

The Itching and Sting of Blazing, Fiery Eczema

Seems Like the Skin is on Fire. There is a harassing discomfort caused by Eczema that almost becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of calves and ointments is impossible, because such treatment can only delay the pain temporarily. The disease can only be reached by going deep down to its source. The source of Eczema is in the

blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is S. S. S., for this remedy so thoroughly cleanses the blood that no impurities can remain. Get a bottle to-day at any drugstore, and you will see results from the right treatment. Write for expert medical advice, which you can get without cost, by addressing Medical Director, 21 Swift Laboratory, Atlanta, Ga.

Big Superfeature Film Made From Ambassador Gerard's Great Book

One of the most important and interesting productions ever produced in motion pictures is the dramatic production filmed from Ambassador James W. Gerard's book, "My Four Years in Germany."

Throughout the entire production of the film Mr. Gerard was in close touch with William Nigh, who directed the production and the scenes and incidents have been staged with the most painstaking care in every detail.

Nothing will so clarify the minds of the public the reasons why America is now at war with the autocratic dictator of Europe, as this clear and lucid tale of the hidden forces working for the future downfall of America and the forces of democracy.

The results of this German inability to really understand America is clearly shown in the incidents which took place in Germany before the war and in which our ambassador, James W. Gerard, was involved.

The whole history of German intrigue, diplomacy and double dealing he exposed in the intensely interesting and dramatic picturization of Mr. Gerard's book, which will be shown at the Liberty theater 3 days starting Sunday, June 30.

and that Moscow has been occupied by Generals Kaledine, Korniloff and the Germans; and that Premier Lenine and War Minister Trotsky have fled to Murman and that Nikolai Nikoltievitch has been made Emperor.

German military authorities in Finland have no confirmation. These rumors are being received here with the greatest reserve.

Lansing's Statement

Washington, June 28.—"All branches of the Slav race should be completely freed of German and Austrian rule." This is the declaration of the United States government, made today through Secretary Lansing.

Lansing's statement follows: "Since the issuance by this government, May 29, of the statement regarding the nationalistic aspirations for freedom of the Czechs-Slovaks and Jugos Slavs, German and Austrian officials and sympathizers have sought to misinterpret and distort its manifest interpretations. In order that there may be no misunderstanding concerning the meaning of the statement the secretary of state has today further announced the position of the United States to be that all branches of the Slav race should be completely freed of German and Austrian rule."

Korensky Out of Politics

London, June 28.—Alexander Korensky, former Russian premier, does not intend to return to politics, but will propagate the lessons derived from the Russian revolution among the allies and will appeal to them for arms, supplies and other aid, according to the former Petrograd correspondent of the Times in an exclusive interview.

The correspondent said that Korensky left Petrograd after the bolshevik triumph and lived among the peasants near the city. He grew a heavy beard and in this disguise eventually reached a northern port, from which he left the country.

Korensky went to Paris today. "Perahing's Crusaders" can still with propriety shout from the house-tops, or rather from their dugouts, the message of John Paul Jones, "We have not yet begun to fight!"

Family at Peruz. Washington, June 28.—The family of the Russian czar has been taken to Peruz, according to a German official wireless picked up by the state department today.

SUPREME GERMAN

(Continued from page one)

June 28.—Hindenburg's delay in resuming his west front offensive is mystifying allied leaders, but he occasionally has no worry. Our ability to stop a new drive increases proportionately as he holds back.

Outstanding rumors are in circulation concerning Hindenburg's reasons. There are stories of a strange new disease devastating whole divisions, thus necessitating postponement of the drive. Apparently the only foundation for this is the prevalence of what the Germans call "Flanders grippie." This is not serious and lasts only a few days, though accompanied some times by a high fever.

Another misleading rumor is that his satisfaction is rampant in the German army and that the high command is afraid to order another attack. It appears to be true that the Germans are beginning to realize that their battle plans are less God-inspired than they had been led to believe, but their discipline is such they still march when they are told to.

A third explanation is that the weather and ground are declared to be unfavorable for offensive maneuvers. I personally investigated the lowlands and highlands of northern France. Seldom have they been dried and more adapted to easy movement.

Hindenburg's delay is due to infinitely deeper reasons, despite the vast number of men at his disposal—he will never have more than he has now, even with the arrival of released prisoners from Russia. He must carve out victory or defeat with what he has.

Seeing that his forces are dwindling while the allied troops are increasing, he is unable to make a move without weighing every chance and calculating the cost in men.

Hindenburg must play his hand soon. All the stakes are on the table.

Oregon, Ill.—"I took Lydia E. Pinkham's Vegetable Compound for an organic trouble which pulled me down until I could not put my foot to the floor and could scarcely do my work, and as I live on a small farm and raise six hundred chickens every year it made it very hard for me.

their gigantic common struggle against German militarism now threatening the universe. Not all the allies animated by the desire of rendering help are capable of sending an army as promptly as certain circumstances demand. Japan being a neighbor, can in accord with the other allies, without delay send valiant troops.

"In addressing the allies with this pressing request to render us help, we hope this call will be favorably acknowledged.

"The support of the allies will render an immense service to the common cause, bringing about the regeneration of the Russian army to combat the German thrust in the east.

"Please transmit the above to the government to which you are accredited and to the representatives of the allied powers.
