There was a large crowd of people in attendance. Addresses were delivered by the Rt. Rev. Abbott of Mt. Angel, Rev. Father Lally, of Spokane, and other prominent clergymen. The Mt. Cattle Market Regains All Lost Strength

North Portland, July 9.—Practically all the loss sustained in the cattle division a week ago has been restored. A new record for grass cattle at this time of the year was made yesterday, some 1200 pound steers crossed the scales at \$13.10. The receipts of cattle to day are 150 head making a total of 2000 head for the week to date. Veal is not under restriction and the prices are taking all offerings at the highest prices on record, some 170 to 200 pound calves sold yesterday at \$11.50 per hundred. Quotations are: Prime steers \$12.13; good to choice steers \$11.12; medium to good steers \$9.10; fair to medium steers \$8.9; common to fair steers \$5.8; choice cows and heifers \$8.50; medium to good cows and heifers \$6.70; fair to medium cows and heifers \$4.50-5.50; canners \$3.45; bulls \$6.8; calves \$8.50-11.50; stockers and feeders \$7.9.

HAIR OFTEN RUINED BY WASHING WITH SOAP

Soap should be used very carefully. If you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it. The best thing for steady use is just ordinary mulified coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use. One or two teaspoons will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage. You can get mulified coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

TO CHRONIC DYSEPTICS

You can eat what you like if you take Bi-Nesia. Make this test: Eat a hearty meal of the good things that usually disagree with you, then take two or three Bi-Nesia Tablets. If you aren't astonished and delighted you can have your money back for the asking. Get a 50c bottle today from any good druggist; use as directed, and you will soon be telling your friends how you got rid of indigestion. Remember the name—Bi-Nesia—the indigestion remedy that costs nothing if it fails.

Numerous loud crashes of thunder in this neighborhood Tuesday morning at an early hour caused some of our dozing inhabitants to imagine that the subs of the Kaiser were running up the Santiam. STORY OF AMERICANS (Continued from page one)

mile south of Hill 142). They spent the day and part of the night there, under orders to proceed to a point near Hill 133 (a mile east and slightly north of Hill 142), northeast of the Lucy-Torey road.

The situation in the big ravine and when field facing them looked suspicious and a reconnoitering platoon, headed by the colonel himself, went out to investigate. They got within five-eighths of a mile of the town of Torey (half a mile northwest of Hill 133) when a blast from a rifle and machine gun bullets were turned loose on them from the left. Some dead and wounded was the result. They dropped flat upon the road and immediately heard bullets flying overhead and plowing up the ground. These came from the right, where the Germans were suspected of being, but the first shower from the left could only have come from American troops. A private from the reconnoitering platoon ran straight across to the American position and stopped their firing. He found the (deleted) regiment there.

Meantime, another platoon had sallied forth to the aid of the men in the road, just as the Germans on the right attacked across the field. The Germans were beaten off and the reconnoiterers returned to their position. They relieved a battalion of their own brigade which had been caught in a wheat field while attacking the day before and practically wiped out. This was when the discovery was first made of the Germans filling the wheat fields thereabouts with machine guns.

The night was spent in holding off German attacks. The next day, June 7, they underwent heavy shelling and the following day and night were continually being swept by machine gun fire and one pounders. The night of the eighth they were told they would attack the next morning.

A concrete union of both the Righters and the Lefters with the Mensheviks against the bolsheviks is now to be expected.

ALLIES' SCRAMBLE (Continued from page one) into Germany to kill the kaiser, Ludendorff, Hindenburg and Kuehlmann. This plot, appeared so improbable at the time I first heard of it, that it seemed but the wildest of dreams—and does yet. But Michba, has been killed. Closely identified with this plot are said to have been M. Kankoff, M. Kazelin, M. Steinberg and Mme Spiridonova all leaders of the social revolutionaries of the Left. Kankoff, in a recent conversation with bolshevik leaders, was warned to quit his agitation against Premier Lenine. "We are prepared to finish you before you touch us," Kankoff is quoted as replying. Members of the Left inside the government have learned of a definite alliance between the bolsheviks and Germany against internal opposition and the entente. The defense of the bolsheviks by German newspapers in connection with Mirbach's murder tends to prove such an alliance.

A concrete union of both the Righters and the Lefters with the Mensheviks against the bolsheviks is now to be expected.
