AMERICANS CLEANING UP GERMAN GUN NESTS MAKE ENEMY NERVOUS

Advance Their Line On Short Front And Take Some Important Positions.

By Fred S. Ferguson, (United Press staff correspondent)
Aug. 25.—(Night)—American troops advanced their line 500 meters (a third of a mile) on a front of two kilometers (a mile and a quarter) immediately east of Pimans today, driving the Germans from the railroad and capturing what has been an advantageous position. As this is cabled, sharp infantry fighting is keeping the whole Vesle front stirred up, but the boche counter attacks are fruitless. The Americans in the last few days, have begun a systematic clean up of objectionable positions. The tannery was first taken. Then an attack on a more pretentious scale was launched this morning. The boche had dug in along the railroad skirting the south bank of the Vesle, and had established numerous machine gun nests. The Americans were in a dip south of the main Solesmes-Rheims highway. They had to advance across open country toward the railway. A stiff barrage was put down on the railway at five a. m., the infantry starting their advance simultaneously. Quickly they topped the highway and charged across the open space in the face of a terrific machine gun fire. The attack was so impetuous it sent the boche scrambling for cover. A heavy enemy barrage was put down on the railway but the Americans held on. Only seven prisoners were taken. One of them, a banker and restaurant keeper of the higher class, was forced to serve. He had been in the army a year. He said that all able bodied men are now compelled to work in war factories or go to the front. He said that soldiers everywhere now realize their efforts are merely a sacrifice. One deserter who entered the American line revealed the straits to which the German high command had been reduced regarding man power. The deserter had been previously wounded but was taken from the hospital and returned to the front before he was fully recovered. The Americans now hold the railway on both sides of Pimans. The boches are extremely nervous and are constantly sending up rockets at night. American patrols are maintaining constant contact with the German lines, harassing the enemy positions day and night.

126 AMERICANS ARE GIVEN DECORATIONS

Of These Sixty-Six Were 'Not Present' Having Crossed The Divide.

By Frank J. Taylor (United Press staff correspondent)
With the American Armies in France Aug. 25.—(Night)—One hundred and twenty six officers and men of a certain American unit which distinguished itself in the Meuse fighting, were decorated this morning in an impressive ceremony, staged in a wood behind the Lorraine lines. Sixty six of the soldiers were not present. Theirs was the supreme sacrifice. American, British and French officers accompanied an American general, pinning the medals on the men living, while a band played the national airs of the countries. The infantry, artillery and machine gun companies passed in review, the sun glinting on their helmets and rifles. American planes carried about, driving off inquisitive German planes prowling overhead. The citations included eight of the legion of honor, 16 of the French military medal, 29 of the French war cross and 74 of the distinguished service cross. A French Lieutenant Louis Viaud, received the distinguished service cross. He is the first foreigner to receive an American decoration. He led an American and French detachment in a very gallant manner.

JAPANESE ARE GIVEN WARMEST WELCOME

Japanese, Chinese and Russian Flags Fly Together—Attack Is Repulsed.

Amsterdam, Aug. 26.—Moosev dispatches declare that a revolution for August 2 and headed by the former Grand Duke Alexioff, intended to prevent the despatch of troops to the Czech front, was frustrated. Eight leaders, it was said, were executed. Newspapers report a revolutionary movement in Volodia, Vladimir and Vladivostok. Three hundred White Guards were killed. Twenty persons, the newspapers say, have been executed in Petrograd. According to trustworthy accounts, the Germans are still eagerly, or patiently swallowing the general staff's untruths, half truths and ingenious explanations, wherein they are ably assisted by the press, which is deluded itself or is a party to the conspiracy to hide and distort facts. But we must not altogether blame the German people when military critics who are distinguished in their own country as Repington, Maffey, Mallette, Hutin, Simonds and Mison are in their; occasionally and cleverly are able to convert utter routs into "defensive victories;" inglorious defeat into strategic readjustments for the purpose of preserving tactical freedom of communication, simultaneously suppressing—even if they know themselves—the enormous tolls exacted in killed, prisoners and guns during the course of Poch's progressive "failures" or "decisive defeats." It is only necessary to follow the daily German communique to become convinced of the systematic purpose of Luderstorf to keep knowledge of the real situation from the public as long as possible; then by adroitly over-emphasizing some minor local successes to sugar coat facts which no longer can be concealed.

COURT HOUSE NEWS

In the circuit court James McGilchrist has entered suit against Frank E. Loope. He charges that Loope forcibly took possession of a Ford engine and Western truck attachment on July 20. That he had a contract for hauling wood and on account of Loope taking away his truck, he was obliged to hire others to do his work, and that his damage is \$325. He asks judgment for this amount. The appraisers, E. M. LaFore, Joseph H. Baker and Jasper N. Stauffe, of the Jessie Breyman McNary estate have fixed the value at \$95,359.92. Of this amount \$33,122.08 is in personal property consisting of \$2000 in Liberty loan bonds, \$945 in jewelry and investments in mortgage loans. The real estate is valued at \$92,237.83, and this includes Salem and Portland property, a part of which is an undivided one-sixth interest in the estates of Werner and M. E. Breyman and a one-third undivided interest in the M. E. Breyman estate. George Savage, C. E. Sheffield and James Rae were appointed appraisers of the estate of Mrs. George E. Hatch. In the matter of the estate of Edward F. Dwyer, the county court appointed the widow, Mrs. Emma L. Dwyer, as administrator. Pierre Ramseyer eloped from the Cottage farm of the Oregon state hospital Saturday and has not been found. He was committed from Marion county last March, and has a brother living near Turner. He is 43 years old. Leonard Carpenter, president of the Medford Irrigation district, and John W. Cunningham are here today conferring with State Engineer Lewis about certain engineering features of the proposed irrigation project for the district.

New York, Aug. 26.—The New York Evening Post financial review says: Saturday's surprising display of strength and sustained buying power of no mean scope was reflected at the opening of today's session of the stock market.
