SCENE IN HEARTS OF THE WORLD AT THE OREGON THEATRE SUNDAY—D. W. GRIFFITH'S MASTERPIECE—The biggest event in the entire motion picture, will be the presentation of D. W. Griffith's latest film masterpiece, "Hearts of the World."

"Hearts of the World" required sixteen months in the making and many of the scenes were taken on the actual battlefields of France by M. Griffith, with the official aid and assistance of the British and the French Governments. Mr. Griffith, however, is anxious to remove any apprehension that "Hearts of the World" is primarily a war picture. It is, he announces, primarily a love story, in which war figures as the grim background. It may be called "the story of a village," and for more than forty minutes during the exposition of the story, there is not a cannon shot, not a suggestion of war's alarm.

### War Summary of United Press

1489th Day of the War; 45th Day of Counter Offensive

**Picardy Front.**—The British are reported to have outflanked Peronne from the north and are now within a mile of the city. On the south only the width of the Somme river separates them from Peronne. The French are driving toward Guiscard and Chauny, and are reported to be nearing both of these important points, while at Coney-Le-Chateau they have taken a weed half a mile from the city and only three miles from the Hindenburg line at that point. This is more than fifty miles south of the point where the British have crossed the Hindenburg line and immediately east of it is the great St. Gobain forest, said to be one of the strongest defenses in eastern France. American and French troops have begun a double drive between the Ailette and the Aisne, striking eastward along the north bank of the Aisne and at the same time driving northward toward Coney-Le-Chateau.

In the Arna region the British are advancing steadily toward Cambrai.

**Flanders Front.**—British troops have made their greatest advance on this front since the German drive. They have progressed from a mile to two miles on two sectors constituting a front of about 12 miles, occupying the famous and bloody Mont Kemmel and recapturing Branoutre, Lestrem, La-Couture, Vielle-Chapelle, and Bailloil railway station.

The British now have eliminated about a third of the Flanders salient.

**Champagne Front.**—German raids were unsuccessful.

**Aisne-Vesle Front.**—American artillery is heavily bombarding Baroeches and Finnette.

### Former Silverton Woman Is Killed

Corvallis Or., Aug. 31.—Mrs. Tom F. Cowing of Portland was instantly killed and Mrs. Cowing and her two children were badly bruised when the family's auto went over a 12-foot grade and turned turtle, pinning the occupants under the body of the machine, at 12:30 p. m. yesterday, four miles west of Blodgett, in the Coast range of mountains.

Mrs. Cowing was caught under the steering wheel of the machine and Mrs. Cowing under the seat, while the children, who occupied the rear of the machine, were between the two seats when the auto landed upside down. The two children dug their way out from under the auto and hastened to a farm two miles away, where a threshing crew was at work, calling for help. The threshers at once went to the scene and lifted the machine off the couple, finding Mr. Cowing in a serious condition and Mrs. Cowing dead.

Tom F. Cowing and family live at 2216 Woodstock avenue, Portland, the family consisting of Mr. and Mrs. Cowing and the two children, a boy, aged 14, and a girl, aged 10 years old. They had spent the past few weeks in Newport. Mrs. Cowing, whose maiden name was Amy J. Smith, was raised in Silverton, where her grandfather, Sol Smith, a pioneer of 1846 still resides. She was 40 years old.

The date of the funeral has not yet been set and arrangements are not completed. The arrangements are in the hands of A. B. Kenworthy & Co.

### PRESIDENT SETS

(Continued from page one)

military authorities regard them as having the highest combatant qualities. Their youthful enthusiasm, their virile eagerness, their gallant spirit of dar-

ing, make them the admiration of all who see them in action. They covet not only the distinction of serving in this great war, but also the inspiring memories which hundreds of thousands of them will cherish through years to come, of a great day and a great service for their country and for mankind.

**Older Group Realize.**

"By the men of the older group, now called upon, the opportunity now opened to them will be accepted with the calm resolution of those who realize to the full, the deep and solemn significance of what they do. Having made a place for themselves in their respective communities, having assumed at home the graver responsibilities of life in many spheres, looking back upon honorable records in civil and industrial life, they will realize as perhaps no others could, how entirely their own fortunes and the fortunes of all whom they love, are put at stake in this war for right, and will know that the very records they have made render this new duty the commanding duty of their lives. They know how sure this is the nation's war, how imperatively it demands the mobilizing and massing of all our resources of every kind. They will regard this call as the supreme call of their day and will answer it accordingly."

**Only portion Will Go.**

"Only a portion of those who register will be called upon to bear arms. Those who are not physically fit, will be excused; those exempted by alien allegiance; those who should not be relieved of their present responsibilities above all those who cannot be spared from the civil and industrial task at home upon which the success of our armies depends as much as upon the fighting at the front. But all must be registered in order that the selection for military service may be made intelligently and with full information. This will be our final demonstration of loyalty, democracy, and we will to win, our solemn notice to all the world, that we stand adequately together in a common resolution and purpose. It is the call to duty of which every true

man in the country will respond with pride and with the consciousness that in doing so he plays his part in vindication of a great cause at whose summons every true heart offers its supreme sacrifice."

In addition to those who have registered under previous drafts, the following are exempt from registration:

**Some Exemptions.**

Officers and enlisted men of the regular army of the United States and men of the forces drafted; officers and enlisted men of the national guard while in the service of the United States; officers of the officers reserve corps and enlisted men in the enlisted reserve corps, while in the service of the United States; officers and enlisted men of the navy and marine corps; officers, enlisted and enrolled men of the naval reserve force and the marine corps reserve while in the service of the United States and diplomatic representatives, technical attachments, consul generals, consuls, vice consuls and consular agents of foreign countries residing in the United States, who are not citizens of the United States.

A day of registration in the territories of Alaska, Hawaii and Porto Rico will be named in later proclamations.
