## War Summary of United Press

### 1464th Day of the War; 20th Day of Counter Offensive

**VESLE-AINSE FRONT**—German resistance continues along the Vesle-Ainse front and the opposing artilleries are engaged in a terrific duel, apparently preparatory to another allied assault. Allied detachments, clinging to the north bank of the Vesle are successfully resisting enemy efforts to dislodge them.

**PICARDY FRONT**—The French made another advance north of Montdidier occupying the west bank of the Avre on the three-mile front between Braches and Morisel. A German raid south east of Montdidier was repulsed. German artillery heavily shelled the Villers-Bretonneux sector with gas.

**FLANDERS FRONT**—British troops repulsed a German raid northeast of Merris and made a successful trip into the boche lines in the Nieppe forest. Hostile artillery was active north of Bethune.

**SCOTLAND**—British clothing manufacturers have taken a contract to refit 2,000,000 American soldiers.

**FRANCE**—Renewal of the long range bombardment of Paris today resulted in some victims and material damage.

**GERMANY**—The Berlin Vossische Zeitung hints at the possibility of a German retirement to the Meuse river.

**Dr. Carl Gregg Doney Speaks At Monmouth**

(Capital Journal Special Service)  
Monmouth, Or., Aug. 6.—Dr. Carl Gregg Doney, president of Willamette University gave a splendid address at the Normal Tuesday afternoon. The information, coming from one so recently at the front in France, was doubly interesting and of much value to students and citizens who were fortunate enough to hear him.

On Thursday the last chapel exercises of the summer session were held. The principal address was given by Superintendent Churchill who spoke on the subject "The School Work in Higher Educational Institutions." Songs were sung by groups of students and all rejoiced at the close of school and the thought of the home going and vacation. Most of the students left on the 4:15 train.

Miss Dimus left Thursday afternoon for her home in Indiana.

Miss Valck goes to visit her folks in Portland.

Mr. Gentle, Mr. Gilmore, Mr. Butler, Miss West and Miss McIntosh expect to spend the greater part of the short vacation at their homes in Monmouth.

Miss Devore and Miss Lewis go to Columbia Beach; Miss Taylor to Tacoma and eastern Washington; Miss Panot to her home in Roseburg. Prof. Ide and wife will join the campers at the beach. President and Mrs. Ackerman expect to visit their daughter, Mrs. Luna and family at Vancouver, B. C. Miss Todd left Friday morning for her home in Pennsylvania. Miss Radabaugh and Miss Bramburg have planned an outing at Crater Lake, after which Miss Radabaugh goes to her home near Eugene. Miss Arbutnot will visit in Seattle; Miss Houx will spend a few days at the sea shore and the remainder of her vacation at Cave, Oregon.

Miss Riecker left Tuesday for Portland where she expects to visit friends for a few days and see the Columbia Highway. From there she goes to Seattle; then to Spokane where she will stop with friends for a week, then to Butte, Salt Lake City and Cheyenne for a few days each. Then on to her destination, Silver City, New Mexico, where she has a position in the Normal school for the coming year. The people of Monmouth regret to lose Miss Riecker as the feeling is general among them that she is one of the best primary teachers our school has ever had. Miss Dimus was another of the splendid teachers who will not return again and we feel a grave mistake has been made in letting them go, although we realize that most of them have secured better positions elsewhere.

Newport, Or., Aug. 6.—Even the most heralded summer resorts cannot excel in annual allurements, the Newport of this season. **A Strange Fact About Indigestion**

A strange fact about indigestion with which comparatively few people are acquainted, is that nine times out of ten pain in the stomach after eating is due to food fermentation and acid-ity; which, as any doctor or druggist will tell you, is almost instantly relieved by taking a teaspoonful of pure Bi-nesia (powdered form) in little hot water immediately after eating or whenever pain is felt. Pure Bi-nesia is obtainable of druggists everywhere and if everyone would adopt this simple plan, indigestion, dyspepsia, sour stomach, gas and flatulence would soon be unknown.
