Richmond School. Principal, Anna Fischer; teachers, Christabel Jowett, Adona Cochran, Etta White, Sibyl Harrington, Mona Green.

Some in this city the first of the week after a lingering illness with cancer. Mr. Guthrie and family recently returned to Dallas to live after living in Oregon City for a number of years. The deceased leaves to mourn his death a wife and two small children and four sisters, Mary Ellen Mosier of Silverton, Martha Jane Remington and Lillie M. Whiteside of Corvallis and Mrs. Sarah Rhodes of Salem, and five brothers, David, Armand, Forest and Thomas Guthrie all of this city and Harvey Guthrie of Monmouth. Funeral services were held from the Chapman undertaking parlors on Main street and the body was laid to rest in the I. O. O. F. cemetery.

Mrs. H. B. Cosper is in Portland this week a guest at the home of her daughter, Mrs. Elmer Strayer.

O. P. Chase, former city marshal of Dallas, was in the city Thursday for the purpose of registering in the draft.

CLOVER HULLER BURNS.

As Amos Kauffman was moving his clover huller from one farm to another south of town last Friday, a spark from the engine landed on some chaff on the huller and the fire spread so quickly the machine was soon enveloped in flame.

More silos have been built in the Hubbard territory this year than in any preceding year. The favorite silo being put up is known as the Mooren perfect silo, octagon, easily put up or taken down. The scarcity of feed has made the points of the silo easily seen because of its saving not only in the quality of feed, but it cuts out waste and that is one of the watch words of the year. —Hubbard Enterprise

LETTERS FROM SOLDIERS.

Hubbard parties the past week received letters from Jay Coyle, in the hospital from shrapnel wounds. He planned to give his Hubbard friends too much detail and the letter was some cut up before it left the censor. He is recovering from his wounds.

The last letter received from Gordon Fredrickson, which was Tuesday, said he had been transferred from the engineers to an ammunition train, and said on the trip on the night before the horses to his wagon were killed but no men hurt. He was getting up close to the front lines nearly every night.

HUBBARD NEWS.

Hubbard, Ore., Sept. 14.—Some crops may be short in spots, but not the corn on the D. C. Yoder place, for he brought to town one stock that was 1 1/2 feet tall. The average sized man would have to jump twice to gather the corn on those stalks.

The families of J. P. Palmer, Earl Palmer, Ira James, William and Herman Uppendahl are home from a fine time spent camping at Pacific City. The weather was fine and so was fishing. Everybody in the party accumulated the required amount of tan.

Mr. and Mrs. Geo. Owings and little daughter went to Portland Tuesday. Mrs. Owings and daughter returning home Wednesday and Mr. Owings continued his trip to Spokane where he may stay a week or longer on business. Mrs. Owings was accompanied on the return trip by Mr. Wm. Weston of Portland, a brother, who will be her guest and of her sister, Mrs. Bert Kent, out on Elliott Prairie for the next week.

Mr. and Mrs. Levi Welty returned from Portland Monday to again make their home in Hubbard, satisfactory property in Portland is hard to get and their sons, Olin and Clayton preferred to be in school here, so the change was made. They have established a temporary residence with Mrs.

Welty's mother, Mrs. Alfred Johnson, for the present. Mr. Welty returned to Portland Wednesday morning to resume his work at the Portland Seed Co.

Last Tuesday B. L. Hershberger shipped out another thousand dollar load of clover seed and vetch. Lee says the way outside orders are coming in for vetch the supply he has on hand will not last long. This does not surprise us at all for he is selling them cheaper than what they would cost him to replace them. That means that if you expect to plant vetch, you will have to hurry.

A very satisfactory increase in the enrollment of Hubbard's schools was noted by Wednesday morning, and a number of students will be added to the list within a few days. There are now 128 pupils in the grades and 30 members of the high school. The enrollment in the high school as not been affected by the draft to the extent that it was feared and with the attitude of the government favoring school attendance of the boys over 18, it is thought the school work need not be broken into. These plans will work out in the near future to the benefit of all concerned.—Enterprise

Dallas Pastor Becomes Chaplain In Army

(Capital Journal Special Service) Dallas, Sept. 13.—Rev. Howard McConnell, pastor of the Dallas Christian church returned the first of the week from Vancouver barracks, where he took an examination for an appointment in Uncle Sam's army as chaplain. Rev. McConnell has been assured by the officers who conducted the examinations that he passed the test successfully and that his commission would no doubt arrive from the war department at Washington within a short time. Rev. McConnell goes into the service with the rank of first lieutenant and will be assigned to the training camp at Taylor, Kentucky. Rev. McConnell made application for a chaplain's place in the army several months ago but not hearing from his application he accepted a call to the Christian church at Selma, Cal., recently and had resigned his place with the Dallas church and was preparing to move to the California city when orders came from the war department ordering him to present himself at Vancouver barracks for examination. He has notified the church board at Selma of his call and asks them to accept his resignation as pastor or grant him an extended leave of absence until after the war. With Rev. McConnell's departure from the city but two ministers are left, Rev. C. P. Johnson of the Methodist church and Rev. Ploymann of the Evangelical church, the balance having entered the Y. M. C. A. service.

Eola Man not to Accept Nomination Hon. T. W. Brunk, the prominent stock raiser of Eola, was in Dallas this week and decided that he would not accept the nominations honored him at the primary election in June for both the offices of joint representative of Polk and Lincoln counties and representative of Polk county. Mr. Brunk served as Polk's representative in the legislature several terms ago but his health at this time will not permit him to take the place. With Mr. Brunk's declining to run the election of B. F. Jones and W. V. Fuller, both republican aspirants for the offices is assured.

Polk Man Lands Good Position William H. Burton, a former Polk county man who has held the position as assistant principal of the training school at the Monmouth Normal for the past several years, has been appointed resident commandant of the Hill military academy at Portland. Mr. Burton is an exceptionally fine teacher and will no doubt make good in his new position. He was recently drawn with a Polk county draft and sent to Camp Lewis where he was rejected by medical examiners.

Former Dallas Teacher in France Word reached Dallas this week that Miss Rose Sheridan, formerly a teacher in the domestic science department at the Dallas high school, had arrived in France and was in charge of a Red Cross canteen. Miss Sheridan left Dallas last year and accepted a position in the Hood River schools. Her letter stating that she was in France was a great surprise to her many friends in this city.

Joseph L. Guthrie Passes Away Joseph L. Guthrie, son of the late D. M. Guthrie and a Polk county native son, passed away at the family

Scrapped by the Allies

Confronted with the menace of a power which knew no law but its own bestial pleasure, America had no course but to add its strength to the battle which should establish for some centuries that might is not right. On no other basis will peace last.

Let your answer be loud and clear at the next opportunity, which is the Fourth Liberty Loan. Nothing but MORE THAN YOU CAN AFFORD will be an honest answer.

Automobile As A Piece Of Transportation Machinery

"The automobile, on account of its popularity has been given many names," says F. G. Delano, local dealer in Chevrolet passenger cars and trucks, "but primarily it is a piece of transportation machinery. Nothing 'What is an automobile? It is a combination of mechanical units, using as its power and for propelling purposes, an internal combustion motor. It is as much a piece of machinery as a locomotive and as useful as a plow, harrow, or anything mechanical and modern used from an efficiency and time saving standpoint.

"I would be as difficult to do without the automobile as it would if we were deprived of any of the other essential, much needed and helpful articles mentioned above. They have all helped in the enjoyment of life, in doing a task well, in saving time and making us a more efficient people.

"It is for this reason that the automobile was widely accepted the moment it was found worthy, and it has grown in favor all over the country. It is today equally important to all. Its use truly lengthens the working day. It saves the energy spent in getting about town in course of business for constructive work. It has brought the country closer to gether. It has been an instrument of progress and development. The automobile when once put into service becomes man's right hand assistant—his independent, economical and trustworthy method of conveyance.

"Chevrolet automobiles are built with a complete understanding of what is expected of the present day motor car. They are built to give every day service at low expense. There are hundreds of thousands of them in use. This, in itself is proof that they do what is required of them."

letter to his mother, Mrs. Geo. Owings received Wednesday, says he is well and having plenty to do. The letter was written July 25 and posted a month later at seaport. Homer Choate, another one of our boys from the east of town, sends a special message to Bud Thompson, saying that a letter from him would be a dandy tonic. The boys are in different companies and do not get to see much of each other. Both boys are in the 128th, Norman in the 2d battalion, company G, and Homer in the 3d battalion, company I. Norman is the bugler of his company. —Hubbard Enterprise.

WACONDA NEWS

(Capital Journal Special Service) Wacanda, Sept. 14.—Mr. and Mrs. Ward Russell were Salem visitors Sunday.

Mrs. Lawrence Brooke and Mrs. Frank Brooke were visitors at the A. W. Nusom home Thursday. Carlton Savage made a short trip to Wacanda Thursday for the purpose of registering.

Mr. and Mrs. Walter Nusom left this week for a logging camp near Tillamook, where they intend to stay for a few months.

Mrs. Chas. Halls and daughters, Violet and Mae, were Salem visitors Wednesday. Mrs. Chas. Savage of Maui, Hawaii, is visiting at the home of her brother, J. O. Savage. She arrived in the states in July and intends to sail for the islands about the first of October. Mr. Oramer and Ray Patterson motor ed to Salem Thursday on business.
