AMERICANS OF SWEDISH DESCENT ARE PATRIOTIC

At several places in the State of Oregon American people of Swedish descent have held patriotic meetings. In Salem, Oregon, a rousing meeting was held at the unveiling of a service flag with many stars, the principal speaker being Bishop Matt S. Hughes of the Methodist Episcopal church. Rev. John Ovall had charge of this meeting.

FRENCH FORCES

Rome, July 13.—General Diaz is reported to have returned to the Italian front after spending several days in Rome conferring with Premier Orlando and other government officials. He was warmly congratulated at his recent successes.

Washington, July 13.—French aviators during the month of June brought down and destroyed 150 boche airplanes, seriously damaged 181 others and set fire to 31 captive balloons. French cables announced today. Bombing squadrons during the month dropped 600 tons of explosives on German depots and concentration camps.

of their right, to bring their lines forward and maintain a practically straight front from Lake Idris to the Adriatic. The Italians, except on their right flank, were aided in this advance by the comparatively level terrain bordering the sea, while the French have been forced to move forward over an extremely difficult mountainous country. That the Austrians are availing themselves of a defensive position on the heights dominating the confluence of the Devoti and Tomorica rivers, where they have temporarily checked the French advance on both sides of those heights, the French continue to progress.

REPORT OF DEATH

London, July 13.—A successful minor operation by English and Australian troops between Vieux-Berquin and Meris, on the Flanders front, resulted in the capture of 96 prisoners and a few machine guns. Field Marshal Haig reported today. The British casualties were light.

Bad Weather Conditions

London, July 13.—Bad weather conditions interfered with aerial activity July 11 and 12 and only five German airplanes were accounted for by the British on those days, the air ministry announced today. Three British machines were lost. More than nine tons of bombs were dropped.

Scenes of Prosperity

are common in Western Canada. The thousands of U. S. farmers who have accepted Canada's generous offer to settle on homesteads or buy farm land in her provinces have been well repaid by bountiful crops of wheat and other grains.

Homestead of 160 Acres Free

During many years Canadian wheat fields have averaged 29 bushels to the acre—many yields as high as 45 bushels to the acre. Wonderful crops also of Oats, Barley and Flax. Mixed Farming is as profitable an industry as grain raising. Good schools, churches, markets, convenient climate, excellent. Hayward - Dickson Meeting Draw Crowds

The first week of the Hayward-Dickson meetings in the big tent on Court street has proven to be a great success. We may judge by the crowds attending each evening. The tent has been comfortably filled at every meeting, and the speakers report that they have never seen a deeper interest manifested upon the part of the people.

The program for tonight promises to be an interesting one. Many interesting questions have been handled in covering a wide range of subjects, and these will be opened and answered tonight. Tomorrow night Evangelist Dickson will answer the question, "Is the whole world wrong in keeping Sunday?" and Monday night Mr. Hayward will speak on the question of Why, When, Where, How and by Whom the Sabbath was changed.

In speaking of these subjects Mr. Hayward said, "Although these are controversial subjects they have always proven to be our very best drawing cards. Even those who do not agree with us in matters of doctrine enjoy them as well as those who do. And right here I want to say that those who have gotten the idea that this is nothing but a proselyting campaign could not be more mistaken. The vast majority of our subjects are commonly accepted Christian doctrines. And even upon those subjects where a difference of opinion exists such a vast range of interesting information is presented as to make them not only interesting but very helpful to every one in the understanding of the Bible."

The meetings will continue throughout the coming week every night. The song service which precedes each lecture has proven to be a very popular institution, and every one is invited to come early and join in the great community sing.

Churchill Champions Women School Teachers

The assertion made by an educator speaking before the Spokane Chamber of Commerce that "there was a lack of the ideals of true Americanism in our schools," which he attributed to the fact that a majority of school teachers are women, is emphatically denied by J. A. Churchill, superintendent of public instruction, in a letter sent from his office to X. I. Anthony of Spokane.

Mr. Anthony called Mr. Churchill's attention to the statement and asked for evidence either in proof of or in disproof of the assertion. In his reply Mr. Churchill says: "In the Oregon public schools the boys and girls have a high ideal of American citizenship, and there can not be found a school in our state where

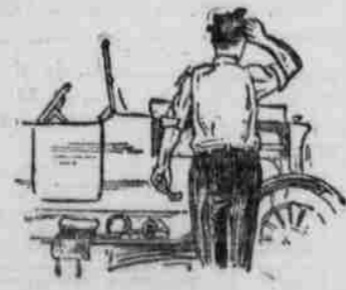

there is a spirit of pacifism among the student body. As specific evidence I would mention the fact that from our high schools and colleges a majority of the boys over eighteen years of age enlisted when the first call of ninety two per cent of her quota had draft allotment, it was found that ninety two per cent of her quota had been filled by enlistment. I am informed that the state ranking next had a record of seventy six per cent."

He cites the great amount of work that has been done by public school boys and girls during the last year out of school hours in assisting the government, and points to it as evidence of patriotism.

"You do not mention the name of the educator who made the address before your chamber of commerce," says Superintendent Churchill, "but I feel sure that his statement that there is a spirit of pacifism in our schools owing to the preponderance of woman teachers is most unjust. As I said, we have no spirit of pacifism, and as a rule, the women teachers have done their full share as leaders in the patriotic work in their respective communities."

"The state board of education has always held that the study of citizenship and civics is most important in our schools. This year it is of especial interest to the schools because the various kinds of war work have served as a laboratory for the theories taught in the textbooks."

"I sincerely feel that, if your committee makes a thorough study of all this, and goes below the superficial statements of those who have not examined the evidence, it will find that the spirit of pacifism came from influences outside of the public schools, and that hostility to American ideals has come from that body of people in this country who have never been trained in our public schools."
