## SOCIETY

By MABEL GARRETT

Everyone acknowledges that this is the time of surprise weddings, and very few are woven around the pretty story of romance that characterized the one July 22, when Roy Wesley Burton, who was stationed at Camp Lewis, claimed Miss Zita Estelle Rosenquest as his bride.

When the two were still in the grades studying "reading, writing and arithmetic," they enjoyed many happy childhood times together. But the little fancy did not end with the braided hair and knickerbocker stage, for gradually it grew into a lasting friendship that has culminated in their marriage. Mrs. Rosenquest had accompanied her daughter to Tacoma for a visit and while there the couple unexpectedly decided to have their wedding solemnized. Although the engagement of Mrs. Burton was known, the wedding came as a surprise to even her most intimate friends.

The double ring ceremony was performed by Rev. R. H. Schmitt of the First Methodist church in Tacoma. The bride was lovely in a tailored serge suit with a velvet hat and accessories in harmony, and a corsage bouquet of Cecil Brunners, which added a pretty touch. The groom was dressed in his khaki uniform.

Mrs. Burton, who was a graduate of Salem high school and who later attended Willamette university for two years is a popular and attractive girl. About five years ago her parents moved from Chickama, Oklahoma, where it was that Mr. and Mrs. Burton first met. Mr. Burton is the son of Mr. and Mrs. L. E. Burton of Tuttle, Oklahoma, who have large ranch and oil interests there.

Before entering the army he was a student at Harvard university and preparatory to his work there had studied at the University of California. A few days after the wedding Mr. Burton left for an officers training center at Camp Pike near Little Rock, Arkansas. In a few weeks Mrs. Burton expects to join him.

Mrs. Burton and her mother returned to Salem after visiting relatives in Tacoma for a short time.

Miss Bessie J. Bonner has been visiting Salem friends for a fortnight. She has been the house guest of Miss Violet Rotzian, 351 North Cottage street and while here attended the Chautauque program. Yesterday Miss Bonner, accompanied by Miss Rotzian, left for her home in Silverton. Miss Rotzian expects to be gone about two weeks.

Mr. and Mrs. T. A. Radcliffe and Mr. and Mrs. F. V. McKeon have returned from Belknap Springs, where they have been spending a vacation of several weeks.

Mrs. F. G. Franklin has returned to Albany after visiting in Salem and Portland for a short time.

Horace Lewis arrived in Salem yesterday. He is from Albany and expects to make his home in the Capital city now.

Miss Florence Stewart left this morning for Portland after visiting friends in Salem for a short time.

## Girl's Statement Will Help Salem

Here is the girl's own story: "For years I had dyspepsia, sour stomach and constipation. I drank hot water and olive oil by the gallon. Nothing helped me until I tried buckhorn bary glycerine, etc., as mixed in Adler's-ka. ONE SPOONFUL helped me INSTANTLY." Because Adler's-ka flushes the ENTIRE alimentary tract it cures ANY CASE of constipation, sour stomach and gas and prevents appendicitis. It has QUICKEST action of any thing we ever sold. J. C. Perry.

## UNION IN TROUBLE OVER WIRE CONTROL

### Unionists Complain To Federal Director Against Telegraph Company.

Washington, Aug. 1.—The first day of governmental control of telegraph and telephone wires brought out violent protest to Wire Director David J. Lewis, when telegraphers of the Western Union in Atlanta, Ga., complained against discharges of operators there. The Western Union, it was declared, announced its attitude toward union men was unchanged and continued to discharge men.

Unrest was reported among telegraphers in some sections. Postmaster General Burleson issued a statement urging cooperation between employees and employers.

The course of the government in situations similar to the one which has arisen at Atlanta will be determined by official inquiry.

Atlanta, Ga., Aug. 1.—Although governmental control of the telegraph systems is in effect today officials of the Western Union continued to discharge members of the commercial telegraphers union.

Western Union officials stated that their policy with reference to the union is unchanged, union officials declared. Union officials have appealed in a telegram to David J. Lewis, in charge of wire control at Washington, for the immediate reinstatement of all locked out union telegraphers. Approximately 140 men and women are locked out in Atlanta by the Western Union, union leaders claimed.

A walk out in the Atlanta office of the Western Union is threatened.

The doctor very promptly informed them that their husbands would look after their own wants and later on when the calls became too numerous for him to answer he had the phone cut off from his office. The day will be devoted to races, contests and a general good time. Automobiles for the conveyance of the lodge to the grounds will leave the Castle Hall at 8:30 Sunday morning.

## MAY TAX LIQUOR OUT OF EXISTENCE

### Anti-Prohibitionists Contend Dry Land Will Mean Revenue Loss.

Washington, Aug. 1.—A threat to tax liquor out of existence in the new revenue bill was the prohibition reply to day to claims that making the nation dry at this session of congress will halt plans to raise \$8,000,000,000 in taxes.

Anti-prohibition forces in both houses, including members of the senate finance and house way and means committee, contend the country will lose more than \$1,000,000,000 in revenue if the pending dry amendment to the food production bill passes.

Days today countered with the deft that only word from the administration or a victory will stop the prohibition fight now.

"The country will not lose \$1,000,000,000 in taxes, but only a quarter of a billion, if prohibition is enacted now," said Representative Randall, California.

"Whiskey now in existence can still be taxed which is all that can be done in any case for manufacture of whiskey is already forbidden. Beer, under present plans, could continue to be sold for six months so that the only tax the country would lose would be a half year's beer tax."

"If the impending dry amendment is killed we will fight to put prohibitive taxes in the revenue bill. If foolish spending is to be stopped, it is poor war time economy to allow the expenditure of \$2,000,000,000 for liquor to get a quarter billion revenue."

"We," to day were confident that with the influence of the revenue committee of the two houses behind them they can beat prohibition. Drys concede that the tax argument will probably take some of their strength.

## SUBMARINES ARE TO OPERATE OFF SPAIN

### U-Boat Was Sent To Santander To Organize Campaign Against Shipping

London, Aug. 1.—It is quite obvious that the U-56 was sent to Santander to organize the destruction of allied and Spanish shipping from a favorable spot," the Times declared today, commenting on the submarine probe being conducted at Santander, Spain.

"Both the Spanish and British governments are to blame because they tolerate it. When the entente emerges victorious from the war, they will make a sharp distinction between neutrals violating neutrality selfishly or from sympathy with the enemy."

**The Probe Proceeds**  
Santander, Spain, Aug. 1.—Investigation has disclosed that the German submarine U-56, which arrived here under its own power, has been in communication with other U-boats at sea, it was announced here today.

Commander Reiser repeatedly was seen signalling toward the sea, while the Spanish government intercepted wireless messages from the U56 after a French steamer was sunk and its crew killed by a submarine.
