

Order Your Apple Trees NOW

Good apple trees, for the home garden or orchard planting are scarce, and getting scarcer, on account of the shortage of labor. Prices are high, and going higher. Yet more fruit should be planted than ever before. Every American home should be able to boast of its apple orchard.

While prices were comparatively low, we contracted for a large quantity of "Grafted Apple Trees" (long scion apple grafts), which we offer for delivery beginning December 10, 1918.

If you take advantage NOW of our offer below:

We'll send Twelve Grafted Apple Trees Postpaid

Each little tree is produced by grafting together a "scion" (branch) from a selected tree of heavy-cropping record, to a healthy one-year root. Each little tree is about a foot high. They take root at once, make rapid growth, and bear large crops of choice apples even sooner than larger trees, planted at the same time.

Two each of SIX BEST VARIETIES
We have made a careful selection of the varieties of apples, which, by reason of their choice quality, heavy yield, hardiness and long keeping qualities, have become general favorites. We will send you two each of the six fine varieties described here, if you take advantage of our offer below.

Two Genuine Delicious The finest and most beautiful apple grown. Very large, inverted pear-shaped. Color dark red, shading to golden yellow toward the tip. A fine keeper, sweet and juicy. The tree is strong, hardy, and productive.

Two Yellow Transparent A very early, and an abundant bearer. Often bears some apples the first year, even in the nursery row. A summer apple. Flavor acid and very good. Skin clear white, turning to pale yellow.

Two Jonathan A general favorite, and always in good demand at fancy prices. Of medium size, roundish; skin nearly covered with dark red. Fine-grained, tender, and of exquisite flavor. Tree slender and spreading.

Two Stayman Winesap Deep, rich red in color, it is a marked improvement over the old Winesap. A very early bearer of large, thrifty grower and an abundant bearer.

Two Wealthy A native of Minnesota, where it has proved hardy, vigorous and productive. The fruit is of medium size, round, red, streaked with white. Excellent quality and flavor. One of the best and most productive apples grown.

Two Winter Banana A fine, vigorous grower, with large, beautiful apples, golden yellow, with a red blush. The flesh is rich, aromatic, and of the highest quality. A good keeper.

These twelve trees will grow anywhere, giving you an abundance of the best apples. We send simple, but complete, instructions for planting, and you will have the honor this evening.

Our Mid-Summer Bargain Sale

Just send your name and address, and only sixty cents (60c), in coin, stamps, or Money Order, and we will enter your order for the collection of 12 grafted apple trees as described above.

The trees will be sent to you by parcel post, all charges prepaid, after December 10, 1918. However, you may instruct us to hold your stock until the proper time to set out in your locality, and we will do so.

Remember, the 60 cents pays for the trees and the postage, there are no other charges of any kind or character.

But you must enter your order now, to be certain of getting your collection.

This offer will be withdrawn as soon as our supply is exhausted, and no more will be sold on these terms.

Send NOW—today—to
PHILIP S. BATES, 315 Oregonian Bldg., Portland, Ore.

CITIES MUST HOLD ELECTIONS IN NOVEMBER

Attorney General Holds Constitutional Provision Must Be Heeded

Attorney General Brown has settled the question so far as his interpretation of the laws are concerned, as to whether it is mandatory for cities and towns to hold their city election next November at the same time the general state election is held.

He holds that they must, under the provisions of the constitutional amendment requiring that all elections must be held on the same day.

His opinion on the subject is given to John F. Hall, district attorney at Marshfield, who told the attorney general that he was at a loss to know how to advise the county clerk to proceed with such an election as there is no law directing him what to do under such circumstances. District Attorney Hall said there was no law for the county clerk to follow until further legislation can be enacted.

Various city and county officials have been worrying about how to arrange precinct boundaries for a joint election. The attorney general has received inquiries from many different sources on the subject. In his opinion today he points out that existing laws are sufficient to meet the situation until there can be further legislation. He says:

"To my mind there is absolutely no amendment requiring the election of city, town and state officers at the same time is self-executing so far as it relates to the time of holding such elections."

"The law of the State, at the time the constitutional amendment was adopted, authorized and does now authorize the county courts of the State to divide their respective counties into convenient election districts, and to designate the polling places therein, and the counties have a right to make their election precincts conforming. In many instances the boundaries of county voting precincts within the incorporated municipalities and the boundaries of the city's voting precincts are the same. In all such incorporated cities and towns elections can be held at the same time, at the same voting places and by the same election officials."

"It is true, as set forth in the communication from the county clerk, that there is no law directing the city clerk to submit a certified copy of the ballot to the county clerk. It is also true as asserted by the clerk, that there is no law requiring the clerk to have ballots printed for the city election. All such duties still remain with the officers of the incorporated cities and towns."

"The constitutional amendment itself provided that all provisions of the charters and ordinances of such incorporated cities and towns, pertaining to the holding of elections, shall continue in full force and effect, except as they relate to the time of holding elections. All duties such as giving notice of election, the printing of ballots, providing of ballot boxes, together with the proper records for the judges of election to make returns to the city officials shall be performed by the city's officials. Until further legislation such duties are of no concern to the county clerk."

SALEM LAYS OFF

(Continued from page one)

and she will have the honor this evening.

Frank Davy's Address
Frank Davy delivered the dedicatory address. He mentioned the fact that the early pioneers had a fine eye for beauty when they selected Salem as the location for the site of a city, but that it was said to think that for a time the river had been a barrier between two communities.

He mentioned the fact that even after the legislature had given Salem permission to build a bridge, it required two years thinking it over, before a mass meeting was called in 1886 and an election held whereby Salem was to pay \$30,000 on the first bridge.

He noted the fact that the first committee appointed to report on the bridge of 1886 included A. N. Gilbert, W. M. Ladue, George H. Burnett, R. S. Wallace and W. T. Gray.

The flood early in February of 1890 Mr. Davy described as one of the worst disasters in the history of the city, although the 1861 flood was possibly more extensive, with a flood stage one foot higher.

"The new bridge will bring a better feeling between the two communities," declared Mr. Davy. "It will bring them into closer social and commercial life. And I hereby dedicate this bridge to the prosperity and peace of Polk and Marion counties." The band then played "The Star Spangled Banner."

Dr. Lovejoy Speaks
Dr. Esther Lovejoy, who is just home from service with the Red Cross in France, declared that Oregon was on the map from the fact that Oregon was giving the ships, and the spruce lumber for the wings of the airplanes, and it was giving the wheat and even Oregon cherries were served to the American soldiers in France.

She described the sad scenes she had witnessed in France when the repatriated people, who had become utterly useless to the Germans, were returned to French soil. This included children and feeble old men and women.

She told how the Germans in the occupied French territory separated the people, keeping the boys over 14 years and the girls above the age of 16 years. She said the Germans kept the girls over sixteen that they might become the mother of a Hun, and that such a mother never returned to France. She also said that the Germans kept mothers with one child as the chances were that such a woman would become the mother of a Hun child. Mothers of three or more children were not kept by the Huns, she said.

The children who had been held by

WITH FINGERS! CORNS LIFT OUT

Freezone Is Magic! Corns And Calluses Lift Right Off Without Pain

A few cents buys a tiny bottle of the magic Freezone at any drug store. Apply a few drops of Freezone upon a tender, aching or callus stops hurting then shortly you lift it out, root and all, without any pain, soreness or irritation. These little bottles of Freezone contain just enough to rid the feet of every hard corn, soft corn, corn between the toes and the calluses on hot toes of feet. So easy! So simple. Why wait! No humbug!

The Germans, when first returned to France, would sing "We never will be happy till his head's cut off," although they had of course learned the song in secret. They were singing of the Kaiser.

"It is not the dead who are the sufferers in this war, it is the living mothers, who know too well what has happened to their daughters knowing she is lost forever. They know too well what a girl of 16 years or more is suffering when in the power of the brutal Hun."

Dr. Lovejoy displayed a bullet used by the famous French 75 artillery, saying that 90 per cent of the ammunition and shells used in the French army was manufactured by the French women.

She also showed a German helmet which she said "had a perfectly lovely hole in it that a Hun got while trying to locate Berlin."

Dr. Carl Gregg Doney closed the speaking program with a short talk on his war experiences.

At 1 o'clock this afternoon Adjutant General Williams and Colonel North spoke to the men of the Oregon guard and others interested telling of the new federal company soon to be organized in Salem.

The parade of the afternoon was carried out according to schedule, with the military parade reviewed by the governor, Adjutant General Williams and Colonel North from the reviewing stand at Marion square.

The evening's program will include the Cherrian band concert and community sing at Marion square, beginning at 7:30. The merry-go-round "filled the hearts of the children with joy. Other folks who enjoy dancing will find the Cherrians and the jitney dance ready for business this evening at Marion square. Every dollar taken in during the day from all sources is for the Red Cross.

STEAMS OF TRAFFIC TO BATTLE FRONT

By Frank J. Taylor.

With The Americans In France, July 28.—(Night)—Two ever-moving streams of traffic over the roads between the Oregon and the Marne testify to the intensity of the struggle north of the former river.

Fresh troops, guns, ammunition and supplies are advancing, while the back wash of this stream consists mostly of ambulances carrying wounded.

At hastily established dressing stations in villages, in woods and at crossings, the wounded are laid on the ground quickly attended to and "sorted out," then sent to the rear in larger ambulances. Doctors and attendants who have not slept for 48 hours remain at their work. Most of the wounded are marching hospitals, fifty miles behind the lines, within four hours of the time they are hurt.

American girls, comprising a unit for relief of civilian war victims, who were near the front, hastily mended Ford's and, speeding to the front, carried wounded from dressing stations to hospitals over roads that were constantly under bombardment.

German airmen attempted to hamper the Americans by pouring machine gun fire into the roads tonight. A number of doughboys, in charge of a sergeant, turned their automatic rifles upward and fairly got "two birds" with one stone. They wounded the pilot on one machine, who lost control and drove his plane into another. Both machines dropped near the Americans.

The courage of the Americans is almost incredible. In the face of a rain of bullets from machine guns one lieutenant led a group against a boche machine gun nest, but was trapped in a position surrounded by a score of guns. The Americans were moved down until only the lieutenant and a corporal remained unhurt. The two returned to the American lines, each carrying a wounded man. They went back three times and brought in all the remaining wounded. The lieutenant, who was hit six times while rescuing his men, fell exhausted at the dressing table when he returned from his third trip.

Another group, charging a machine gun, dropped one by one until only a corporal was left. He captured the gun and killed the remaining Germans with his pistol.

Monmouth News

(Capital Journal Special Service.)
Monmouth, July 30.—The six weeks session of the State Normal school closes Thursday, August 1. Of the four hundred students enrolled there were only three men.

Superintendent Guest of the North Bend schools visited the Monmouth Normal recently to select teachers for his district for the coming year.

Mr. Guernsey, assistant in the Domestic Art department at O. A. C. so after school was a pleasant visitor at the Normal several days last week, during which time he delighted students and faculty with demonstration work in his line.

The mid-summer concert given in the Normal chapel Thursday night by the music department, under the direction of Miss Hoham furnished a delightful evening's entertainment and netted \$80 for the canteen service fund. The program began with "America" sung by the audience. Several numbers by the Normal-High school orchestra were well rendered, after which Harold Parish Williams, lyric baritone, accompanied by Mae Vandyeke Marwick, entertained with a generous number of songs in Old English, and in Old and modern French. A cantata, "The Lady of Shalott" was given by the Normal Glee club, Mary Randall and Ruby Tipton taking solo parts, accompanied by Edna Tooley, violinist. All parts were well taken and reflected much credit on Miss Hoham as musical director.

Word has been received from Miss Myra Butler to the effect that she has successfully passed the physical examination and met all the requirements incident to the Y. M. C. A. Canteen service in France. Her many friends here will rejoice with her for the splendid privilege and will hasten to raise the \$500 required by the National Defense council to help pay her transportation and other expenses.

On Thursday night after the concert a number of the faculty gathered in the parlors of the dormitory and tendered Miss Hoham a farewell reception. President Ackerman, in a few well chosen words presented her with a beautiful electric preheater, the gift of the faculty, in token of esteem and well wishes for her future happiness.

Miss Lorna Taylor has moved in with Miss West where she will live during the coming year.

Miss Beth Ostrom left Friday for Portland for a few days visit with her sister Daphne who has a position as stenographer with the Mitchell Tire company.

Willie Harvey, Burton and Hugh Bell are helping the fishermen haul in their catch at Sand Island, about three miles from Fort Canby, Washington.

Miss Emma Kramer who taught in the Salem schools a number of years has accepted a position as teacher of the third grade at Marshfield for the coming year.

Walter Strain, mail carrier on R. P. D. 1, expects to give up the job just as soon as some qualified person can be found to take his place. Although the salary is \$125 per month, Walter says it does not pay him as his expenses for gasoline and general upkeep of his Ford which he uses in the work averages \$40 per month.

Little Naída Johnson gave a birthday party to a number of her little friends Friday afternoon to celebrate her 8th birthday. Ice cream and cake were served and a happy time enjoyed by all.

Prof. Gilmore, head of the service department of the Normal, expects to spend his vacation with Lorena's threshing machine again this summer. Mrs. Gilmore and children will go to Salem the last of the week to visit Mrs. Gilmore's parents, Rev. and Mrs. S. S. Mumey.

Miss Hoham left Friday afternoon for her home in Indiana; she received word that her mother had met with an accident which explains her hurried departure before the close of summer school.

Owing to the recent showers threshing has not begun in this vicinity; some of the threshers will begin work Thursday or Friday.

The annual excursion of the summer school students to visit the state institutions in the capital city took place last Saturday.

Geo. W. Chesebro was chosen as councilman at the last regular meeting of the city council to succeed O. A. Wolverton who is now filling the unexpired term of H. C. Ostain as mayor.

Bruce Rodgers has volunteered for service in the navy and went to Bremerton on the 22nd, with the Hinkle boys. Bruce is only eighteen.

Prof. E. C. Keusel, former principal of Monmouth High school has volunteered his services as athletic instructor under the Y. M. C. A. for over-sea's duty.

Mr. and Mrs. George Houseman came up from Portland Sunday for a visit with Mrs. Houseman's brother, C. H. Henbree and family.

Marion News

(Capital Journal Special Service.)
Marion, July 30.—Rev. L. C. Russell and family returned last Saturday from a three weeks visit with relatives in California. They report a very pleasant trip except for the sadness occasioned by his father's death which occurred while they were gone.

Mr. and Mrs. D. A. Hoag are home again. They have been spending the summer with their parents in Polk county.

The piling work is completed here and those engaged in that line of industry are turning their attention to the harvest work.

The Russell Bros. started out with their threshing machine Monday.

Mr. and Mrs. Jos. Wilson returned home from Portland last Wednesday, where they had been visiting relatives and attending the Holiness campmeeting.

Mrs. G. H. McNeil also attended the campmeeting last week.

Miss Ethel McNeil of Portland is visiting relatives here this week.

Mrs. Eli Davidson is visiting friends in Falls City this week.

Miss Mavia Hunt of Mill City is visiting her Grandma Farnham and Aunt Sa-

His Country Calls and He Must Go--

But before he goes he must sell his shoes.-- Therefore all shoes in stock are reduced from \$1.50 to \$3.00 per pair--And if you need shoes do not miss this opportunity to get standard goods at a big saving to you.

Remember you do not buy jobbers shoes that make shoe sales a big success, but only standard makes, that have a reputation. About the wearing qualities of our shoes ask any man that wear them.

You all know the reputation for service that the following shoes have, can you beat them? J. E. Tilt, Buckingham & Hecht, and Keith-Konqueror shoes for Men and Women; and these shoes are reduced from \$1.50 to \$3.00 per pair. J. E. Tilt shoes that sell everywhere for \$9.00 our sale price, \$5.65; army shoes, \$4.85; Women's \$9.00 Keith-Konqueror shoes, \$7.25; and some \$6.50 shoes for \$3.95.

Oregon Will Have Only Steel Automobile Tag

Secretary of State Olcott has been informed by F. H. Bronner, of the Irwin-Hodson Company of Portland, that Oregon will have steel automobile license plates next year. This is because Mr. Olcott is the only secretary cause Mr. Olcott is the only secretary tags before it became impossible for manufacturers to buy steel for this purpose.

The Irwin-Hodson Company has the contract for furnishing the license plates for next year, and Mr. Bronner says the company has the steel now in their basement.

"The steel we have on hand for your contract," says Mr. Bronner in a letter to the secretary of state, "could be sold for over 100 per cent more than what we paid for it, so you can readily see it was a big saving to order the license plates when you did."

He says the steel cost approximately \$7000 and the company has been offered \$13,750 for it.

"This would be a profit itself of over \$8,000, or about five times our profit on the entire 1919 contract," he says.
