The Joy of Motherhood Told

Women Tell How They Made Event One-of- Great Happiness.

In every part of the land there are women who tell how, through the application of Mother's Friend, they entirely avoided the suffering usually incident to motherhood. They relate in no uncertain terms how from its use the days were made bright and cheerful and the nights calm and restful, how the crisis was passed without the usual suffering experienced when nature is unaided, and how they preserved their health and strength to devote it to the rearing of their children and to the things life holds for them.

Mother's Friend is a most penetrating remedy, prepared especially for expectant mothers from a formula of a noted physician. Strain upon the ligaments is avoided, and instead of a period of discomfort and constant dread it is a season of calm repose. The hours at the crisis are less, and Mother's Friend enables the mother to retain her natural grace, and her skin is not cracked and does not become hard or disfigured.

State Treasurer Kay Thinks Situation Bad

The defeat of the state tax bill in the election Tuesday has put the state in an awful predicament, in the opinion of Governor Withycombe and State Treasurer Kay, two members of the state board of control, while Secretary of State Oleott, the third member, points out that the next legislature is going to have to do some tall pruning if it keeps its appropriations within the amount of state taxes that may be raised under the six per cent tax limitation.

If the money will not meet the state's needs, Mr. Kay points out that nothing stands in the way of the legislature making as large appropriations as it deems necessary. Then if the taxes cannot be levied to cover the amount appropriated, as soon as the state funds become exhausted the outstanding state warrants will begin to draw interest at the rate of six per cent immediately after they are presented for payment and stamped "unpaid for want of funds."

Governor Withycombe has announced that he will abolish or reduce the state military police, and save running

fer the original bulletin.

The second quoted message, however, shows clearly by the reference to the fact that Brest celebrated "night-lung" that it was filed today. It also

shows that it was sent direct from Brest and is signed only by Howard, not bearing Simms' name. This message clearly indicates that Howard is in Brest although these two messages and those received yesterday are the only cables which the home office of United Press has received from him this week.

Further Explanation
New York, Nov. 8.—In view of the British and French official statements today showing continued fighting on the western front, the United Press issued the following statement from its general offices here:

"Our cable received from Paris at noon yesterday, signed by Roy W. Howard, president of the United Press and William Philip Simms, manager of the Paris bureau, reporting the signing by the allies and Germany of an armistice, was written in plain English and not susceptible of any possible mis- construction, as received in this office.

"No censors could have had any doubt as to its plain meaning.

"After the receipt of the second message, reporting the celebration in Brest, we received no further word whatever from Mr. Howard or Mr. Simms, although messages were dispatched to them as early as 1 p. m. yesterday. Following is the exact cable copy of the original message, as transmitted to the United Press.

"Unipress, New York. Urgent armistice allies Germany signed eleven morning hostilities ceased two afternoon Sedan taken snoring by Americans.

"Howard.
"Simms."
"Unipress is the cable address of the United Press. The word 'urgent' merely indicates that the message was filed at the 'urgent rate.' The words 'afternoon' and 'morning,' meaning 'this afternoon' and 'this morning' are ordinary, accepted cable contractions. It is absolutely inconceivable to us that Mr. Howard did not file further dispatches and our only possible conclusion is that the remainder of his messages were held up by a censor.

"Investigation of the matter is proceeding and we expect that it will be cleared up within a very short time."

Americans. They approached to within less than two miles of Hirson, the railway town which forms the westernmost bastion of the Ardennes. In this region they reached the general line of Etruy and Origny-En-Thierache. Further east they occupied the line of the Then river as far as Louve. On the Aisne front they held the southern outskirts of the Sigey forest, Wagnon, Vill-St. Remy, Maerly and Ladrenee.

On the right French troops advanced along the Bar valley beyond St. Aignan-Sur-Bar. In all, more than 100 villages were liberated by the French.

The British advanced on their whole active front. South of the Sambre they reached the LaCapelle-Mauberge

You Can't Rub It Away; Rheumatism is in the Blood

Liniments Will Never Cure.
If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will?

Do not try to rub the pain away, for you will never succeed. Try the sensible plan of finding the cause of the pain, and go after that. Remove the cause, and there can be no pain. You will never be rid of Rheumatism until you cleanse your blood of the germs that cause the disease. S. S. S. has never had an equal as a blood purifier and scores of sufferers say that it has cleansed their blood of Rheumatism, and removed all trace of the disease from their system.
