Salem women who are interested in making clothing for the Belgian children are asked to meet at the city public library Friday afternoon at 1:30 o'clock. Mrs. Brita Hedine is taking the lead in the movement here and will tell of the work at the meeting. This is the line of work in which all kinds of materials are wanted and especially stockings and undergarments and the request is made that such materials be sent to the public library. Some time ago someone discovered that very nice garments could be made for small children from stockings and the meeting Friday afternoon is the beginning of the work in this line.

The camp meeting at 14th and A Sts. is interdenominational in character and is progressing nicely. The interest and attendance is increasing; there are three services each day at 10:30, 2:30 and 7:30 p. m. and sleeping accommodations and a place where meals can be purchased on the ground at very reasonable rates.

C. L. Snyder of Vick Bros. repair department appeared before the city court this morning to answer to the charge of running his motorcycle with the muffler cut-out wide open. There has been considerable complaint in regard to motorcycles making a lot of noise during band concerts. The police were instructed to stop it and Mr. Snyder happened to be No. 1.

A. A. Lee received two letters this morning from his son Lloyd A. Lee who is now in France in the signal service. One was dated June 2, and the other June 7, showing that about ten weeks is the quickest mail time between the Pacific coast and the boys in France. According to all reports, the big delay is in the handling of the letters in France. Mr. Lee says his son figures he was the first man from Marion county to get out in France. He enlisted in the quartermaster's corps of the regular army May 17, 1917, and arrived in France Aug. 4, 1917, completing his one year's service in that country last Sunday.

Inquiries for Willamette valley land continue to come in to the Salem Commercial club. A man from La Grande wrote that he had sold out and intended to locate in the valley and that his brother living in Oklahoma had become dissatisfied with the crop failures in that state and the shortage of water. He wrote that his brother hoped to find a suitable location for a cow ranch where there was plenty of good cheap grass land.

The city paving plant, now rented to Marion county on a basis of 7 1/2 cents per superficial square yard for work done by the county, has proved a fine investment for the city, especially since the plant originally cost the city only \$4500. Up to date the county has paved 25,400 square yards on the road between Salem and Silverton and 3,000 square yards on the bridge and approach, making a total of 29,400 square yards. At the agreed price of 7 1/2 cents per square yard the city has already made on the contract \$2,205.00. The recruiting business in the army station in Salem has faltered off the past day or so due to the many false rumors regarding the conditions of enlistment. While congress may pass the new draft law to include men from 18 to 21 and from 31 to 45, men of this age may volunteer not only up to Sept. 6, when it is probable they will be required to register, but possibly until their order numbers are called. Anyhow, as the situation now stands, men outside of the present draft-age, who will be included later, now have the privilege of selecting their service.

He also claims that the property in question was bought by his own money. Josephine Parker alleges that Woolery was employed by her on her farm and that she had paid him for his work in full to August 1.

RAIN IN NEBRASKA

Hastings, Neb., Aug. 7.—Rain which came suddenly to central and western Nebraska last night broke the spell of hot winds that had been sweeping over the state. From half to an inch of rain, followed by damp, cool weather today, is said by farmers to insure about half a crop, whereas if the winds had continued today, probably would have registered a complete failure.
