LOYALTY CARDS ARE TO BE COMPILED BY WAR WORKERS

War Savings Stamps Campaign Is Not Meeting With Expected Success

A loyalty card index of every man and woman in Salem was ordered at the meeting held yesterday afternoon of the captains of the War Savings Stamps campaign at a meeting held at the Commercial club to consider ways and means of continuing the present W. S. S. campaign.

For the fact is, Salem has pledged barely \$100,000 of the quota of \$250,000 and unless there is some means of reaching people and knowing what they have done, the prospects of Salem raising its quota is not very encouraging.

The loyalty index will show just what every man and woman in Salem has subscribed for the Three Liberty Loans, the Red Cross and the Y. M. C. A. campaigns and what they have done in the present War Savings Stamps campaign.

There is just a suspicion as expressed by the captains that quite a number of people are not living up to their loyalty in supporting the government and the general opinion was that where a man or woman was not in favor of helping, they were against this country and pro-German. The captain also favored publicity for those who were not doing their part.

Members of the 30 teams reported that on account of the small denomination, many who should have bought \$50 in stamps had merely pledged \$5 or \$10. Unless some radical steps are taken, Salem will fall down badly in this campaign.

Diagonal remarks were heard by many workers. Men who had boys in the war refused to subscribe for stamps. Many who were called on were most unkind to the solicitors. One prominent man in Salem would not buy as he said he wanted interest every year on his investments. Another said that he would go to the pen before he would subscribe. Another didn't believe in war. Another prominent man had no Red Cross cards in his home windows.

It is such reports as these that the workers bring to the captains and which the captains reported at the meeting yesterday afternoon. The opinion was freely expressed that regardless of a man's standing in the community, if he was against the W. S. S. or failed to support by subscribing to Liberty loans, the public should know it.

The espionage law was quoted: "Who ever by word or act opposes the cause of the United States" has ample law to reach the unpatriotic. Others thought publicity would have the proper effect.

As a result of the meeting a motion was carried by which the people of Salem will be indexed as to their loyalty, this list to be in charge of the officers and directors of the Salem Commercial Club.

HAVE ROSY CHEEKS AND FEEL FRESH AS A DAISY--TRY THIS!

Says glass of hot water with phosphate before breakfast washes out poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside bathing will have them both looking and feeling better in every way.

A. Sanders.

How War Effects Steel

In the battle of Verdun, lasting more than half a year the French fired 60,000,000 shells containing 1,800,000 tons of steel.

To produce these shells and transport them required the consumption of nearly 9,000,000 tons of coal--more fuel than was produced last year in Utah, Oklahoma and Michigan combined. This illustrates the effect of war on the steel industry.

The Government is now taking over all output of the steel mills regardless of orders that may be ahead. Manufacturers of agricultural implements have about enough material for a normal output this season and contracts for products far in excess of ability to manufacture.

Second-hand machinery will sell next year in advance of present prices for new goods. Why not prepare now both for this summer and next year.
