for a house, expecting to move there very shortly.

Dry weather is affecting the big Klamath marsh on the reservation, the Klamath Falls Herald reports. The weeds, which grows in the water, and is used by the Indians for food, will not be obtainable.

SAGE AND SULPHUR DARKENS GRAY HAIR

Brush This Through Faded, Streaked Locks and They Youthful

Almost everyone knows that Sage and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it, draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance; it is not introduction of disease.
