Polk County Fires Under Control.

Fire Warden W. V. Fuller reports this morning that all of the timber fires in the Western part of Polk county are practically under the control of the patrolmen and fire fighting crews of the logging companies. One big fire the first of the week threatened to do serious damage to property of the Valley & Siletz railway company but was extinguished by the fire fighters before it had gained much headway. Mr. Fuller advises people to keep out of the woods during these dry times as a match carelessly dropped may start a fire that would not only cause a number of deaths but would also destroy the entire timbered section of the county owing to the extreme dry condition of the timber.

French Fighters See On Darkest Nights

By Fred S. Ferguson (United Press Staff Correspondent) With the American Forces in Picardy June 10.—(By Mail)—Is the warring portion of the human race becoming "cat-eyed?" This question is raised by an American doctor in Picardy. It must be, in his opinion. Practically all circulation—movement of troops, hauling of supplies and ammunition to the front—is at night. Automobiles scurry over roads full of rut holes through villages without the aid of a light or any description and regardless of the darkness. Wagons are driven over even worse roads. Not a light can be shown. And yet, at the wheel of the automobile or guiding the teams, is a man. A few months back, if he lived in a small town, he probably wouldn't leave the house on a dark night without a lantern. If he lived in a city he probably groped and stumbled along his own familiar neighborhood street, if the corner light happened to be turned off. Now, in addition to driving an automobile or piloting a team without a light on the darkest night, he will walk down a French village street which he has not seen more than once or twice and go straight to a billet he may never have seen in daylight.

Ask a man at the wheel of an automobile at the front on a dark night, and he will tell you he "can't see a thing" but he must see, in the opinion of this American army doctor. He may think he doesn't see but he is developing the same sense that enables the cat or clear animals to get about in the night. Otherwise he couldn't keep the automobile on the road.

London Press Endorses Speech of President

London, July 5.—London morning papers today endorsed President Wilson's speech at Mount Vernon, pointing out its similarity to Winston Churchill's address before the Anglo-American Fellowship meeting here.

Italy is Gratified

Rome, July 5.—Italian newspapers in editorials today set out the importance of American contribution to the war in men, money and food. They also emphasized the importance of American labor's support of the war, expressed by Samuel Gompers.

Only the Avanti, the official socialist organ sneers at the pro-war attitude of the American laborites, and refuses to publish their declarations. This attitude is universally condemned.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's a Simple Recipe That Anybody Can Apply with a Hair Brush

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. When even her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and one of these days, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound" you'll get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally you'll even think nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and run this thru your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

GERMAN SOCIALIST LEADER DEFIANT

Philip Scheidemann Declares That He Will Not Withdraw From Position

Amsterdam, July 5.—Philip Scheidemann, leader of the majority socialists, replying in the German reichstag Wednesday to Vice Chancellor Payer's reproach for socialist opposition to government measures declared he had nothing to withdraw.

"We will cooperate with the government only if the peace question is clarified," Scheidemann said. "The exasperation of the masses has reached its highest pitch," declared Scheidemann. "There is only one cry: 'End the war, but with honor.'"

Scheidemann charged that the German press had been officially instructed how to comment on the recent arming utterances of Von Kuehlmann. Scheidemann declared that the great military victory by itself, never will bring peace—only an armistice.

Scheidemann's action is regarded as important, as it was the first time during the war that the majority socialists had refused to vote for the government budget. It is bound to produce a far reaching effect on the people.

It is learned that Scheidemann in his recent conference with Pieter Troelstra, the Dutch socialist leader at the Hague, declared the German socialists will not support the government until the latter make a reasonable step toward peace. This is the message that Troelstra wanted to bring to the London labor conference.
