Martha Washington shoes for Ladies, the genuine. Yarns, Minerva Yarns, the best made, we have a fair assortment. These goods cannot be replaced.

240-246 COMMERCIAL STREET

SHARE OUR SUGAR WITH THE ALLIES

British Get Two Pounds a Month. French Pound and Half, Italians One Pound.

GERMAN SUPPLY PLENTIFUL.

All Nations Permit Use of Sweetening for Home Preserving Purposes.

America's new sugar ration of two pounds a month per person is equitable when compared with the sugar ration in England, France and Italy, nations with which we are sharing sugar.

Each Allied nation—in the matter of sugar consumption—is sharing on nearly equal possible equal terms the hardships imposed by greatly altered conditions in the world sugar situation.

Formerly classed as a luxury, sugar is now a war time essential. The fair and just division of this essential is in the hands of the various Allied food controllers.

The United States Food Administration has asked this nation to observe a voluntary sugar ration of two pounds per person a month.

In the other countries at war with Germany sugar is one of the scarce articles on every menu—whether in the households of both rich and poor, or in the hotels.

England today has a sugar ration of two pounds per month per person. In France the ration is a pound and a half and in Italy it is one pound a month. And the prices in allied countries are from two to three times as high as in America.

If you go to a hotel in England or France these days and order tea or coffee they serve absolutely no sugar with it. If you want sugar you must bring it with you.

In England it is allowable to use one-seventh of an ounce of sugar in the preparation of each luncheon. In France many persons carry little sacharine tablets about with them for use in hotels and in England rich and poor must take their sugar with them.

Before the war started France had 625,000 acres devoted to sugar production. By 1917 the French sugar acreage had decreased to 180,000 acres. Today the French man or woman with a sugar card has no assurance whatever that he or she will be able to actually buy sugar. To buy it, one must first find it.

Italy Has "State Sugar."

Especially drastic regulations govern the use of sugar in Italy. Its manufacture, distribution and sale are closely controlled, and in part actually taken over by the state.

Saccharine is permitted to be sold and used as a substitute for sugar and the government manufactures a mixture of saccharine and sugar called "State Sugar," which is largely used.

German Sugar Ration Adequate.

Germany, before the war, produced a large surplus of sugar and exported large quantities. Today the Germans have virtually gone out of the export business, but have plenty of cheap sugar for home use.

Wholesale prices prevalent in the Allied nations, according to information received by the United States Food Administration are as follows: England, 10 cents a pound; France, 12 cents; Italy, 20 cents.

While these high prices are being paid abroad the American wholesale price is being held at 7 1/2 cents.

THREATEN TO STRIKE

Washington, Aug. 28.—Indications that the ship workers throughout the United States had threatened to strike if their demands for a standard wage of \$1 an hour was not granted, were today becoming more evident. Members of the shipping board's labor adjustment committee will see the president on the wage dispute late today.

In shipping board circles, it was hinted that the situation was critical.

BEECHAM'S PILLS

have a well deserved reputation as a safe and effective remedy for stomach ailments. They are Quickly helpful in bilious attacks, sick headache, dyspepsia, heartburn and constipation. They act gently and surely on the organs of elimination, purify the blood, tone the system and very quickly

Strengthen Digestion

Food savings of millions of Americans during our first year of war enabled this government to send enormous food shipments abroad for our fighting forces and the Allied nations. Our savings in cereals—out of a short crop—amounted to 154,900,000 bushels; all of which was shipped to Europe. We increased our meat and fat shipments 844,600,000 pounds. This was America's "box from home" to our army abroad and the civilians and military forces of the Allied nations.

FAMILY TROUGHT HE WAS GOING TO DIE

Wheeler Says Nothing Helped Him Until He Took Tanlac—Health Restored.

"Well, sir, Tanlac has not only entirely relieved me of my awful trouble but I have regained twenty five pounds of my lost weight and never felt stronger or better in my life," said Harry E. Wheeler, who is employed at the Pacific Coast Steel plant and lives at 1744 Forty Eighth Ave., South, Seattle, the other day.

"About a year ago," he continued, "I began to suffer with intestinal indigestion that, in spite of all I could do, got worse and worse till I was in a terrible condition. Everything I would eat fermented and I would be in such agony, that it was like a sharp knife cutting clean across my stomach. I got so weak that I could hardly do a thing, and it was only my will power that kept me going at all. When I would get home at night I would be so weak and in so much pain that my wife was always ready with a hot water bottle to put right on me, and even then I would be in such agony at times I thought it would drive me distracted. My hips ached with rheumatism, and the muscles of my right arm and leg would get all drawn into knots, and at times I couldn't raise my arm half way to my head. I went down in weight from two hundred pounds to a hundred and fifty two a loss of forty eight pounds, and my condition was so serious that my family actually thought I was going to die."

"I tried everything I could hear of to get relief, but nothing did me any good. Then my sister-in-law, who had been suffering with rheumatism, got me to try Tanlac, as it had done her so much good. I got a bottle and when I found it was helping me, I just kept it up till now I haven't a pain or an ache about me. I have a splendid appetite, and can eat anything I want without it hurting me in the least. I used to lay awake night after night suffering terribly, but now I go to sleep as soon as my head hits the pillow, and sleep like a log all night. I am picking up in weight every day and am feeling so fine and well that I am glad to tell everybody how much this wonderful medicine has benefited me."

Tanlac is sold in Hubbard by Hubbard Drug Co., in Mt. Angel by Ben Goetz, in Gervais by John Kelly, in Tanager by H. P. Carndius, in Woodburn by Lyman H. Shorey, in Salem by Dr. S. C. Stone, in Silverton by Geo. A. Steelhammer, in Gate by Mrs. J. P. McCurdy and in Stayton by C. A. Beauchamp.

GERMANS BOUND

Continued from page one

For retreat until the German army has been pushed out of western France and is clinging to the Meuse as its final stand before being swept wholly into German territory.

Today's rearward movement is developing a serious salient in the German front which has a specially threatening aspect because of Field Marshal Haig's relentless attacks north of the Somme.

The German counter attacks against the British are being developed with unusual ferocity because of this fact. The retreat before the French armies cannot be conducted simultaneously with a successful retreat further north because the mileage is far more extensive than Von Hindenburg can handle for a single operation. Therefore German reserves are being shifted desperately to the northern sector of the front, as the only way of avoiding disaster.

NOTICE

As You Are Probably Aware The Price Of

SILVERBEAM SPOT LIGHT

Has been lowered from \$10.00 to \$7.50. Like many other dealers we were unfortunate in having a large stock and as the profit has been taken away from us, we are going to sell them quick and get the money into something that will earn us a profit.

On FRIDAY and SATURDAY ONLY of this week we will give you the opportunity to get a Genuine SILVERBEAM FOR

\$6.75

"QUACK'S"

AMERICANS AND JAPS

Continued from page one

Dispatches from Archangel received today state that the allied forces have been in contact with the Red Guards on the Russian front. A bolshevik river flotilla was dispersed.

Trouble at Vladivostok

Washington, Aug. 28.—That there had been some disturbance in Vladivostok of a local nature, was reported to the state department by Consul Caldwell. The department said it presumed, however that the matter had been attended to and that there had been no change in government.

The department had no advice concerning the report that General Plehiff had seized the anti-bolshevik leaders in Siberia acting for General Horvath.

Grey-Diggers Lead In Scalp Bounty List

Grey-diggers, gopher and mole business has been good at the office of county clerk, E. G. Boyer since August 16, as the official scalp counters at the office report a total of 1753 offerings at five cents per scalp since that date.

Greydiggers seem to be the favorite when it comes to scalp hunting due to the fact possible that at this time of the year the ground squirrel really enjoys life in the open rather than to be associating with such unsightly neighbors as the mole or gopher. Anyhow, since August 16 there has been 859 greydigger scalps brought to the counter of the office of the county clerk and carefully counted.

Gophers lead the moles by a small majority, as the figures show that 384 gopher scalps have passed over the counter of the county clerk since August 16.

Mooney Case Used As German Propaganda

Sau Francisco, Aug. 28.—Pro-Germans in Europe are using the Mooney case as propaganda against America and particularly against President Wilson, the American socialist mission now in Italy, reported through the committee on public information today.

Louis Kopeln of the committee on public information forwarded to Mooney's defense league a cablegram from Rome as follows:

"Our mission finds the Pro-Germans are using Mooney case against America and particularly President Wilson. Will you kindly wire collect to Walter S. Rogers, twenty Broad street, New York, stating that President Wilson and federal government have championed the Mooney case and that while Mooney appreciates genuine sympathy he does not want his case made into German propaganda anywhere. Mooney has confidence in the justice of American people and in the president. Such telegram will help our government and furthermore will help Mooney."

Says Copper Interests Trying To Kill Paper

Butte, Mont., Aug. 28.—The Butte Bulletin today wired Frank P. Walsh, labor chairman of the war labor board, declaring that "the copper interests are trying to put an independent newspaper out of business."

The Bulletin, a labor paper, declared that the Butte Paper company, had refused to sell paper to the company, saying it had such instructions from Thomas E. Donnelly, chief of the pulp and paper section of the war industries board.

"This paper supports the government and has done so ever since it has been in existence," the telegram to Walsh stated. "We have run liberally and because of ill health. He will return to this country immediately."

His successor has not been announced.

AMBASSADOR RESIGNS

Washington, Aug. 28.—Walter Hines Page, American ambassador to London has resigned his post for business reasons and because of ill health. He will return to this country immediately.

LIEUTENANT FIRED

Washington, Aug. 28.—First Lieutenant Maurice F. Walker, 43rd infantry has been dismissed from the service for drinking with enlisted men in his company barracks at Camp Lewis.

A BOX FROM HOME

Food savings of millions of Americans during our first year of war enabled this government to send enormous food shipments abroad for our fighting forces and the Allied nations. Our savings in cereals—out of a short crop—amounted to 154,900,000 bushels; all of which was shipped to Europe. We increased our meat and fat shipments 844,600,000 pounds. This was America's "box from home" to our army abroad and the civilians and military forces of the Allied nations.
