State House Notes

Suspected of being the man who assaulted Mrs. Lucrecia Long, an aged resident of Amity, last Friday, Louis Schmidt, who escaped from the Oregon state hospital a few days ago and was rearrested in Portland yesterday, was taken to Amity today for possible identification by Mrs. Long. Schmidt denies that he committed the crime. He is an Austrian alien.

Official notification that the Pacific & Eastern railroad has been released from government control was received today by the public service commission. All short line or feeder roads in the state are now under the exclusive control of the state commission, the same as they were before the government took over any of the railroads.

The Southern Pacific will not close its station at Midland, on the Klamath Falls branch, as it had contemplated going, according to a letter received from the company by the public service commission today. The company says it has been conclusively shown that the closing of the station would greatly inconvenience its patrons.

Court House Notes

H. C. Bressler has filed a suit against Ernest Blue for \$500. In his complaint he alleges that he let Blue have \$500 which he was to loan on an automobile worth about \$1800 and that while Blue got his \$500, he received no loan papers or mortgage on any automobile. He states that it is his belief that Blue appropriated the \$500 to his own purposes. To total damages asked for is \$750.

John Foo a Chinaman has sued Nath- an Song for \$2000. In his amended complaint he alleges that in October of 1913 he contracted with Song to rent him 40 acres of hop land near Fairfield and that he was to receive three fourths of the crop as rent. He alleges that he has received no rent whatever and asks that the court order the defendant in for an accounting.

A marriage license was issued yesterday to George A. Seuter, 20, of Silver-ton and ELLIAN Rosheim, 20, also of Silverton.

BOYS TAKE HOLD IN GOOD OLD AMERICAN WAY, SOLDIER SAYS

Hardships Ignored, Wounded Man Tells Mother—Don't Let Them Hinder Your War Work

By Mrs. Hazel Pedlar Faulkner
From a hospital somewhere in France a wounded American has written to his parents:
"We are going through hardships, but the boys are taking hold in the good old American way."

What a message for those of us who have remained at home! What a challenge to the vast army of men and women who are in the home guard, carrying on in the thousand and one ways that the exigencies of war have brought upon us.

"We are going through hardships," We can believe that, when we recall the countless charges which our boys have been making over there, and the daily lengthening casualty lists which are resulting from their fearless devotion to the task that is set before them.

We know they are going through hardships, when we stop to think of the hundreds upon hundreds who are wounded, and who for the time being at least need care and attention.

FIENDISH ENEMY ADDS TERRORS
Of course they are going through hardships, those boys from your home and mine. Hardships are a part of war. They are the inevitable result of a state of war. And when war is waged by an enemy so skilled in all the fiendish devices in which the Germans have indulged, they are the inescapable portion of every soldier participating.

But hardships are not the part of the war that the soldiers of ours are thinking most about. They are but the incidents in the day's work.

"The boys are taking hold in the good old American way."

Could there be a better statement of their manner of facing what comes to them? Could there be a more definite course of action prescribed for those of us at home during these days which test the mettle of our souls?

The time for our message to the boys has come again. The Fourth Liberty Loan is to be our response to this wounded soldier's challenge.

MAKE YOUR ANSWER NOW
Are we going to take hold in the "good old American way?"

We have not had to go through hardships,—ours have been an easier path. We have known little of sacrifice or deprivation. Compared with the offering of our boys, we have done nothing as yet. And now, here is the challenge sounded to us.

The good old American way is all that is asked of us. What is that way?

You must frame the answer, mothers and sisters of the west. Yours is an important part in the reply which the nation will make to the boys overseas. There is not one of us who would not spare her son if she could—yes, even spare some other mother's son the pain and hardship he must bear. We are not asked to do that. We could not, though we would.

But we can make his part easier to bear, we can go with him through the hardships, by lending completely of our money.

There is no longer need to explain what a Liberty Loan is. There is no more necessity for pointing out reasons for participation in it. This is the day when but to hear its call is to insure its heartiest support.

September 28th is the date set for our concerted reply through the Fourth Liberty Loan. Let us take hold in "the good old American way." What is the very most you can do to make that advance a smashing success like the boys over there are making?

STATE TAX LEVY TO BE PASSED UP TO VOTERS

For the purpose of submitting to the voters at the November election the question of increasing the state tax levy for 1919 by \$940,000, a certificate of necessity for such an increase had been filed with the secretary of state by the state tax commission. The secretary of state will now certify the matter to the county clerks who will have it printed on the ballots.

Under the regular state tax levy, restricted by the six per cent tax limitation provision of the constitution, it is estimated that the sum of \$6,218,083 can be raised for state purposes during the next biennium, plus 1,235,000 which is the estimated income from fees, etc., making a total of \$7,453,083. The \$940,000 to be voted on will be in addition to the regular tax levy.

The certificate filed by the state tax commissioner is, as follows:
"We, the undersigned, constituting the state tax commission of Oregon, hereby certify that in our opinion it is necessary to levy an amount of state taxes for the fiscal year 1919 larger by \$940,000.00, than the amount limited by the constitution of Oregon, unless specifically authorized by vote of the people."

"From careful investigation, we believe that the proposed specific income of the state levy for 1919 is necessary that deficiency debts incurred for main-

SELECTIVE SERVICE MEN INSTRUCTED ON PERSONAL HYGIENE

More Than 2000 Hear Talk From Captain Russell, Medical Director

More than two thousand selective service men met at the army last evening in response to a call from Provost Marshal General Crowder. The meeting was called in order that prospective army men might hear addresses on personal hygiene and also on insurance and allotments for soldiers.

Captain J. Frederick Thorne of the Red Cross gave the men the following facts:

Married men are required to make an allotment of \$15 a month for their families; the government giving an equal amount. An allotment may also be made to dependent parents to the amount of \$10 each. The maximum that the government gives is \$50 a month.

In addition to the \$15 a month of the soldier, the wife gets \$15, with \$10 a month for the first child, \$7.50 for the second and \$5 a month for other children until the maximum of \$50 a month is reached.

Soldiers are urged to take out insurance but not compelled to. However, 50 per cent do protect their families with insurance from \$1,000 to the maximum, \$10,000. The government reserves the right to transfer this insurance after the war to any of the old line companies. Insurance policies are paid in installments running over a period of 20 years.

Men who are crippled are taken care of by the government and assisted to learn a new business or profession. While a soldier is in the service, no mortgage may be foreclosed nor can his land be sold for taxes nor can a soldier's family be ejected from a home nor can the landlord charge an excessive rent.

In case of dire need or the delay of allotments, The Social Service department of the Red Cross will advance money and this is not to be regarded as charity but as part of the government's business, to see that the families of soldiers do not suffer.

Death Rate Reduced
Captain R. L. Russell of the medical corps of Camp Lewis told the men that those who arrive at Camp Lewis in a diseased condition would be separated from the others, and kept in the general ward until completely cured. That the government never sent a man across the water for service who was in a diseased condition.

During the Mexican war of 1846-47, he said in the American army 100 out of every 1000 died of preventable diseases. In the Civil war, 60 out of every 100 died of preventable disease and in the Spanish-American war of 1898, the ratio was 25 out of every 1000. But in the present war, the medical department had reduced the deaths to five in every 1000 per year.

Captain Russell spoke plainly on what the soldier who was diseased had coming to him in army life. While in the general ward, the soldier is practically isolated from all healthy soldiers and all the time is under guard. He has no privileges and when so affected, loses his pay and while he is not exactly an outcast, he is next thing to it.

When the 91st Division was ordered across the water, not a single diseased man was permitted to go with it. Such men of the 91st were segregated and left in the general ward at Camp Lewis.

Governor Withycombe in a short introductory address said that he was glad Oregon was 100 per cent American, but that it pained him very much to note that a certain class of laborers were trying to establish a 44 hour week of labor. "I believe in labor, but this is no time for such action," he said.

Tenancy of state institutions and departments may be paid, that increased cost of necessary labor and supplies during the ensuing biennium may be anticipated, that unavoidable obligations in war emergencies may be met and that the credit of the state may be preserved.

"The amount specified is estimated as mill on the dollar of the total assessed valuation of the state for the current year."

YANKEE TRANSPORT REACHES OVERSEA DOCK

American troops have crowded hundreds of ships this spring and summer, pouring through British and French ports on their way to Chateau Thierry and the Aisne-Marne front. So continuously do the columns of Americans march through British channel ports to embark for France that the English residents call it "the endless line".

Fourth Liberty Loan Bonds will provide more and bigger ships for more, but not better, soldiers to help the Hun in his retreat to Berlin.

STRAW GAS HERE; NOVEL MOTOR FUEL USED TO SAVE GASOLINE

Canada's Grain
"Use a straw stack to run your automobile and save gasoline," say some progressive Saskatchewan farmers—who are doing it. Here is balm for the gasless Sunday. "How's your straw?"
The first straw gas car astonished folks in Saskatoon, bowling along with a miniature Zeppelin overhead for the gas. At the university there, in that progressive province, from efforts to utilize straw, which now is burned in giant pyres, it was found that straw, when heated in a retort, gives off more and better gas, ten for ten, than coal. The tractor on the university farm is driven with it. Motor cars with overhead gas, are run fifteen miles on one charge.
The apparatus has been sufficiently simplified so that it can be installed on the farm, and gives great promise of becoming a practical and widely-used piece of farm equipment.

BOARD MAILED NOTICES TO SERVICE MEN TODAY

The local exemption board today mailed notices to the following limited service men who will be ordered to report for duty Monday, September 30:
Earl F. Glendon, of the state hospital, Salem.
Howard W. Williams, Seattle.
Rosario Parise, Gervais.
John P. Williams, Seattle.
Jesse L. Sehnal, Salem.
Leo-George C. Spitzbart, Salem.
Floyd W. Fleetwood, Salem.
Lester Halwin, Hoskins, Or.
Fred Hensch, Macleay.
Arley R. Libby, Jefferson.
Ralph P. Schindler, Salem.
Gordon Hobueket, Chemawa.

WANT WINE IMPORTED.

Washington, Sept. 18.—French Ambassador Jusserand today appealed to Senator Hitchcock, chairman of the senate foreign relations committee, to have congress allow importation of French wines, until May 1, 1919. Italy Spain and Portugal have made similar plans on the ground that the pending bone dry legislation by stopping wine importation immediately would ruin the wine producers of these countries by cutting off their American market.

George F. Stiff, Centralia, Wash.
Bert Butcher, Portland.
Walter L. Dorman, Salem.
Harry L. Woodward, Salem.
