The rush of green prunes at the Salem Fruit Union has been such that the order has been given out by Robert S. Paulus, manager, that no one shall bring in prunes until first telephoning the union as to whether they can be taken care of. Picking was ordered stopped as the shortage of labor and difficulty in getting cars made it impossible for the Union to care for the prunes. During this week, 45 cars were shipped out. Fully 10,000 bushels have been brought in on this one picking. Mr. Paulus said and these were from members of the Union. Fully as many were offered to Mr. Paulus from those not members of the Salem Fruit Union, but the rush was such that the prunes of non-union members could not be accepted.

Grocers today received a new ruling on what may be used as substitutes for wheat flour. It is that all grocers are obliged to carry in stock corn meal, corn flour and barley flour to be sold as substitutes. But now they may sell in addition, rice flour, oat flour, peanut flour, bean flour and buckwheat flour as substitutes. Pure rye flour must be sold with wheat flour on a proportion of two parts of rye to three parts of wheat flour.

As the industrial clubs throughout the county especially in the rural districts are very active at present each club leader will be asked to assist.

In regard to the progress that is being made towards securing the necessary membership for maintaining the Commercial club, it may be said that from the experience of the past week, it is now only a question of getting the workers out and securing the subscriptions. Those who have given their time this week to the work report a most friendly feeling among the merchants and professional men in general, with very few turn downs. With the few that have been working, the re-

ports indicate that already more than half the necessary subscriptions have been pledged. As the matter now stands the general feeling is friendly towards the club and there is the conviction that the club should be sustained. It seems to be merely a question now of the workers who were appointed, getting out and doing the necessary soliciting.

It may be no consolation while suffering from the heat to think what the other fellow is getting, but yesterday when the thermometer was touching around the 95 and 96 mark, Medford was getting 104. Phoenix, the old standby for hotness was also registering 104 while Roseburg was steaming under 100. It was 102 at Sacramento and 94 at Portland. Tacoma felt the weather at only 79 and Sitka, Alaska got along with a summer climate of 56.

ETC. new advertising posters for the Fourth Liberty loan are much more attractive as well as decidedly more impressive than those of the other loans. For distributions in Marion county there has been received 200 of "Beat the Hun Back," "Bloody Boots" showing a large German boot covered with blood is most suggestive. "Meet Children Die" is another that cannot fail to tell the story and of this poster, 400 will be distributed in the county. "That Liberty Shall Not Die" is a most artistic as well as a deeply impressive poster.
