### President Kerr Sends

#### Written Demand For Funds

The written statement from President W. J. Kerr of the Oregon Agricultural College, upon which will be based the request for the deficiency appropriation in the sum of \$37,435, was received by Secretary of State Olcott Friday afternoon and immediately transmitted to Attorney General Brown for his opinion as to the authority of the state emergency board relative to authorizing the deficiency.

As the millage tax law, which provides funds for the maintenance of the college, says the millage tax shall be considered as a continuing appropriation, it is now deemed almost certain that the attorney general will hold the emergency board has full authority to allow deficiency in the amount requested.

President Kerr gives the following itemized statement of the immediate financial needs of the college to meet the emergency arising from the large number of student soldiers entering the school.

Additional instructors, \$7,750; additional heating, lighting and janitorial work, \$5,335; furniture for the new library building which is converted into class and laboratory rooms, \$10,050; furniture for equipping rooms in the administration building for class work, \$1,100; additional machinery and apparatus for laboratories, \$5,900; repairs and modifications of buildings for war work, \$7,300; total, \$37,435.

Berlin, Via London, Oct. 14.—"Successful" battle in which the enemy suffered heavy losses during the past few days enabled the Germans to retire "smoothly" from their Chemin Des Dames and St. Mihiel positions as well as in the Champagne, the German war office announced today.

### IT ECHOES IN BERLIN

Every steel steamship turned out in our hundred and more shipyards has more than a million rivets, and the rat-tat-tat of the riveters' "guns" swells in chorus with the clicking of the machine guns in France to drown the dying German cheers over their submarine exploits.

The clinking dollars of the Fourth Liberty Loan will add a shriller voice to that chorus and further lower German morale.

It's easy to cheer for our boys in France. Make your dollars shout in the Fourth Liberty Loan. Germany will understand their voice without translation.

erican forces, General Pershing reported today.

"On both sides of the Meuse, our troops today (Sunday) broke at strong and repeated attempts of the enemy to dislodge them from their recently won positions," the communique said.

"American divisions continued to participate in the successful operations under command of the British south of LeCateau and of the French in the Champagne. At other points held by our troops, there is nothing of importance to report."

Paris, Oct. 14.—France is unanimously determined not to negotiate with Germany until the latter's power to do harm is completely ended, it was semi-officially announced today.

## HALIFAX'S DEVASTATED AREA, RE-PLANNED AND RE-BUILT, WILL BE FAR MORE BEAUTIFUL THAN EVER

In the Path of the Blast

Temporary Homes for Halifax Victims

About one-fifth of Halifax was made a mass of wreckage and shattered humanity in a few seconds; now, nine months after the exploding munition cargo of the French ship "Mont Blanc" killed 2,000 people, wounded between 5,000 and 6,000 more and caused the destruction of nearly \$40,000,000 worth of property, public spirited men are still working many hours per day re-planning and re-building the devastated area and caring for the victims of the disaster.

The Canadian government alone has appropriated \$12,000,000 for temporary and permanent relief. The British Imperial Government has given \$5,000,000 and private contributions totalled about \$3,500,000.

The work is under the direction of the Halifax Relief Commission, consisting of T. Sherman Rogers, K. C., Chairman, William Bernard Wallace and Frederick Luther Fowke, with Ralph P. Bell, secretary.

These men have been given full power and discretion to re-build homes, care for dependents, and "Expand, disburse, distribute and appropriate all moneys vested in, or paid, given or donated to the commission." A town planning scheme may also be carried out, subject to the approval of the Commissioner of Public Works and Mines.

They are still talking in Halifax of the splendid work done by George E. Graham, General Manager of the

Dominion Atlantic. His private car was wrecked by the explosion, but he got on the job immediately and organized the first emergency relief work for the sufferers.

Between 12,000 and 15,000 claims for household and personal effects have been paid; permanent pensions and disability allowances for 500 people have been settled; and 400 homes are under way and will be completed for the coming winter. Experts are in charge of the re-planning and re-building of the devastated area. Artistic houses to the number of 1,000 have been planned, and more beautiful than ever the stricken city is rapidly rising from its ruins.
