Getting Ready To Sweep Kaiser Bill Off the Map

They're raising broom corn at Camp Dix. The boys there are getting ready to sweep their way right on to Berlin. Not satisfied with helping to feed themselves with the potatoes, beans, beets and other vegetables they are growing in the big four hundred acre war garden, the National War Garden Commission planted, they have planted also an acre of broom corn. By next year they hope to raise enough to supply brooms for the entire cantonment city of 48,000 men. Help the soldiers to clean up. Do this by cleaning up the garden crop and not letting any of it go to waste. Write to the National War Garden Commission, Washington, for a free canning book and ask if your county fair is awarding the National Capital Prize Certificate awarded by the Commission for canning.

DONALD DOINGS

(Capital Journal Special Service.)
Donald, Or., Sept. 20.—The Liberty Bond committee met in the Donald bank on Wednesday evening and organized their forces, to begin the drive Friday morning. The following are the committee: Henry Zora, chairman; Harry B. Schultz, Geo. Case, James Ryan, J. C. Bartman, H. J. Hunt, Fred Yergen, J. C. Moore, S. A. Saxsmith, John Murray of Butteville.
Mr. Ryan of Butteville was in Donald on Wednesday. Mr. Ryan is one of the old settlers in these parts, having come over with the Hudson Bay company, many years ago. The first job of work he did here was done on the donation claim of the Cone family where Donald now stands. It is very interesting to hear Mr. Ryan tell of his experiences and the wonderful changes having taken place in this community during these years.
The hum of the wood saw is heard in Donald these days. Mr. A. Cone is doing his part, helping the folks get their winter wood in shape before the rain sets in.
Mr. and Mrs. Hegedon of Portland are guests of the C. J. Espey home during the week.
The Donald school began Monday, September 16th. Mrs. Koatz of Salem and Mrs. Earl Cone in charge. Rather a light enrollment in the different grades the first week because of hop and berry picking. A number of pupils from Fargo and Donald have entered the high school and because of the lack of the same in Donald are compelled to go to Woodburn on the 7:27 train. Wouldn't it be well for the people of the community to wake up and get a high school started in the community?
Mrs. Geo. W. Lewis of Salem was looking after the hop business around Donald on Monday.
Mrs. F. A. Feller, daughter Bernice and son Del, went to Mount Angel last Saturday for the children to begin school on Monday. They will be missed in the community during the winter, but Mrs. Feller is keeping "batch" they will probably come home often during the year. The other son Harlan, comes under the draft age and will go into service.
The Mike DeSart family, who went to Dundee to remain during the winter season had to return to their home on Wednesday because of the illness of their daughter Echo.
Strande Meece and "Mug" Rice left for Portland on Tuesday. Strande will enter the Benson Polytechnic school to prepare for service in the U. S. army. Mr. Rice failed to pass examination some time ago, because of heart trouble but is ready to go if he can pass at any time.
Ralph Raeder of Butteville, was a Donald visitor on Wednesday.
Clarence May was a Portland visitor Sunday.
Mrs. Dires and Mrs. Trout of Portland stopped over in Donald enroute to St. Paul, for the Jim Smith hop yards.

HOW THIS NERVOUS WOMAN GOT WELL
Told by Herself. Her Sincerity Should Convince Others.

Christopher, Ill.—"For four years I suffered from irregularities, weakness, nervousness, and was in a run down condition. Two of our best doctors failed to do me any good. I heard so much about what Lydia E. Pinkham's Vegetable Compound had done for others, I tried it and was cured. I am no longer nervous, and in excellent health. I believe the Compound will cure any female trouble."—Mrs. ALICE HELLER, Christopher, Ill.

Nervousness is often a symptom of weakness or some functional derangement, which may be overcome by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, as thousands of women have found by experience.
If complications exist, write Lydia E. Pinkham Medicine Co., Lynn, Mass., for suggestions in regard to your ailment. The result of its long experience is at your service.

You Can Stop These Casualties Quickly

The Brutal, Bloody Hun will be stopped when an overwhelming American army lands in France and crushes him—not before.
The Fourth Liberty Loan is the next step in getting that army across the Atlantic.

Editor: This is suggested as a standing feature for display in or alongside casualty lists.)
Pity the fearful soul of the German soldier and civilian as their lines continue to crumple up before the allies with only a few of the million and a half Americans over there in line. And two million more on the way. News of the over-subscription of the Fourth Liberty Loan will shake German morale again.

THE TRUTH ABOUT CANDY Shall the Candy Factories Survive?

The candy industry normally is using 8 per cent or less of all the sugar used in the United States—at present about 4 per cent. That is small—very small, considering the importance of the industry.

Candy making is the thirty eighth largest industry in the United States. Over \$110,000,000 are invested. Over a hundred thousand people—mostly women—make their living from it.

That candy is a food has been firmly established by scientists and chemists, and physicians and proven out by men in the trenches and in the camps—in all forms of heavy work where bodily fuel is needed.

The candy manufacturers have willingly given up half of their sugar, and will go to any lengths to help win the war.

On the other hand, the voice of reason tells us that it is not a part of the government's program to suspend any industry, unless it is absolutely necessary—especially when it is recognized that that industry is making an established food product.

If people do not take their allotment of sugar in candy form, they take it in other forms—in coffee or tea, on fruit, etc.

It is largely a matter of taste, but we all know that the human system needs some sugar.

So conserve on sugar, but recognize candy as one way to enjoy that portion of sugar which the food administration allots us in America.

Please recognize that out of 84 pounds of sugar used annually per capita in this country, less than 7 pounds goes into candy making, normally. Today the candy industry allotment has been cut to half of that 7 pounds, or 4 per cent of the total amount of sugar used in the United States.

Yet candy is plainly and fully established as a food product. We claim the industry and the product has a right to live.

If everyone in his home will save a little sugar there, the candy industry can survive, because there will be enough sugar for the food administration to spare the candy makers.

Save some sugar in the home and use some of your sugar allowance in the form of wholesome, nourishing candy.

—In normal times the candy industry uses only 1 per cent of the sugar used per capita in this country. Right now this amount has been cut square ly in two.

The Candy Manufacturers of Oregon

ald returned from eastern Oregon last week and has taken a room in the Has ken & DeSart building for a while.
J. B. Kennedy of Portland and S. F. Southard of Amaro, Or., were looking over real estate in Donald community on Wednesday.
A. E. Bates of Portland connected with the S. P. company was transacting business in Donald on Tuesday.
Mrs. Chadima of Portland arrived in Donald Wednesday to visit her daughter Mrs. F. Saxsmith.

Mrs. Gertie Feller and son Frances returned from Albany on Wednesday where she has been visiting a sister for several weeks.
Mrs. Roy Garrett returned from Hartford, Washington, where she was attending a sick sister for several weeks. She reports her sister no better.
Joe Bixell has been on the sick list for several days.
Henry Morly who has been with the National Biscuit company is back at his old place behind the counter at Mayes' store.
