With the month half passed, the scalp record at the office of U. G. Boyer, county clerk, is as follows: Gophers 275; moles, 211 and gray diggers, 148. When it comes to the matter of losing scalps, the gophers are in the majority so far this month. Only \$41.75 has been paid out so far this month for the scalps at five cents per and there is almost \$2,000 in the county treasury which can be used only for the payment of the three kinds of scalps. A few years ago when the bounty was ten cents per scalp the funds were generally exhausted about May 1 of each year.

SURE WAY TO GET RID OF DANDRUFF

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

36 Cases Of Influenza Reported In Salem Today

Dr. O. B. Miles, city health officer, reports that a total of 36 cases of grip have been reported by physicians. It is thought there are a number of mild cases that have not been reported. None of the cases are reported as virulent. No new regulations have been issued by the state board of health. As the situation now stands, all that can be done is to obey the orders of the state board of health and not permit any number of people congregating. All pool tables are covered and all card games at the several clubs are postponed until the danger has passed, unless business requires, members of the students' army training corps will remain on Willamette campus. The downtown part of the city was almost deserted early in the evening and the appearance of things indicate that the people of the city are doing their best to cooperate with the state board of health. No cases have been reported from the country.

Neglect in placing a correct return address on an envelope recently caused a very important letter to be advertised and then sent to the dead letter office and finally reaching the parties who sent it for Salem. The letter contained a check sent to people really in need of the money. They didn't get nor have they got it yet as the failure to place the return address on the envelope made it necessary to send it to the dead letter office at Washington, D. C. The letter was so carelessly addressed that the postoffice employees could not forward it.

It is an ill wind that blows nobody good and the news stands are finding that the closing of the moving picture theatres and all lodges, and in fact meetings of every kind has had the effect of making people suddenly become interested in magazine reading. This was also materially helped by the closing of the city public library. The news stands are now doing a land office business, along with the drugstores.

About 2,000 feet of lumber will be used.

Colonel A. T. Woolpert, custodian of the armory, announces that no more drills will be held there until the ban against assemblies of all kind has been removed by the state board of health. The prune dryer of Fred Kurtz northwest of Salem burned yesterday afternoon with an estimated loss of \$14,000 and insurance of only \$3,500. About 800 bushels of prunes were burned and it was only the timely arrival of the chemical engine from the Salem fire department that saved part of the crop stored as well as that of the warehouse nearby. In the warehouse was stored about \$10,000 worth of prunes but with the help of the chemical, the flames were confined to the dryer.

This morning it was reported found half way between Oregon City and Portland. The gasoline gave out or it might be still going. It is thought that the thief was one of the boys who escaped from the reform school. Then the Ross youth who managed to get out of the county jail Sunday afternoon stole two cars before he was captured. There is hardly a day that the police station does not receive word to look out for a stolen car.

New York Newspapers Endorse Wilson's Reply

New York, Oct. 15.—New York evening newspapers that commented on the president's reply to Germany approved it. "In four points of the highest import, the president says exactly what the American people expected and desired," declared the Evening Sun. "The president's declarations are excellent. The Evening Post said: "President Wilson has entirely disposed of the grumblers and doubters who were increasing and multiplying the past week the demonstration of the president's skill and vigor in dealing with Germany is now complete. And into the mind and heart of Germany he must have struck something like terror."
