Red Cross Helping To Adjust Insurance Claims of Soldiers

The Home Service section of the Red Cross, with offices adjoining the Commercial club is in daily communication with many who are after information as to the adjustment of insurance claims of soldiers and also information regarding the delay in receipt of allotments from soldiers.

Yesterday the office was of service to a father whose son had died in France, March 4 and he was not quite sure as to the means by which the insurance claim should be handled.

The wife of a soldier who is now in France called at the office a few days ago for information as to how she could enter the service as a Red Cross nurse. Having the latest information, the Home Service was able to advise her.

Today the wife of a soldier called and asked for money to assist her in the household expenses until her allotment arrived. In fact there is never a day that the office does not receive a number of calls from the families of soldiers. The majority of the inquiries are from the families of soldiers who have not received their allotments. The allotment law was changed August 1, and this has caused a delay in the arrival of allotments in many cases.

D. W. GRIFFITH 'SOMEWHERE IN FRANCE' HEARTS OF THE WORLD OREGON THEATRE SUNDAY

GRIFFITH REHEARSED ONE SCENE 127 TIMES BEFORE SATISFIED

When Hearts of the World is shown for the first time at The Oregon Theatre Sunday there will be few in the audience who will realize that one single scene of this master production was rehearsed exactly one hundred and twenty seven times before David Wark Griffith called "Camera!"

Many will think that a scene requiring so many rehearsals must be quite magnificent, a kind of panoramic spectacle like the massive groupings in "The Birth of a Nation," or "Intolerance." Griffith's two former productions. Contrary to this the scene upon which so much time was spent, is neither elaborate nor magnificent, and still every one who sees it will realize why so much time was consumed on it and why the great director attached so much importance to it.

PRIMARY ELECTION

(Continued from page one)

United States senatorial primary race, Henry Ford having easily won the democratic nomination and lost the republican by a heavy vote.

Reports from 1946 precincts out of a total of 2,187 in the state gave Ford 53,373; Newberry 100,300 and Osborn, 40,117.

Democrats at Sea
San Francisco, Aug. 29.—Democrats of California will contest the primary election held Tuesday as a result of which, under the state primary law, the party may be left without a candidate in the final election in November.

Gavin McNab, leading democratic politician today issued a call for a meeting of party leaders at which steps will be taken to test the primary law before the state supreme court.

The defeat of Francis J. Heney by James Rolph, who failed to secure the nomination of his own party and therefore is ineligible to accept the democratic nomination, has left the democratic without a candidate. Heney, conceding his defeat, told the United Press in Los Angeles today that he will not run even though it may be decided that the next highest man on the primary ticket gets the nomination in such a contingency as has arisen.

Heney Will not Run
Los Angeles, Cal., Aug. 29.—Francis J. Heney this morning told the United Press he conceded his defeat by Mayor Rolph of San Francisco for the democratic nomination.

He further declared that his defeat eliminated him from the race, even though Rolph could not run on the democratic ticket on account of his failure to win his own party's nomination.

He declared he believed the democratic party now is without a candidate.

German Military Writer Admits Miscalculation
Amsterdam Aug. 29.—Baron Von Ardenne, military writer of the Berlin Tagblatt, admits that Germany miscalculated the strength of the allied reserves.

Germany assumed that the destructive blows of our spring offensive used up Foch's reserves, the Baron wrote. "Semi-official reports strengthened this belief, but it was based on an error. We admit as much."
