CONFISCATING CLOTHING.

Amsterdam, July 30.—Voluntary donations of clothing for war needs having failed in Germany many the government has decided upon confiscation, disassembling and receiving here today.

Fell Half a Mile

And Landed Unhurt

Portland, Ore., July 30.—Al Tice, government photographer, was planning another balloon ascension today. He wasn't quite satisfied with the photographs he took late yesterday of two shipbuilding companies. Tice went up half a mile. Just as he arrived at the end of the 2700 cable, the balloon for some unknown reason started down. Just before the end of the balloon's 2700 foot fall the cable struck a wire of high voltage and was burned in two. Then Tice landed in a tree unhurt.

Army Men Exempted From Railroad Tax

Washington, July 30.—Railroad tickets to men in uniform will be exempted from the transportation tax, the house ways and means committee decided today.
This applies both to men on furloughs and men on official business. Under present regulations only men on official business are exempted from the tax. The committee today also took up the transportation—both freight and passenger—taxes and insurance taxes. While no decision was reached it was the opinion of the majority of the committee that these taxes should remain unchanged.

TOBACCO MUST PAY HALF BILLION TAXES

AUTO TAX 10 PERCENT

Will Double Tax On Amusement Admissions—Sporting Goods Must Pay

Washington, July 30.—Doubling of the tax on admission to amusements and the tax on club dues in the new revenue bill was decided upon by the house ways and means committee today. The present admission tax is 10 per cent and the tax on club dues is 10 per cent of the dues in excess of \$12 per year.

The committee went on record in favor of more than doubling the rate on cigars, tobacco and cigarettes. At present \$170,000,000 is raised by the tobacco tax. The committee today decided that a half billion dollars should come from this source. This would mean nearly doubling the tobacco taxes.

The ways and means committee also requested the treasury department for an opinion on an ad valorem tax instead of a specific tax on tobacco. Under the present law tobacco and cigarettes are taxed without regard to sale price.

Present rates are 13 cents a pound on tobacco and snuff; \$1 to \$10 per 1,000 on cigars; \$2.05 and \$4.80 per 1,000 on cigarettes and half a cent to two cents a package on cigarette papers.

Provision for stopping tobacco manufacturers and dealers from excessively boosting prices on the plea of new taxes will also be brought before the committee.

Beverage taxes, which the committee originally planned to consider in connection with tobacco, will be put off until the last.

This is due to the present uncertainty of the prohibition question and also to prevent large quantities of liquor being withdrawn from bond in anticipation of the tax.

The committee in its afternoon session decided to lay a 10 per cent tax on the gross sales of automobiles, pianos, cameras, phonographs, sporting goods, cosmetics, proprietary medicines and cameras. The tax on motor trucks will be only five per cent, the committee agreed.

Half Billion Receipts From War Stamp Sales

Washington, July 30.—Cash receipts from the sale of war savings and thrift stamps have passed the half billion mark, amounting since the inauguration of the campaign is \$501,191,328.50, the treasury department announced today.

1000 AIRPLANES

Dayton, July 30.—The 1000th airplane manufactured by the Wilbur Wright company was completed today and it will be knocked down for shipment "somewhere in France."
