Guarantee Fresh Eggs At State Meeting

Every member of the Oregon Poultry Producers' association will levy a voluntary assessment against himself of a cent for every hen he owns to establish a fund which will provide for the labeling and guaranteeing of all eggs as being freshly laid. This decision was reached at a meeting of the association here in connection with a move taken to affiliate with the war emergency poultry federation. Two hundred dollars of the sum raised will go to the federation and the balance to the cause of putting nothing but absolutely fresh eggs into the hands of the producers.

W. H. Hart, new poultry expert at the state hospital, was elected president of the association to succeed C. M. Wilcox, formerly poultry expert.

The association has selected a committee to wait upon W. B. Ayer, food administrator, and urge that no "doling" such as one contemplated in Washington, diverting by products of wheat to the dairymen's use, be issued in Oregon.

The poultrymen declare that even under the present conditions it is a problem of grave moment for them to secure proper food for the flocks.

Thousands of hens will be sent to market, they declared, and the poultry business will receive a body blow.

One of the poultrymen also has reported that on the Portland market all poultry must be sold at a stated price, regardless of quality. Poultrymen de-

clare that such a ruling, if in effect at the Portland public market, will kill the incentive to raise high class fowls and be most harmful to the industry.
