Several Stayton Citizens  
Have Hoarded Flour

(Capital Journal Special Service)  
Stayton, Sept. 21.—Sergeants Wright and Stubling, of the Oregon state police, visited Stayton Wednesday and investigated several of its citizens. It is stated that twenty-five sacks of surplus flour were discovered in the homes of five or six of our most respected citizens and that three or four parties were called on regarding unapportioned utterances. It appears that two or three of those suspected of hoarding flour will be able to "prove an alibi" but what will happen to the others remains with the grand jury. It seems incredible that people with a full knowledge of consequences will place themselves in a position where the results of their wrong doing will be expensive, to say the least.

Yesterday afternoon fresh attacks against our positions north of Messines were repulsed. In the evening the enemy heavily bombarded in the neighborhood of Gueuche wood. Under cover of this bombardment, they succeeded in pressing back slightly one of our advanced posts.

"North of the wood throughout the night German infantry made repeated determined attempts with "flammon-worfers" and bombs to drive in our positions in this locality. All attacks were repulsed after hard fighting.

"During the night our line was advanced slightly northwest of Bellinglisse. This morning fighting recommenced east of Ephepy.

On the occasion of the hostile attack on Moeuvres Thursday a corporal and six men of the Highland light infantry, forming the garrison of one of our posts just north of the village, were surrounded and believed to have been captured. ## GERMANS GET NERVOUS ABOUT YANKEE PLANS

## Uncertainty As To Intentions Keeps Them "Strung Up Adn Peppery"

By Frank J. Taylor,  
(United Press Staff Correspondent.)

With the Americans on the Metz front, Sept. 21.—The Germans on the Metz front are jumpy because of their anxiety regarding American plans for the immediate future.

This state of mind was responsible for two heavy raids on our positions northwest of Thiaucourt yesterday. The boches attempted to gain the same position in both attacks but were driven back each time with heavy losses. Some of the Germans went through our artillery barrage, but these were cut down by rifle fire or were bayoneted. There has been no other infantry fighting here for the past several hours. Even the artillery activity has lessened as the opposing armies take cover in their newly constructed trenches and dug outs.

American patrols continue to inspect the Hindenburg line every night. These patrols also prevent the Germans from exploring the areas in front of their wires.

During the advance the report suddenly reached the German officers that the Americans were entering the town. All but a major fled. He ran upstairs to pick his things. When he came down American bayonets caught him at the door. Following closely upon the heels of the doughboys came Merleier's wife and daughters. It was a glad reunion, after four years of anxious separation. Merleier's family now cannot do enough for the Americans.

Market Tone Is Good  
And Prices Stronger

New York, Sept. 21.—The New York Evening Sun financial review today says:

While trading in today's short session of the stock market was not very broad there was a good tone and in some cases particularly the steels and equipments, moments of animated buying.

United States Steel assumed its rightful place as leader at the outset, and quickly crossed 111, the highest price since the stock exchange ruled that its members should make daily loan statements. The alcohol and motor groups made broad gains and Central Leather, Marine Preferred, American Sumatra Tobacco and Mexican Petroleum, among others were strong spots. Rails were neglected but firm. Canadian Pacific advanced more than a point.

There will be but one dancing floor at the state fair this year and it will be under the management of W. L. Bryant. He says that the floor is now 80 by 80 feet and has been put in first class shape. Also that everything will be high class and that the dancing will begin Monday afternoon. The tent will be in front of the new stadium.

Germany Has Accepted  
Austria's Proposal  
As Made In Germany

Amsterdam, Sept. 21.—Germany has accepted Austria's proposal for a non-binding discussion of peace. The Berlin government sent Vienna a note in which it declared:

"Austria-Hungary's summons to the belligerents to enter into a confidential discussion in a neutral country of the fundamental principles for the conclusion of peace corresponds with the spirit of peace, readiness and conciliatoriness which the responsible statesmen of the quadruple alliance have again and again announced.

"The reception which previous similar steps met with from our enemies was not encouraging. Germany is ready to participate in the proposed exchange of ideas."

BRITISH CASUALTIES
