OLD FASHIONED REMEDIES

Grandmother's remedies compounded from the medicinal roots and herbs of the fields are now found upon the shelves of the modern drug stores in attractive packages and are among the best sellers in prepared medicines. Prominent among them is that famous old root and herb remedy, Lydia E. Pinkham's Vegetable Compound, which for three generations has been relieving the women of America from the worst forms of female ills and is now considered the standard remedy in its line.

SUBMARINE WAS SUNK

London, Sept. 19.—Survivors say the German submarine which torpedoed the British steamer Galway Castle was blown up and that all aboard perished.

AMERICAN SOLDIERS OF THIN PEOPLE NEED BITRO-PHOSPHATE

guns. Additional prisoners are constantly being brought in. The Germans in this region apparently were well fed. Quantities of candy, cheese and other delicacies have been found in enemy dugouts.

The Germans are now dropping propaganda over the American lines from toy balloons, appealing to the soldiers of German ancestry to join them and asserting they will find greater liberty and opportunities in the "fatherland". One propaganda sheet asserts that President Wilson is more English than American and pictures Germany as defending herself against the world. The effect is laughable, as the German-Americans are the most bitter toward the enemy of any men in our army.

15 Miles Inside Old Line.

An even week since the start of the American drive in this region finds our army thoroughly at home fifteen miles within the line which the Germans held for four years. The new line has been thoroughly consolidated, roads repaired and the country generally cleaned up.

Refugees are returning to villages between the Meuse and the Moselle which had been under shell fire since 1914.

A captured German wrote a note which, he asked to be sent to the German lines, declaring the stories told there regarding Americans slaughtering prisoners are untrue. He said many of his comrades are tired of fighting and would surrender but for fear of being killed. It is evident from this that the German command is conducting propaganda among its own troops in an effort to instill the fear of capture, thus hoping to bolster up their weakening morale.

Artillery duels and counter raiding continues in the Vosges sectors. One American patrol penetrated the German lines there to a great distance and brought back a number of prisoners.

8,000,000,000

which it is claimed greater speed in movement of freight was accomplished, is the utilization of inland waterways. This co-ordination between the rail and water lines has permitted the release of thousands of freight cars for general use from one to ten days sooner than if the shipments had been continued by rail.

Washington, Sept. 19.—Secretary of the Treasury McAdoo today put the quietus on fears that the nation must bear a greater tax than \$8,000,000,000 for the fiscal year to carry on the war. In an official announcement issued as congressional leaders were floundering in confusion as to how best to meet the added \$7,000,000,000 demanded this week by the war department, McAdoo declared "it would be unwise to go further in taxation at the present time."

"Conditions which might develop in the future," he added, "will determine the question of further increases in taxation. For the present fiscal year it is our plan to ask for \$8,000,000,000 in taxes."

McAdoo probably will announce the amount of the fourth liberty loan this week. Final determination of the amount may be made before congress disposes of the pending bill to extend tax exemptions on liberty bonds. After a conference today with his treasury advisers, Secretary McAdoo said he would ask congressional leaders for advance assurances concerning the tax exemption feature.

The amount still is expected to be in the neighborhood of \$8,000,000,000. The interest rate will be four and a quarter per cent. Small amounts of bonds of the fourth liberty loan will be in the hands of the district committees on the opening day of the loan. The bureau of engraving and printing is ready to begin turning out finished bonds within an hour after a decision on the terms is reached.

McAdoo's statement today reaffirms the position he took before the house ways and means committee, when he said, that, as the program was outlined, three loans would be necessary to raise funds sufficient to meet the outlay.

Treasury officials, however, today were speculating on the probability of

THIN PEOPLE NEED BITRO-PHOSPHATE

How it Increases Weight, Strength and Nerve Force in Two Weeks' Time in Many Instances

"Take plain bitro-phosphate" is the advice of physicians to thin, delicate, nervous people who lack vim, energy and nerve force, and there seems to be ample proof of the efficacy of this preparation to warrant the recommendation. Moreover, if we judge from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are usually due to starved nerves. Our bodies need

Miss Josephine Davis, reporting her own experience with BITRO-PHOSPHATE, says: "It is remarkable what it did for me. After a few days I began to regain my strength, felt full of life, was able to sleep soundly and all my little troubles seemed to disappear. I gained twelve pounds in four weeks."

more phosphorus than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing.

This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright and pale cheeks glow with the bloom of perfect health.

CAUTION—Although Bitro-Phosphate is unsurpassed for relieving nervousness, sleeplessness, and general weakness, owing to its remarkable flesh growing properties it should not be used by any one who does not desire to put on flesh.

there being four loans this fiscal year.

It was hinted today that the size of the coming loan might approach \$7,000,000,000. This, however, was not officially discussed by high treasury officials. But, unless the German government is crushed before the predicted time, the nation must certainly prepare itself to take care of four loans in fourteen months, it was stated semi-officially.

TO LEAD DEMOCRATS

New Haven, Conn., Sept. 19.—Homer S. Cummings today sent word from his summer home at New Canaan that he will accept the position of manager of national democratic headquarters in Washington, leaving here about September 24 for the capital.
