

The popularity of Chevrolet Cars is evidenced by the Oregon Registrations for the week ending June 11th, and we give below the list as compiled by the Secretary of the Automobile Association. It is well to remember that the manufacturers below are the Giants in the Automobile Industry and build five times as many cars as all the other manufacturers combined.

The weeks registrations are as follows:

CHEVROLET	100
MAXWELL	35
OVERLAND	31
BUICK	28
DODGE	17
FORD	134

Chevrolet lacked eleven cars of selling as many as all the others combined except Ford. This is surely the acid test of Public demand and shows the wonderful popularity in favor of the Chevrolet.

The price remains the same till July 1st--\$765 for the Touring Car--war tax added. We can supply a few cars, not many, at that price which should appeal to you. Our sales reach over the 130 mark since March 23rd. THERE IS A REASON.
