Woman With Children Destitute In City

With but \$3 in her purse, Mrs. P. E. Powell and four children arrived in the city last evening on the Southern Pacific. Shortly after her arrival Mrs. Powell lost her purse. She then reported her loss to the police and asked assistance for herself and four children. She said her husband was working in this part of the country and that she was trying to find him. The police secured her accommodations at the Leonard house and this morning reported the situation to the county court. This afternoon Jack Frost who owns a grocery and confectionary store on 12th street called the police and reported that he had found a purse containing \$3 and the description as-

PRUNE PACKERS FACE SERIOUS SITUATION

Ordered To Hold Stocks And Now They Are Blocked To Limit.

Prune growers as well as prune packers are strictly up against it at present, all due unseasonable rains in the prune districts of California. An estimate of the prune crop had been based on the yield from California. But the late rains have done untold damage to that crop and until this could be estimated by the food administration, orders were telegraphed to all prune packers in Oregon to hold until given permission to sell.

Hence as the matter stands, the packer is not permitted to sell or even make contracts. The packing houses are piled to the limit and no more can be accepted. All prune dryers in the valley are being worked overtime to accommodate the growers. This is especially true where the grower has but little storage space. Where he has none, he is in a critical condition.

Almost all the packing plants are blocked with the stocks now on hand. No shipping orders have as yet been received from the government and the former order to hold stocks is still in force.

Storage room under the present conditions is the big problem of the packer as well as the prune grower. The federal food administration has advised growers to store prunes until it can ascertain the damage done to the California crop and thereby estimate the amount of the Oregon and Washington crop necessary for the government's needs.

Another side of the situation is the financial. As packing plants are not permitted to sell or contract, no money is being received from the jobbers in the east, while at the same time there is the insistent demand for money on the part of the grower. With by far the largest crops in years, millions of dollars would be required in the northwest to handle the crop with not a dollar coming in on contracts or future sales. The Draper plant in Salem has 20 carloads ready for shipment but it is obliged to hold awaiting orders from the federal food administration.

The move started for a Spug Christmas is scarcely necessary, in the opinion of the Pendleton East Oregonian, which opines that "old H. C. E. has already made the thing a certainty."

wered that reported lost by the woman. This afternoon her case was before the county court, but no disposition had been made of the family.

COMMISSION WILL MODIFY ITS SCHEME

Consolidation Plan As Announced Was Not Cordially Received.

In the face of opposition the state consolidation commission is beginning to renege on several of its recommendations for creating a new form of state government in Oregon.

A meeting of the commission was held last night and today. The commission decided to abandon its idea of putting three institutions of higher education under one board of regents, a regular temper was in the air over that recommendation.

It was decided today to leave the board of regents as now existing, but to provide for the appointment of a manager by the state board of education to manage the business for all three schools, while supplies for the schools, if the recommendations should be adopted, will be purchased by the state purchasing agent, which is an office to be created.

A board of education of five members will be appointed by the governor. Because of the opposition of State Treasurer Kay the commission decided to not take form his office the authority to name state depository banks. The commission had recommended that this authority be given to the state finance commission.

It was also decided to leave the state banking department intact. Another change made today was a modification of the commission's recommendations relative to the use of the state military police for forest fire wardens. The change is to make this optional rather than compulsory.

Thought His Time Had Come—Disappointed

"I never was more surprised in my life than when I took the first dose of Mayr's Wonderful Remedy. My stomach trouble had been of eight years' standing, sometimes so bad as to cause convulsions, followed by hemorrhage. I thought my time in this world was short, and believed if the last medicine I would ever take. It is now eight weeks since, and I am feeling better than for many years. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes, practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. J. C. Perry, Capital Drug Store, and druggists everywhere.

THREE MARRIAGE LICENSES

The elderly man had his innings yesterday at the counter of the county clerk's office where the marriage certificates are issued. The first to apply for a license to marry was Robert Turner of Airie, aged 60 years and 11 months, and Mrs. Katie Powell of Salem, age 42. It was his first marriage and her second.

The next to apply was Knute O. Lee, a farmer of Canby and Annie Anderson. He is 50 years of age and she 46, and it was the first marriage for each. The third license issued yesterday was to Frank Hotterschieff, age 40 of Mt. Angel and Johanna F. Schmidt, age 37, also of Mt. Angel. It was the first marriage for him and the second for her.

Sunshining in the afternoon at this season of the year is worth a little fog in the morning.

The two things that are paramount in Hood River just now, the News asserts, are the Liberty loan and harvesting the apple crop. "And the loan, of course, comes first."
