

Saving Sugar Saves Shipping

AMERICAN families would have less sugar than the people of war torn France, if we depended entirely on our home-grown sugar stocks.

Approximately 75 per cent. of our sugar is shipped to our shores. We produce about 1,000,000 tons of sugar a year. Our imports from abroad amount to over 3,000,000 tons a year in normal times.

The United States Food Administration asks each family to limit its use of sugar to two pounds per month per person for household use. The military situation demands that every available ship be placed at the disposal of the Army or Navy. When we save sugar, we save shipping.

Roll of Honor "From Over There" General Pershing's Official Report

Killed in action	98
Missing in action	111
Wounded severely	348

Bond To D. W. Griffith. Children Under Six Will Not Be Admitted

War Summary of United Press 1491st Day of the War; 47th Day of Counter Offensive

Picardy front--South of the Scarpe, the British made considerable advances on two sections of the line. Canadian and English troops launched a renewed attack at 5 o'clock this morning on a five-mile front between Eining and Gagniecourt, on both sides of the high-way running from Arna to Cambrai.

The Canadians are reported to have broken through the Douaumont-Queant switch line, on a front of two miles having captured Douy and the western edge of Gagniecourt. This registers an advance of nearly two miles beyond the previous British line in that vicinity.

Further south between Bapaume and Peronne, Genl Marshall Haig announced the capture of Sully-Sailliel and Sailliel, an advance of about two miles.

On the Noyon-Soissons front, the French repulsed two German counter-attacks on Champagne firmly consolidating their positions there. In the Ailette region French outposts are reported at the gates of Coney-le-Chateau, advancing through the woods west of that place and east of Pont-St. Mard.

Flanders front--The British have captured Neuve Eglise, just beyond the previous front line, and have reached the Lys river east of Estaires.

Russia--Conflicting reports were received regarding Nikolai Lenin, Bolshevik premier, who was shot Friday by a woman revolutionary. Copenhagen reported his death, but a private message received in London later declared he is not dead, but is in very grave condition. Dora Kaplan, a woman associated with the terrorists, has been arrested, charged with shooting Lenin.

At Moscow the Bolshevik announced that 3,000 social revolutionaries have been arrested and sentenced to death and will be executed unless the anti-socialist conspiracies cease.

Siberia--With the arrival of American troops on Friday at the front the allies began an advance towards Habarovsk and Irkutsk. General Semenov's cavalry captured a number of towns along the Onon river.

Spain--Following announcement of the submarineing of the Spanish steamer Ataz Monday, the Spanish cabinet is reported to have ordered the seizure of all German vessels interned in Spanish ports.

Why Women Dread Old Age
Don't worry about old age. Don't worry about being in other people's way when you are getting on in years. Keep your body in good condition and you can be as hale and hearty in your old days as you were when a kid, and every one will be glad to see you.

The kidneys and bladder are the causes of senile afflictions. Keep them clean and in proper working condition. Drive the poisonous wastes from the system and avoid uric acid accumulations. Take GOLD MEDAL Haarlem Oil Capsules periodically and you will find that the system will always be in perfect working order. Your spirits will be enlivened, your muscles muscle strong and your face have once more that look of youth and health.

There is only one guaranteed brand of Haarlem Oil Capsules, GOLD MEDAL. There are many fakes on the market. Be sure you get Haarlem Oil Capsules. They are the only reliable. For sale by all first class druggists.

HINDENBURG LINE
Continued from page one

Chauncy towards La Fere unpleasant speedways for Ludendorff's convoys.

Thus the Germans, to all intents and purposes, are already back on the Hindenburg line, although in front of it they still have much material.

To save this and because they doubt their own ability to hold the Hindenburg line if the allies hit it too soon, the Germans are fighting desperately at every hinge-point on the line. This is especially true about Soissons, Noyon, Bapaume and Peronne.

Adopting brand new tactics, the allies are refusing to play into the enemy's hands. They are turning the strong points instead of taking them by frontal attack on the principle of hitting the enemy where he is weakest instead of where he is strongest.

On the other hand Hindenburg is playing a stupendous game, although one that obviously was forced upon him by Foch. To under-rate his ability to play the game, means to help him to

get away with it and thus to prolong the war. Having lost the final stages of the battle for Paris to Foch, whose strategy has enabled the allies to retain the positions initiative in a grip of taken fewer prisoners, apparently no hope remains among the German leaders of making a stand this side of the famous Hindenburg line.

There Hindenburg hopes to be able to rebuild his armies. His final hope every sore spot he could find and break it. Every single American over here knows that the allies now hold a victory in the hollow of their hands with America continuing to play the game as during the past few months and no allied soldier, American or otherwise, doubts for a minute that America will do that and more.
