

Reward

Do you know this man?

Height: 6 ft. 1 inch
Weight: 145 lbs.
Face: Thin
Features: Prominent

Description: When last seen was on his way to hospital. Used to weigh 185, had florid complexion, good appetite and enthusiasm for work. Six months ago began to have irregular bowel movements. Took pills. Lost weight—still irregular. Took salts—violent results. Had medical examination: doctor diagnosed case as self-poisoning, due to clogged, decaying, food-waste in large intestine; said pills and purges had weakened the intestinal muscles so they would not function. Man protested violently that he was not sick. Doctor replied that he had been sick since first bowel irregularity. Prescribed complete rest and the Nujol Treatment. Said if he had cultivated regular habits with Nujol he would have had no trouble—now, however, he was an easy mark for the poisoning he was allowing in his own body.

REWARD: For restoration of this man to regularity, Nature offers reward of health, and return to normal weight and keenness.

If you are the man, apply at the nearest drug store for one bottle of

Warning: NUJOL is sold only in sealed bottles bearing the Nujol Trade Mark. Insist on NUJOL. You may suffer from substitutes.

SOCIETY

By CAROL S. DIBBLE.

Dr. Emma E. Martin, who has recently returned on her third furlough to the United States as a missionary to Tien Sin, China, gave a talk of very timely significance yesterday at the regular monthly meeting of the Foreign Missionary Society of the Methodist church, which was held at the home of Mrs. B. E. Carrier on Court street. Dr. Martin told of her work among the hospitals and dispensaries, and described very vividly the condition of the people at the time of the bad floods in China last year, the refugees, who sought shelter in the hospitals, and the aid the medical authorities were able to give them. She also dwelt upon the part the Chinese women are playing in the war, which in the essential spirit is much the same as that which our own women are showing. Much knitting is being done for the Red Cross and in one instance a Chinese woman knit twenty pairs of socks in a week. And many of the mothers it seems have given up their sons to fight for the allied cause, with as fine a courage as is being evidenced by mothers the world over nowadays.

Dr. Martin was originally sent into the missionary field by the northwest branch, her home being situated in Indiana. She has been at her post in China for the past eighteen years, and is now en route east, having stopped in Salem for a few weeks to visit her brother at his home, 355 Center street.

Another interesting guest, about to enter foreign fields, was Miss Ruth Fields. Miss Fields is planning to teach music in an English school at Calcutta, India, and will sail from Seattle October 18th. Miss Fields is a well known Salem girl, the daughter of Mrs. E. E. Fields of the Garden road. She is being sent to India by the Columbia River Missionary branch. She expects to leave Monday for Seattle and Sunday evening a service in her honor will be held at the First Methodist church, of which she is a member.

The annual report of the society was given yesterday by Mrs. U. G. Holt, wherein it developed that a sum of \$836 had been turned over to the Columbia River branch in addition to the war work done by the members during the year. About fifty members were in attendance at the meeting yesterday.

The many Salem friends of Mrs. W. Carlton Smith are rejoicing in the opportunity of a short visit with her, as she came down from Tacoma Tuesday on a brief business trip, and expects to be in Salem until tomorrow. During the absence of Dr. Smith, who is now in France, Mrs. Smith has taken a position at Tacoma in the land department of the Northern Pacific. Though devoted to her work, which is of a very interesting nature, Mrs. Smith misses Salem and her large circle of acquaintances here, and hopes to return to Salem to live within the near future. Mrs. Olson who has been visiting in Tacoma, accompanied Mrs. Smith home.

Mr. and Mrs. George G. Brown went to Bend, Oregon, yesterday, where Mr. Brown will attend the Grand Commandery, Knights Templars, which is now in session. Also in the party were Judge and Mrs. George J. Barnett, M. L. Meyers and Dr. O. A. Olson.

Musical circles are regretting the departure of Mr. and Mrs. Monroe Yenneke for Hillsboro, Oregon, where they expect to make their home. Mr. and Mrs. Yenneke have been summering in Salem, having lately come to the coast from Kokomo, Indiana. Mr. Yenneke is a singer of note and has appeared in public several times during his stay in Salem.

Mrs. W. G. Prank left yesterday for Newport, where she will enjoy a sojourn of several months.

Mrs. Ralph Matthews, who has been visiting her parents, Mr. and Mrs. A. L. Brown, at their residence, 350 South Commercial street, left yesterday for her home in Wood River, Illinois. She was accompanied as far as Bend, Oregon, by Mr. and Mrs. George G. Brown. Mr. Matthews holds the position of chemist for the Roxana Petroleum company at Wood River. She has been visiting in Salem for several months and has been the inspiration for numerous little social attentions from her host of Salem friends.

The W. R. C. Aid met in the armory for an all day sewing today. The members are sewing for both the Red Cross and the Aid society, and by means of frequent all day meetings are enabled to accomplish a goodly amount of work. The members of the G. A. R. were invited to join the ladies at the dinner hour today.

Mr. and Mrs. O. E. Franke went to Portland last night for a brief stay. On their return the last of the week they will go to Newport, where they intend to make their permanent residence. Mr. Franke will engage in the mercantile business at Newport.

Mr. and Mrs. W. E. Thomas of 639 Center street left today for Marshfield, Oregon, to visit their son, L. L. Thomas.

AMERICANS SMASH

(Continued from page one)

In action. The Franco-American air forces simultaneously attacked the cantonment area near Danville and Waville (east of the Meuse), where the Germans were massing for counter attacks, shooting down twelve boches, with only one casualty.

Dun-Sur-Meuse, Barcheville, Aincreville and other towns are burning. Continuous Yankee artillery fire cracked the Kriemhilde line near Romagne. The infantry, storming the Romagne hills, found wrecked German artillery in the demolished positions. The remaining defenders, unable to retreat through the American artillery and machine gun barrage, crawled forward toward our positions and waited

Gives Wife Adler-i-ka!

"My wife was pronounced incurable by physicians unless operated (complicated bowel trouble.) I began giving her Adler-i-ka and she is improving and I mean to continue until she is cured." (Signed) J. H. Underwood, Marion, Ala.

Adler-i-ka expels ALL gas and sourness, stopping stomach distress INSTANTLY. Empties BOTH upper and lower bowel, flushing ENTIRE alimentary canal. Removes ALL foul matter which poisons system. Often CURES constipation. Prevents appendicitis. We have sold Adler-i-ka many years. It is a mixture of buckthorn, cascara, glycerine and nine other simple drugs. J. C. Perry, druggist.

GIRL'S DOUGHNUT

(Continued on page two)

We realized she was safe and unengaged. Then our relief wanted to vent itself in laughter, and we giggled until we were afraid we would blow off our respirators. I had to dress with my gas mask on, and it was more like an obstacle race than anything I have yet attempted.

Before long the all-clear signal was given, and we knew the gas was gone though the guns still sounded as around us. It was perfectly light, and we hurried to the kitchen to make a fire and get hot chocolate and food for any wounded who might come, through.

In a short time some boys did arrive, slightly wounded and well enough to stop a few moments for hot drinks and sandwiches. They were glad we had something to give them, for the poor boys showed the strain they had been under, and they were immensely appreciative of something hot to eat and drink.

YOU CAN'T FIND ANY DANDRUFF, AND HAIR STOPS COMING OUT

Save Your Hair! Make It Thick Wavy, Glossy and Beautiful At Once.

Try as you will, after an application of Danderine, you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time.

The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a small bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment. A small trial bottle will double the beauty of your hair.

to surrender.

The enemy machine gunners, back of these defenses put up quite a resistance, especially in Camel wood, which the advancing doughboys mopped up before noon. A great mass of German infantry protected by machine gunners was encountered on either side of the wood and the American advance was temporarily halted.

The artillery during the attack worked so fast that gunners threw cold water over the barrels of the guns to cool them off.

The army is enthusiastic over the success of the attack, as it leaves no further organized trench and wire defenses to the Germans.

The Romagne heights, now held by us, also dominates the enemy positions for miles to the rear.

Big Dallas Packing Plant Resumes Operations

(Capital Journal Special Service)
Dallas, Oct. 10.—The big prune packing plant of the California Packing Corporation formerly the J. K. Armsby company, located in the south part of this city resumed operations this week after a shutdown of a few months and the packing of the big 1918 crop will soon begin. The building occupied by the plant has been enlarged by an addition of 40 feet, three stories high this summer and this extra space together with the Sohren warehouse adjoining, which has been leased by the company will be required to handle the big crop. A. C. Peterson, resident manager of the company states that the estimated yield of the Polk county orchards this year will be something like 5,000,000 pounds, and that his company will receive the biggest portion of the amount. Beside the crop of this county the company buys prunes in many different parts of the state and when the entire amount of the contracts have been received the local plant will have enough prunes to keep them busy for several months. In addition to the extra space provided for this year in handling the crop a number of pieces of new up to date machinery has been installed which will make the processing of the fruit much easier than in former years.

Methodist Minister Retains Charge
Rev. Chas. P. Johnson, pastor of the Dallas Methodist Episcopal church for the past two years has been returned to this city to serve another term. Rev. Johnson has just returned from the conference that was held in Portland recently and is more than pleased with the prospect of abiding with the Dallas people another year. Rev. George H. Bennett, a former pastor of the Dallas church, has been returned to Albany where he has had charge of a church for the past year.

Dallas City Council Meets
The regular monthly meeting of the Dallas city council was held in the city hall Monday evening and many matters of business were taken up and disposed of. The matter of electing a new city marshal to take the place of Ed Plaster, who resigned, occupied the attention of the city fathers for some time. That body finally decided to hold the office open for Oliver P. Chase, a former marshal who now resides in Portland but who expects to return the first of November and would take the position. John R. Allgood was elected to the council to serve the unexpired term of Peter Greenwood, who moved last week from Dallas to Seattle, where he will make his home.

Accidental Shooting Causes Death
Russell Brown, a six year old lad residing with his parents, Mr. and Mrs. Lester Brown, in the western part of Polk county, passed away at the Dallas hospital the first of the week following an accidental shooting by Willie Marquette, an eight year old school boy of that place. The children were returning home from school last Friday night when the accident occurred, the Marquette boy pointing the gun, a .22 caliber rifle, at the little fellow with the remark that he was going to shoot him and pulled the trigger. The ball from the rifle entered the boys stomach and passed through the liver. He was brought to the hospital in this city where everything possible was done to save his life but the shock was too great and the little life passed away. Funeral services were held from the family home Monday and the remains were laid to rest in the Peede cemetery.

M. L. Thompson, a Falls City business man was a Dallas visitor this week. H. Hirschberg, a prominent Independence capitalist, was a Polk county visitor Tuesday afternoon.

Graham Griswold, a member of the firm of the Griswold-Davis Lumber company of Falls City, was a Dallas business visitor Tuesday.

Miss Alice Cobb of Suver visited the first of the week with relatives in this city.

Our Boys Garner Hun Huds And Helmets

By Fred S. Ferguson.
(United Press Staff Correspondent.)
With The American Army in France Sept. 16.—(By Mail.)—The American army is gradually being populated with boche dogs.

At the same time the United States soon will be thickly populated with boche helmets.

The Fighting American is just as earnest in his souvenir hunting as the peaceful American. Practically every doughboy, therefore—whether from every country—made it a point to pick up a boche helmet somewhere during his advance from the Marne to the Vesle. The German soldiers cast aside their heavy helmets in their retreat and they were scattered broadcast over the Marne valley, on and across the Oureq to the Vesle. By posting the address on the hat together with 40 cents postage, the American fighting man can send his sweetheart or mother a souvenir direct

BUCKHECHT ARMY SHOE

When you walk into a dependable shoe store and ask for a pair of BUCKHECHT Army Shoes, you can be sure—

That this Army Shoe is up to standard—that it is made by workmen who have earned over 600,000 Army Shoes under expert supervision—and that it is backed by a record of more than fifty years of honest shoe manufacturing.

Look for our registered trade name BUCKHECHT stamped on the sole of every Shoe—for our mutual protection.

There's just one thing to remember—ask for the BUCKHECHT Army Shoe by name and be sure that you get it.

Then—you will appreciate why it is worn by thousands of

from the battlefield. And all of them have done it or are doing it.

About the dogs. The boche left them behind, just as he did the helmets. When the Americans entered Bouvardes, Serzy Clergues and various other towns, they found the boche dogs lurking about in the cellars and dugouts their late masters had been driven from. A dog can't help being boche. So the doughboys don't hold against him the fact he is one. The deserted dogs were fed. They quickly made friends with the Americans and were adopted by various companies. The dogs now are just as good democrats as they were autocrats. Each bears some sort of German name. A chaplain has a little black dachshund he calls "Minnie." The after part of her name is "Werfer."

Ends Stubborn Coughs in a Hurry

For real effectiveness, this old home-made remedy has no equal. Easily and cheaply prepared.

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. Anyone who has coughed all day and all night, will say that the immediate relief given is almost like magic. It takes but a moment to prepare, and really there is nothing better for coughs.

Into a pint bottle, put 2 1/2 ounces of Pinex; then add plain granulated sugar syrup to make a full pint. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. Either way, the full pint waves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly and tastes pleasant—children like it.

You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the phlegm thin out and then disappear altogether. A day's use will usually break up an ordinary throat or chest cold, and it is also splendid for bronchitis, croup, whooping cough, and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, known as the most reliable remedy for throat and chest ailments.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.
