HUNDREDS DIED IN ITALIAN DISTRICTS

Austrians Had Cut Off Food Supply Before Their Withdrawal.

Rome, Nov. 7.—(Delayed)—Hundreds of persons died of starvation in the evacuated districts of Italy, after the Austrians cut off their food supply just before the withdrawal, Major Lowell of the American Red Cross, arriving from the war zone, told the correspondent today. The situation is still critical.

"The food situation in the evacuated district is appalling," Lowell said. "The population who received daily rations from the Austrians were cut off from this source three days before the evacuation. Hundreds died as a result. We found sick and wounded Italians and Austrians who had been three days without food. In one town more than 100 had died of starvation; in another 150."

"Towns were absolutely stripped of everything in the way of food and clothing. The first day after the enemy withdrew we shipped into the liberated districts thirteen carloads of supplies and medicines. Five left the next day. Our rolling kitchens are feeding 60,000 people a day. Formerly they were attached to the American brigades; now they are attending to civilians."

"We have placed our selves at the disposal of the government for aid in the relief of occupied districts and are establishing warehouses."

Bells were rung, whistles and auto horns tooted, and a procession was formed and paraded the streets including all men, women and children who were able to leave their work. Flags and banners were hung out and every possible demonstration of pleasure and patriotism displayed. As the crowd gathered and the festivities progressed, a number of autos appeared and soon the people were loaded into the cars

and on auto trucks and visited Sublimity where the people joined in the celebration. Rev. Father Lainck made a short talk, and the crowd returned to Stayton. Guns, fire crackers and loud noises continued until late in the evening. While, according to the Associated Press, the celebration may have been premature, the people have no satisfaction of knowing that it is only a matter of days before the report will be confirmed.

CATHOLIC BOYS JOIN WAR WORK CAMPAIGN

Girls, Too, Will Stand With Them Behind Every Fighter at the Front.

To put behind every Catholic fighter in France the support of one boy or girl in every parish throughout the United States is the plan of the National Catholic War Council for backing the Victory Boys' and Victory Girls' "Earn and Give" Division of the United Work War Campaign to raise \$170,500,000 "for the boys over there" during the week of November 11-13.

Through diocesan, county and parish organizations, the rallying of one youngster for every man who has gone to war in every community is already under way. By their own earnings, and not by contributions, it is expected that these sturdy little sponsors for the boys abroad will each raise at least five dollars for the joint welfare work of the Y. M. C. A., Y. W. C. A., National Catholic War Council, including the Knights of Columbus, War Camp Community Service, Jewish Welfare Board, American Library Association and Salvation Army.

Boys and girls in every Catholic parish throughout the United States are already being picked to represent each fighting man who has left their church for the front. In every home that files a service flag little brothers and sisters, sons and daughters, are eagerly volunteering to look out for the share of their family fighter in the huge joint welfare campaign for all the boys abroad.

Thirty American newspapers are received there daily. One hundred and fifty magazines are in use daily and 400 pieces of athletic equipment furnished by the "Y" are put to good use.
