Allowance of Meat Is Being Considered
A limit on the amount of meat served is one of the possibilities within the coming few months, according to information issued by the food administration. Already hotels have been requested not to place on their menus or serve boiled beef more than two meals weekly and beef steak more than one meal weekly. The food administration asks housekeepers to buy under no circumstances more than one and one fourth pounds of clear beef weekly or one and one half pounds including the bone, weekly per person in the household. The food administration asks for economy in meat consumption until at least September 15. The new meat program has been issued to Fred W. Sausloff, county food administrator.

\$25,000 FOR PRISON \$5000 HOME BOARD

Emergency Board Makes Appropriations at Today's Sessions

The state emergency board, which met here today, authorized a deficiency appropriation of \$35,000 for the state penitentiary and \$5,000 for the state lime board.

These appropriations are just one-half of the amounts requested, and in both instances they were cut down as a result of the opposition of Senator Gus C. Moser, president of the senate, who refused to vote for the full sums asked for without the presence of Senator W. D. Wood of Washington county, chairman of the senate ways and means committee, and who was absent from today's meeting.

R. N. Stanfield, speaker of the house of representatives, was also absent, so the members present besides Senator Moser were Governor Withycombe, Secretary of State Oleit, State Treasurer Kay and Representative K. K. Kubli of Portland, chairman of the house ways and means committee.

When the \$35,000 expenditure by the penitentiary was authorized, it was understood that this sum would take care of the institution for three months and by that time it probably would be necessary to call a meeting of the emergency board again to consider the needs of other institutions. The penitentiary will then ask for more funds to run it the balance of the year. An effort will be made to have a full attendance of the board members at that meeting.

Warden Murphy asked for \$70,000 at this time for six months' maintenance. This is about \$10,000 more than it cost to maintain the prison during the last six months, but the warden pointed out that everything was costing more now. He also said he had told his guards he would ask the governor for another raise in salaries for them, which would add about \$3,000 to his payroll during the next six months.

Frank Davey, bookkeeper at the penitentiary, read a financial statement, showing that the operation of the prison wood cutting camp, the maintenance of a gang of prisoners at the state lime plant, the increase in cost of supplies, and the increase in wages, all had contributed to exhausting the \$180,000 appropriated by the last legislature for the maintenance of the institution. He said only \$900 was left in the maintenance fund.

After Chairman Cordley of the lime board asked for a deficiency appropriation of \$10,000, Governor Withycombe made a motion that this sum be allowed. All the members present voted for the motion, except Moser. As it requires five votes to authorize an appropriation, the motion lost.

The failure of this motion, provoked some heated remarks from the governor, who declared that the money should be allowed or patriotic reasons, as the farms are badly in need of lime and the state should complete its project to provide it for them.

Senator Moser then made a motion to allow \$5,000, and later if it is shown that the farmers really want the lime and will purchase it and use it more funds can be allowed. This motion carried.

Chairman Cordley said the \$10,000 he requested was needed to build terminals, elevators and bunkers. With but \$5,000 he said the bunkers could not be built.

He said the lime plant is nearly completed, and the motion not be duplicated under present war conditions for \$35,000, while it has cost \$20,000. The plant will be ready to deliver lime by September 1 at \$1.50 a ton f. o. b. Gold Hill, he said. The plant still has a capacity of 100 tons daily, running an eight-hour shift, and he estimated that the demand will consume all the plant can turn out. The state will pay 8 cents a ton royalty for the lime, and beginning with June the minimum amount of royalty is \$100 a month.

Governor Withycombe, replying to a question from Representative Kubli told the board members that he was considering the advisability of calling a special session of the legislature to have an emergency war tax bill submitted to the people at the November election. The measure of this nature council of defense was not filed in time which was being initiated by the state to go on the ballot.

VICK RETURNS FROM BUSINESS TRIP TO EAST

Lands Oregon Tractor Agency by Personal Interview with Henry Ford

George F. Vick is home from his business trip to Detroit, Mich., and a call on Henry Ford and he now is more than ever convinced that business is for the man who goes after it.

When he arrived in Detroit he sent his card to Henry Ford, but was politely told by the secretary in the front office that he could not see Ford and anyhow, they had decided not to ship any Ford tractors to Oregon this year. Mr. Vick, having made a trip more than half way across the continent especially to talk tractors to Mr. Ford, was displeased when this bit of information was placidly handed him by the cold blooded clerk in the front office. However, before leaving, he handed in his references and credentials.

Just as he had returned to his hotel, he received a telephone call from Mr. Ford's private secretary asking him to come back to the plant. There he met Mr. Ford who inquired as to business conditions in Oregon. Ford said he had changed his mind about cutting out Oregon, especially as Mr. Vick had come so far to see him and said that a man on the ground was entitled to some consideration. Mr. Ford said he had received hundreds of letters from Oregon men asking for the agency of the Ford tractor, but he made the deal with Mr. Vick just the same.

It was the day following his trip to Detroit and Mr. Vick saw Secretary Daniels and other Washington naval officials, a French Ace with several noted American airplane men, and other war officials.

Vick Bros. are now the only authorized agents of the Ford tractors in Oregon and will soon begin establishing agencies. Three carloads of samples are now on the way and after September 1 the one thousand order will be filled at the rate of one car every other day.

Ford touring cars will be scarce this winter, Mr. Vick says.

Moderately Firm Quick Market Today

New York, July 5.—The New York Evening Sun financial review today said:

In a moderately firm but dull and uninteresting session, the market in the New York stock exchange continued to reflect an attitude of waiting. The declaration of a large cash dividend on Royal Dutch stock, together with the recommendation of a 25 per cent stock dividend as a bonus caused a wide advance in the American shares representing Royal Dutch stock. The opening was fractionally higher.

In the later trading, which was inactive, the tone was firm and United States Steel made its best price for the day. The motor issues shared in the display of strength. The rails were neglected.
