Correct Lubrication for the "V"-Type Engine

The Choice of Those Who Know

Manufacturers and leading mo-

tor car distributors recommend ZEROLENE. The majority of motorists use ZEROLENE. ZEROLENE reduces wear and gives more power because it keeps its lubricating body at cylinder heat. Gives less caron because, being refined phalt-base crude, it burns clean and goes out with exhaust. ZEROLENE is the correct oil for all types of automobile engines. It is the correct oil for pour automobile. Get our fubrication chart showing the correct consistency for your car.

STANDARD OIL COMPANY

At dealers everywhere and Standard Oc. Service Stations.

ZEROLENE The Standard Oil for Motor Cars

This, the "V" Type of auto-mobile engine, like all internal combustion engines, requires an oil that holds its lubricating qualities at cylinder heat, burns bers and goes out with exhaust. Zerolene fills these requirements perfectly, because it is correctly refined from celected California amphall-base crude.

R. H. CAMPBELL, Special Agt., Standard Oil Co., Salem
