All Pacific Coast States Raise Quotas

San Francisco, Oct. 21.—Although it is certain that all Pacific Coast states have gone over the top in fourth liberty loan campaign, total subscriptions for the Twelfth federal reserve district will not be announced at headquarters here, Campaign Manager Weebs stated today. Weeks said he received orders from Washington to this effect. The only counties in the entire Twelfth district about which a doubt existed today were San Francisco and Solano in California. No new total for San Francisco was available at noon today and on the face of figures announced the city was nearly \$10,000,000 behind its quota of \$108,000,000. The Twelfth district, comprising seven Pacific coast states and Alaska and Hawaii, will go several million dollars beyond its quota of \$402,000,000 it was estimated.

SALEM RAISES QUOTA FOR LIBERTY LOAN

Honor Of Capital City Saved By Eleventh Hour Rush Of Bond Buyers.

By means of an eleventh hour rush and the banks remaining open Saturday evening, Salem finally succeeded in raising its quota for the fourth liberty loan and with Salem going over, Marion county is now recorded as one of the counties of the state that succeeded in raising its quota. The exact quota for Salem was \$667,325 and Saturday evening with all figures in, the total subscribed figured up something over \$967,400. That the city should subscribe such an amount is something to be proud of, is the opinion of those familiar with financial conditions in the city. The quota is especially large as each city is rated on its bank deposits and with Salem, this brings the quota up to an excessive figure as the banks have on deposit considerable state money, as well as heavy deposits from Polk county.

The executive committee in charge of the loan has issued a statement thanking the people of Salem for their loyalty in subscribing and also commending the workers who gave so much of their time in soliciting subscriptions. The statement also says that the banks in addition to purchasing their share of the bonds, have bought a sufficient quantity to supply those who could not buy during the campaign. One of the great difficulties solicitors experienced with this fourth loan was the fact that prime conditions are extremely unsettled and that on account of the government holding up shipment, growers everywhere have not been able to realize on their crops and did not have the money to subscribe. Another difficulty in securing large pledges was the depressing hop situation.

Table with 3 columns: District, Quota, Subscribed. Lists districts like Aumsville, Aurora, Gervais, Donald, Hubbard, Jefferson, Monitor, Silverton, Mt. Angel, Stayton, St. Paul, Turan, Woodburn, Mill City with their respective quotas and subscribed amounts.

Full returns not received from Aurora developed among the 500 employees of a quick silver mine there, it was reported. The product of the mine is badly needed by the government in the manufacture of fulminate.

In the case of James W. Clark against L. D. Kelly tried at the recent term of the circuit court, the plaintiff filed notice of a motion for a new trial on the ground that the verdict was not supported by the evidence and also on the misconduct of the jury in which they wholly disregarded instructions and did arbitrarily render a verdict for the plaintiff for \$25, said sum being absurdly unreasonable if he was entitled to any verdict at all.
