By CAROL S. DIBBLE

Mrs. U. G. Holt was a delightful dinner hostess last night when she entertained informally in honor of the seventieth birthday of her mother, Mrs. A. B. Huddelson. ## Who Believes In War? The Kaiser

AND HIS ILK

No good American believes in war. Certainly the Nation does not. Our total unpreparedness, when war broke out, proves that.

But, shall we passively submit to the warlord's bayonet thrusts? NO!

She will be met at the Islands by her fiancé, Edwin Williams, her marriage to whom will take place immediately following her arrival. Mr. Williams also holds a position of an educational nature, corresponding to a state superintendent of instruction in this country.

Miss Kuntz is now teaching in the Latin department of the high school at Vancouver, Washington. She will return to Salem in about three weeks, thus enabling her to spend a week with her parents before leaving for the Philippines.

Mrs. Florence A. Bynon received a cable last night from her husband in France announcing his promotion to first lieutenant. He will soon be wearing his second service stripes.

### AMERICAN CHASERS

tion will materially clear a way for freer passage of men, munitions and supplies in the Macedonian region. He pointed out that the Austrians have three important bases on the western shore of the Adriatic—Pola, Cattaro and Durazzo. Pola is the most important, and shelters larger and more numerous vessels than the other two.

Cattaro has been one of the well protected points where Austrian vessels could put in during their raiding operations. Durazzo has harbored quite a number of Austrian craft at various times and has served a certain purpose in transportation of men and munitions.

The naval authorities quoted said the moral effect of this victory will be enormous. The Austrian vessels will be forced further northward, basing on Pola and Cattaro.

Because of this, and with Albania free of Austrian troops, the passage of supplies and men to the near east

### WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes any one look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts which should see only nourishment to sustain the body.

A splendid health measure is to drink, before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store but is sufficient to make anyone an enthusiast on inside bathing.

will be virtually unhampered.

American submarine chasers apparently were the only United States vessels that participated. The official declared that the Durazzo blow was significant of the close attuning of army and navy operations.

It was held comparable to the smothering of the important U-boat nests Ostend and Zeebrugge, on the Belgian coast.

### May Abandon Coast

Amsterdam, Oct. 4.—Germany it is believed, is seriously considering abandonment of the Belgian coast and retirement to a straight line between Antwerp and Metz, thus giving up half Belgium. Comment in German newspapers strengthens this belief.

Paris, Oct. 4.—British cavalry, pouring through the breach in the German defenses northeast of St. Quentin, is said to have entered Fresnoy-Le-Grand.

Airplanes, flying almost at will above the advancing British, are reported to have wireless headquarters that their own horsemen were seen in Fresnoy-Le-Grand, which is about five miles northeast of St. Quentin and four miles beyond the German wire stronghold in this region. It is known as the Beaurevoir line and stretches from that village to Fossoy.

The country where the cavalry is reported operating is ideal for maneuvering, as the Beaurevoir line is the last real trench system and the enemy will not be able to build another, except far in the rear of the present shattered line.

## Catarrh is a Real Enemy and Requires Vigorous Treatment

Do Not Neglect It.

When you use medicated sprays, atomizers and douches for your Catarrh, you may succeed in unstopping the choked-up air passages for the time being, but this annoying condition returns, and you have to do the same thing over and over again. Catarrh has never yet been cured by these local applications. Have you ever experienced any real benefit from such treatment?

Throw these makeshift remedies to the winds, and get on the right treatment. Go to your drug store to-day, get a bottle of S. S. S., and commence a treatment that has been praised by sufferers for nearly half a century. S. S. S. gets right at the source of Catarrh, and forces from the blood the germs which cause the disease. You can obtain special medical advice regarding your own case without charge by writing to Medical Director, 22 Swift Laboratory, Atlanta, Ga.
