Blood Poisoning

HAMLINS WIZARD OIL, A SAFE FIRST AID TREATMENT

How often lockjaw, blood poisoning, the loss of an arm or leg, or sometimes even life itself, results from the neglect of a slight scratch or little cut! Hamlin's Wizard Oil is a safe and effective first aid treatment. It contains no chloroform or other dangerous drugs but is composed of the most healing, penetrating oils. It is a powerful antiseptic and should be applied immediately to wounds of this kind to prevent danger of blood poisoning. Wizard Oil is a good, dependable preparation to keep in the medicine chest for first aid when the doctor may be far away. It is soothing and healing and quickly drives out pain and inflammation in cases of sprains, bruises, cuts, burns, bites and stings. Just as reliable, too, for stiff neck, sore throat, cold sores, canker sores, earache and toothache. Use a bottle from your drugstore for 25c and use the medicine. It not only soothes the sore but it kills the germs and he will return your money. If you are troubled with constipation or sick headache try Hamlin's Wizard Liver Salts. Just pleasant little pink pills at drugists for 25c. Guaranteed.

Sumpter Valley Road Given Rate Increase

In an emergency order issued by the public service commission, the Sumpter Valley Railroad company is given a 25 per cent increase in freight rates to correspond to the increase it would have received had it been retained under government control. The order is effective immediately. Ever since the railroad was first taken over by the government and then released from federal control it has been charging this 25 per cent increase in rates, over the protest of its patrons, and the company endeavored to get the commission to make its order retroactive so as to legalize the rates it has been collecting, but the commission held it did not have authority to do this. No mention is made of the company's past charges in the order issued today. Some time ago the commission granted a 15 per cent increase in certain rates on the Sumpter Valley line, and the present increase will make a total advance of 40 per cent in those particular rates. Because of the financial stringency of the company and the demands of its employees for increased wages, the situation was considered to be an emergency.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them. Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects. All the benefits of nausea, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects. Dr. E. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath. Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All drugists.

A SENSIBLE SUGGESTION.

(Woodburn Independent, Rep.) A Portland paper occasionally blurted that Oregon (meaning Portland) is not getting a square deal from this administration in the handling out of plums. It may be so. Let it be hoped that time will cure all ills and that in time the government will recognize the Oregon fitness of things and in its award sees that this state gets its proportion of pork. This "passing up of Oregon" state going republican the last presidential election or that it sent to the United States senate a democrat who adversely criticized the president's war department chief, for there are republican states, with republican representatives in congress constantly condemning the administration, that are well remembered with government contracts. There is something else the matter with Oregon. Is it because we are squeezed between the influential states of Washington and California with their brilliant and influential representatives at the national capital, Portland is principally and vitally concerned, and it is in order for that city to appoint an unbiased commission to investigate and report their diagnosis of the case in hand regardless of whom it might damage politically. Such a course, if adopted, might remove an obstacle to the progress of that metropolis. Sitting down and pouting will not cure any ills.

How And What Motor Trucks Are Saving

"Motor trucks have been used for years to a limited extent," says F. G. Delano, local dealer in Chevrolet passenger cars and trucks, "but their full worth for short and long distance hauls was never appreciated until they were called upon to do what the railroads, steamships and the horse had failed to do. And they made good. They proved beyond all matter of doubt, that for all character of transportation needs, they are the most efficient, economical and speedy carriers available for all around commercial use. At the beginning of this year there were over 400,000 trucks in use in this country. Today motor trucks are moving one-quarter as much goods as all the freight cars on all our extensive railroad systems. There is scarcely a line of business in which they are not doing a major share of the work transporting men, materials and merchandise about cities, through the country and even across the continent at a saving in time and money which, when compared with other means of transportation, represents worthwhile economy. "Nowhere else has the motor truck proved itself of more assistance than on the farm. By the end of the current year, there will be many thousands of trucks in use by farmers. These trucks will take the place of thousands of horses which in turn will release for agricultural purposes, millions of acres of land, used exclusively today to raise feed for horses. One motor truck on a farm will replace from two to four men which means much, especially at this time when farm labor is so scarce. One motor truck will easily carry twice the load of a horse-drawn wagon in half the time. One motor truck on a farm will make it a more enjoyable place to live, for it will do much to make farming easier and far more profitable. "The motor truck has proved its right to a prominent place in every line of business endeavor, where speedy, dependable and economical transportation is essential."

ROAD WORK DONE IN Marion County, September

The following is a report of road work done in Marion county during the month of September, 1918, as shown by the records in the county clerk's office:

Table with 2 columns: Item and Amount. Includes Macadamizing \$3,409.24, Graveling 5,667.97, Bridges 19,499.36, Gen'l repairs & miscellaneous 4,888.02, New tools and machinery 3,724.08, Patrolmen's salary 1,407.99, Paving 5,311.94. Total \$54,708.52.

Fate Is Unknown.

El Paso, Texas, Nov. 2.—The fate of the three Americans believed to be captives of bandits in Mexico was unknown here today. Mrs. E. F. Knotts, wife of one of the trio, has received no word concerning their whereabouts or expected demands for ransom since they were taken a week ago. Knotts, with C. B. Smith and Ammon Tianey, went to visit some Mexican property near Villa Ahumada in which they were interested. That was the last heard from them except for a brief message from Knotts stating they were prisoners.
