South Dakota Man Is Polk County Agent

(Capital Journal Special Service)
Dallas, Sept. 12.—The extension department of the Oregon Agricultural college this week sent word to the Polk county court that H. E. Gregory of Bellefouche, South Dakota, has been chosen as agricultural agent for this county and that he would be in Dallas to take up the work of the office about the 20th of the month. Mr. Gregory is said to be an expert in his line of work and that his labors will be beneficial to the county. The county has been without the services of such an agent for several months and for some cause the Agricultural college has been unable to secure the right kind of a man acceptable to the county court and Polk county farmers. Mr. Gregory will have his office in the room provided by the county on Mill street where he will be glad to meet all parties in trouble with anything pertaining to crops and soil.

Fire Destroys Sawmill

The Hughes sawmill located near Oakdale, several miles west of this city was destroyed by fire the latter part of last week. The mill was being moved to another location and only a part of the machinery was in the structure at the time. The loss to the machinery and lumber piled on the ground is considerable. The supposition is that the fire started from a brush fire near the mill.

Dallas Girl Wins Principals of Schools

Miss Almada Fuller, daughter of Mr. and Mrs. E. W. Fuller left this city the first of the week for Haines, eastern Oregon, where she has accepted the principalship of the city schools of that place. Guard Appears in Uniform

The first appearance of the Dallas home guard in the new uniforms recently purchased by the county court was Tuesday night when practically the entire company was present for drill. A few of the membership however were not present last week when the uniforms were received and these will have a chance to fit themselves out Friday night when a new lot of clothes will be at the armory. Most of the men are now equipped with rifles and an endeavor will be made at an early date to secure the balance of the weapons promised by the state several months ago.

Valley & Siletz Extends Line

Carl B. Williams, superintendent of the Valley & Siletz railway was in the city Tuesday night visiting at the home of his parents, Mr. and Mrs. E. Williams. Mr. Williams stated that his railroad was making extensions in the timber of the companies operating on their line but that no large amount of work was being done on the main line on account of the scarcity of labor. The Valley & Siletz now reaches some of the finest timber on the Pacific coast and with a few miles of new-line will be in the heart of the big timber belt of the country.
