AMERICANS ASKED TO LIMIT USE OF SUGAR

Must Use No More Than Two Pounds Per Person a Month if the Present Meagre Allied Sugar Ration Is Maintained.

Stocks Will Be Short Until Beginning of New Year—Ration May Be Enlarged Then.

Two pounds of sugar a month—half a pound a week—that is the sugar ration the U. S. Food Administration has asked every American to observe until January 1, 1919, in order to make sure there shall be enough for our Army and Navy, for the Allied armies and for the civilians of those nations.

By New Year's the world sugar situation will be relieved somewhat by the new crop. Cuban sugar of this year's crop will be arriving in this country.

Every available sugar source will be drawn on by the Food Administration during the next winter months to maintain sufficient stocks here to keep up our national sugar supply. During October the first American beet sugar will arrive in the markets. By the middle of November some of our Louisiana cane crop will be available. All of this sugar and more may be needed to keep this nation supplied on a reduced ration and to safeguard the Allied sugar ration from still further reduction. In Europe the present ration is already reduced to a minimum.

Our Situation.

The situation which the United States faces in its efforts to maintain a fair distribution of sugar to the Allied world is as follows:

Sugar supplies throughout the country, in homes, stores, factories and bakeries are at a low ebb. We must make increased sugar shipments to the Allies.

Production of American beet and Louisiana cane crops have been disappointing.

Porto Rico crops have been curtailed.

Immense sugar stocks in Java cannot be reached on account of the shipping shortage; ships are needed for troop movements and munitions.

Army and Navy sugar requirements have increased as well as those from the Allies.

Most industries using sugar have had their allotment reduced by one-half; some will receive no sugar.

Households should make every effort to preserve the fruit crop without sugar, or with small amounts of sugar. Later, when the sugar supply is larger, the canned fruit may be sweetened as it is used.

FOOD ADMINISTRATOR STEUSLOFF RESIGNS

C. M. Lockwood Appointed To Succeed And Will Move Office To Store

Fred W. Steusloff, who has served as county food administrator since the food administration was organized, yesterday handed in his resignation to W. B. Ayers, state food administrator. The resignation was accepted by Mr. Ayers.

C. M. Lockwood, proprietor of the Lockwood Coffee store on North Commercial street was appointed to succeed Mr. Steusloff and has accepted the appointment. Beginning next Monday, September 2, all business of the food administration in Marion county will be conducted from Mr. Lockwood's store.

Mrs. Lockwood will receive the appointment of stenographer and all the clerical work will be attended to at Mr. Lockwood's store.

Just at the present season, the public comes in contact with the county food administrator in receiving permits for sugar to be used in canning. Hence, beginning next Monday, instead of going to the Commercial club to secure sugar permits or to attend to any other business in connection with food administration, one should go to Mr. Lockwood's store.

Mr. Steusloff said that in conversation with Mr. Ayers and other state food administration officials, the general opinion was there would be further restrictions on the use of sugar for the duration of the war.

Senate Has Adopted Law Making Country Dry July 1, 1919

Washington, Aug. 29.—The senate late today passed the Sheppard bone dry prohibition amendment, making the country dry after July 1, 1919.

An effort to fix the date as January 1, 1919, was voted down without roll call.

The final vote on the amendment was taken without roll call.

The food stimulation act, to which the Sheppard provision is an amendment, is expected to pass the senate tomorrow. It then goes to conference, having passed the house some weeks ago. A determined effort will be made to substitute the Sheppard amendment in conference for the Randall bone dry amendment, adopted by the house.

FIGHTING REPORTED ALONG ITALIAN FRONT

Abandoning Of Berat To Austrians Is Officially Admitted.

Rome, Aug. 29.—Repulse of Austrian attack in several sectors of the Italian front was reported by the war department today.

"In the Conel valley the enemy, after a violent destructive fire, attacked, but was promptly arrested by fire of our advanced posts, which counter-attacked and drove back their assailants inflicting losses and capturing prisoners," the statement said.

"On the northern slopes on Altissimo and north of Cel Del Rosso, hostile reconnoitering parties were attacked and dispersed by our patrols.

"Along the front, artillery concentrations incessantly shelled the enemy front line and harassed their communications."

Berat Was Abandoned.

London, Aug. 29.—The Austrian offensive in the Balkans, beginning August 22, was at first repulsed, but the Italians finally withdrew their line to Malakstra, Cafaglava and Cafaglavaka, it was learned today. The French withdrew their left wing in conformity with the Italians.

The Italian line is now five miles south of Berat. It is declared to be essential that the Italians retain Malakstra ridge, which commands Valona harbor.

This is the first information that the Italians have evacuated Berat, the important Albanian city which was captured by them in their recent offensive.
