### Catarrh is a Real Enemy and Requires Vigorous Treatment

Do Not Neglect It.

Throw these makeshift remedies to the winds, and get on the right treat When you use medicated sprays, atomizers and douches for your Catarrh, you may succeed in unstopping the choked-up air passages for the time being, but this annoying condition returns, and you have to do the same thing over and over again.

Caterrh has never yet been cured by these local applications. Have you ever experienced any real benefit from such treatment?

### CANDY, ICE CREAM, HELD ESSENTIALS.

One Helps Industry of Long Standing, The Other Supports Dairy Herds.

Many inquiries, some of them thoughtess in nature, are directed to the food administration regarding the sugar limtation put upon all. Many persons ask why the Food Administration does not why the Food Administration does not close the confectionery stores so that sugar used in cardy making and ice cream, etc. may be saved. In answer to those queries, W. B. Ayer, state food ad-ministrator for Oregon, has today is-sued the following statement:

"In its work of so regulating the dis tribution of the nation's present sugar suppry that there may be ample allowance for the preserving of all possible foodstuffs throughout the country, as well as enough for necessary cooking and table purposes, the food administration is endeavoring to avoid imposing hardships wherever possible. The pre-sent certificate system which controls the supplies of all sugar using indus-

 as well as sugar consumed by house holds and public cating places, was very carefully worked out. Each sugar usng industry was classified as to the esential, less essential, and non-essential entages of sugar allotted to each classilication were determined accordingly.

Many persons are thoughtlessly asking

#### Evacuation of More Territory

Amsterdam, Aug. 12 .- An official interview published in the Stuttgart Neustadttblatt is believed to be for the purpose of preparing German public for evacuation of considerable territory between the Ancre and Som me, according to advices here a today.

The territory between the Avre and Somme roughly includes most of the territory in the present battle front.

\*\*\*\*\*\*\* fighting on the whole front is like this from Albert to south of Montdidier. where there are many little battles in side the big one, but they are timed to fit inside each other, while whippets and tanks and airplanes pave it into a

Rupprecht is throwing in his reserved as fast as he is able to bring them up, for the purpose of slackening the ad-vance. Since last Thursday, ten fit divisions of his already limited reserve have been identified, making a total of 41 divisions engaged since the start. Prisoners say that six of these divisions were hurried from the Vesle region in panibuses. Indications are that the German high command will make its biggest effort within the next 48 hours o held up the allies from the present

line, which is practically the same as the old Somme line.

#### FOCH'S FLANKING (Continued from page one)

in the direction of Noyon, If these make a perfect pocket of the Somme and the pass to the right of the river. positions and will compel the Germans to retire to the "Hindenburg line."

Austrians Make Complaint This same flanking operation against the Somme from the south is beginning to menace the western flank of the Germans between the Vesle and the Chemin-Desofrances. Marshal Foch is here developing a double strategy. He is linking both the Picardy and the Champagne operations so that in reality the drive eastward from Montdidier hall form a single campaign with the shall form a single campaign with the drive northward from the Marne. Unity of purpose is thus coming into its full strategic value as the result of the allies' unity of command.
