GIRLS! GIRLS! TRY IT! STOP DANDRUFF AND BEAUTIFY YOUR HAIR

Hair Stops Falling Out And Gets Thick, Wavy, Strong And Beautiful

Your hair becomes light, wavy, fluffier, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Dandarine hair cleanse." Wash your hair with a cloth with a little Dandarine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.
Besides beautifying the hair at once Dandarine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.
But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a small bottle of Knowlton's Dandarine from any druggist or toilet counter for a few cents.

SPANISH INFLUENZA IS EPIDEMIC HERE

Many Cases Develop Into Deadly Pneumonia. Easier To Prevent Than Cure. How To Avoid.

The constant daily increase of Spanish influenza reported by local physicians shows clearly that many people are failing to take the simple ordinary precautions necessary to avoid infection. For, while influenza, after its development, is sometimes difficult to cure, it is an easily preventable disease.

The best plan is to begin treatment before the first symptom starts. For no other disease will develop so quickly or spread so rapidly. You may feel fine today—be sick tomorrow and lose a week or more of work. You will indeed be fortunate if pneumonia does not develop.

The air today is full of influenza germs. Every breath you take is likely to draw them into your nose and throat. You can prevent the disease by killing the germs before they spread throughout your body. There is probably no safer or surer way to do this than to go to the nearest drug store and get one of the famous Hyomei Inhaler Outfits consisting of a bottle of the pure Oil of Hyomei and a little vespocket, hard rubber inhaling device into which a few drops of the Oil of Hyomei are poured.

Just breathe this Oil of Hyomei deep into your nose, throat and lungs and every particle of air that enters your breathing organs will be charged with an antiseptic, germ killing balsam that will absolutely destroy the germs of influenza that have found lodgment there.

You can't do this too often. No ordinary night and morning gargling or throat spraying will be sufficient so long as during the day you come in constant contact with infection. The Hyomei inhaler is small and can be conveniently carried in a hand bag or vest-pocket. Every half hour or so thru out the day take it out and draw a few breaths of its pure healing air into your nose and throat. By doing this you can prevent infection and check the further spread of the disease even though you are coming in direct contact with it. This is an inexpensive treatment as the inhaler will last a lifetime and further supplies of the Oil of Hyomei can be had at any drug store for a few cents.

NOTE: Oil of Hyomei, so strongly recommended above for the prevention of Spanish influenza is not a new discovery but is the application of an old and time-tried treatment to a new disease. Hyomei has been a standard in the treatment of catarrh and colds for almost twenty years and is sold by druggists everywhere. Hundreds of people in Salem and vicinity keep a Hyomei outfit with inhaler on the bath room shelf for regular winter use. If you have one get it out now and use it. If you haven't one, go to the nearest drug store and get one today. It is the duty of every person, not only for his own sake but for the community to do all in his power to prevent further spread of this epidemic and to stamp it out.

Start Tomorrow and Keep It Up Every Morning

Get in the habit of drinking a glass of hot water before breakfast.

We're not here long, so let's make our stay agreeable. Let us live well, eat well, digest well, work well, sleep well, and look well. What a glorious condition to attain, and yet, how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast.

The millions of people who are bothered with constipation, bilious spells, stomach trouble; others who have sickly skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of inside bathing before breakfast.

Jeffery, aged 73, veteran of the Philippine war and a prominent clubman, was indicted by the federal grand jury here this afternoon on a charge of using the mails to defraud in the collection of thousands of dollars for the national defense league and other war relief organizations.

thy with the idea that war work must go on without hindrance.
Austria-Hungary is virtually out of the war, now leaving Germany to fight it out alone, according to almost unanimous diplomatic circles here today.
Austria wants peace and intends to desert Germany if the allies will let her. This is the interpretation diplomats place on her appeal for an immediate armistice "without awaiting the result of other negotiations."

Hindenburg to block concessions to President Wilson.

The Voerwaerts declares the constitutional changes were rushed to frustrate the coup d'etat. Exposure of the alleged plot is believed to have forced the resignation of Ludendorff and to have started a movement also to oust Von Hindenburg.

PRACTICAL SURRENDER

(United Press staff correspondent)
London, Oct. 29.—The Austrian note to President Wilson is tantamount to surrender in the opinion today of well informed authorities and the press of London.
The Express says it is informed from authoritative sources that the allied conference at Paris soon will present to Germany the terms of an armistice, which, it is believed will include the occupation of Metz, the Krupp arsenal at Essen and other fortresses of the enemy.

AUSTRO-HUNGARIA

(Continued from page one)
Thereafter Italy might refuse to consider any terms of surrender at all, but would dictate her own peace on Austro-Hungarian soil. This possible development undoubtedly is strongly influencing the Vienna statesmen to plead with President Wilson for an immediate armistice.
This means that Austria-Hungary wants American intervention to save the Hapsburg empire from utter destruction. If America declines, the Hapsburgs' end is not far distant.
