

"This Suits Me!"

It's the lad's idea of pie as it should be—he has "come into his own" now that mother uses Kream Krisp for shortening her pie crusts.

Mother only winks at her indulgence. Kream Krisp gives her the chance to "fill him up," for though she uses less Kream Krisp she can make more pie crust. And as the rich, flaky Kream Krisp pie crust is easily digested mother knows no digestive ill can follow the youngster's "fill."

Kream Krisp is every ounce pure shortening. And there's no scarcity of Kream Krisp, for it is a pure product of selected peanuts—and peanuts are plentiful.

Kream Krisp can be used again and again for frying for it has no flavor of its own and doesn't absorb any from food fried in it.

In shortening when you use Kream Krisp in place of butter or lard you decrease the quantity of shortening needed and increase the quality of your cooking.

You prove the economy of Kream Krisp in every use you make of it. Try it today.
