One reason for the great increase in sales is because we have carried a very heavy stock of merchandise most of which was bought tefore the recent heavy advance in prices. This has enabled us to sell practically every item in the store at prices far below present market values.

#### SOCIETY By CAROL S. DIBBLE

Word has been received by the Chemeketa chapter of the Daughters of the American Revolution that the exercises to be held Saturday at Dallas under the anspices of the Sarah Childress Polk chapter, D. A. R., in connection with the unveiling of a monument to mark the site of the first Polk county court house will not take place as originally planned, after second consideration upon the part of the health authorities at Dallas, owing to the still prevalent influenza epidemic.

A number of Salem Daughters had planned to attend the event, one of decided historic interest in the annals of Polk county. But under the circumstances the unveiling of the monument, which is a gift of the chapter at Dallas from George W. Hawkius, will be indefinitely postponed.

## Time Brings Joy

No woman awaiting the joy of coming motherbood should allow the days to pease without using the wonderful penetrating application, Mothers' Friend.

By its requier use throughout the period the system is prepared for the coming event and strain and tension is relieved. It renders the broad fist abdominal muscless plant and they readily yield to nature's demand for expansion. As a result the nerves are not drawn upon with that peculiar wrenching strain, and nauses, nervousness, bearing down and stretching palas are counteracted. The abdomen expansio easily when buby arrives and the hours at the crisis are naturally less. Fain and danger as a consequence is avoided.

Mother's Friend not only allays distress in advance, but assures a speedy recovery for the mother. The skin is kept soft and smooth and natural and free from disfigurement.

No disease develops so quickly or spreads so rapidly. The first symptom usually is a sharp rise in temperature to 103 or 104 degrees, headache, pain in the back, throat feeling dry or sore. Unless promptly checked by proper treatment, the best plan is to go to bed and stay there for at least a week, keeping warm to avoid pneumonia and let the minor ailment run its course and also prevent the spread of the disease to others.

Most of us, in these busy days, can-not afford, if it can be avoided, to lose a week or more of work so it is all the more necessary that at the very first sign of grip or influenza a counter act-

ing treatment should be taken.
