

"For six years we have used Dr. Caldwell's Syrup Pepsin in our family and feel we could not possibly do without it, especially for the children." (From a letter to Dr. Caldwell written by Mrs. Earl Cowell, Cement City, Mich.)

Children become constipated as readily as do their elders, and the result is equally distressing. Dr. Caldwell's Syrup Pepsin is ideal for children because of its pleasant taste, positive, yet gentle, action, and its freedom from opiates and narcotic drugs.

### Government Agent Left Salem Without Slicker Or Oil Coats

There are no slickers or oil coats, for men for sale in the city of Salem. There were yesterday, but here isn't today. Slickers for men are wanted by the government for soldiers and spruce workers and a government official appeared in the city this morning and requisitioned every man's slicker and rain coat in the city.

And not only does the government take every one from the retail stores but the wholesale jobbers are also asked to turn over to the government every article of the kind in stock. The retailer will be paid by the government his cost price and the same applies to the wholesaler.

The regional purchasing agent made the visit to the stores today and broke the news. Hence the man who happens to have an old slicker that is good for another year's service, may consider himself fortunate especially in the Willamette valley.

The war department and men are given a chance to volunteer for this attractive branch of the service. The coast defense of the Columbia are called upon to send heavy artillerymen with the utmost speed.

No branch offers more of a variety of opportunities for advancement or more fascinating work. Men showing the proper aptitude are made non-commissioned officers with duties pertaining to some part of this interesting service. There are gun commanders, observers, master gunners, engineers, electricians, radio sergeants, and various other duties open to the man who is alert and eager. Almost any man who has the stuff in him, even though his previous training may have been along an entirely different line, may take advantage of the special instruction provided, within the company itself or in some training center.

A man may be inducted by sending a letter to the Commanding Officer, Coast Defenses of the Columbia, Ft. Stevens, Ore., giving name; order and registration number; class (number and letter); present address; number and address of local board; and whether qualified for general or limited service.

Officers training camps are open for men of this service. Every effort is made to give men after they are inducted, all the necessary preliminary training before going to the camp.

### Does Your Life Work Mean Anything to You?

You farmers who have worked hard—and no one works harder—to get together your property, what does it mean to you?

Your property—your farm and buildings, your crops, your stock, your farm implements and, too, your home—all of these represent years and years of work that you have done.

Everything that you enjoy as the result of your work comes to you and stays with you because the heroic soldiers and sailors of Uncle Sam are standing between you and the bloodthirsty, murderous Hun.

To keep the Hun away from you, Uncle Sam does not ask you to GIVE even a single penny. He simply asks you to LEND him your money at good interest and he guarantees on his word of honor—a word that has never been broken—to pay back every penny you lend.
