A group of the senior girls at Willamette university held a merry get together party recently at the home of Mrs. A. L. Johnson on State street. A number of the incoming college girls were guests of the upper class girls for the evening, which was gayly whiled away with a variety of impromptu diversion. Acting as hostess for the occasion was Miss Lella Johnson, a niece of Mrs. Johnson, and a member of the senior class. About twenty two students enjoyed the affair, which was concluded with the serving of dainty refreshments.

The Oregon State W. C. T. U. in its convention last week passed a resolution strongly favoring the erection, after the war, of a normal school at Ashland, southern Oregon, and one in eastern Oregon at a point to be chosen by the normal school board of regents. The resolution cited the fact that the state is nearly 500 teachers short of the required number this year and that the normal school situated at Mouth does not meet the needs of the entire state, since only 24 students from eastern Oregon and 19 from southern Oregon are enrolled.

Tells How to Stop a Bad Cough

Surprising results from this famous old home-made syrup. Really prepared and costs little.
If you have a severe cough or chest cold accompanied with soreness, throat ticks, hoarseness, or difficult breathing, or if your child wakes up during the night with croup and you want quick help, try this reliable old home-made cough remedy. Any druggist can supply you with 2½ ounces of Pinex. Pour this into a pint bottle and fill the bottle with plain granulated sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. This recipe makes a pint of really remarkable cough remedy. It tastes good, and in spite of its low cost, it can be depended upon to give quick and lasting relief.
You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat ticks and soothes and heals the irritated membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing.
Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds.
There are many worthless imitations of this mixture. To avoid disappointment, ask for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.
